

# Автоматизация звука «л» в связной речи

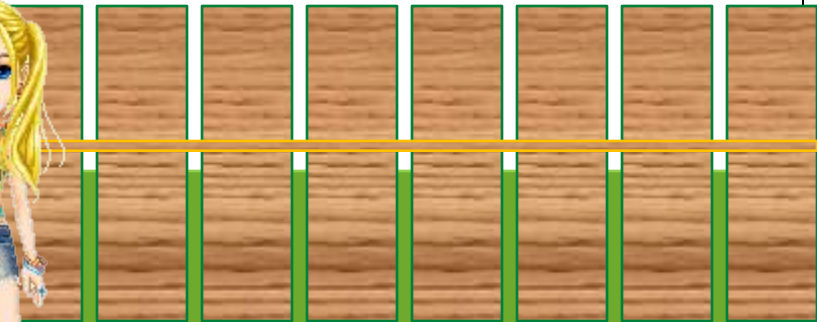

с использованием театра картинок на фланелеграфе

Выполнил учитель-логопед  
МБДОУ №69 «Малышка»  
Наноян Юлия Ивановна

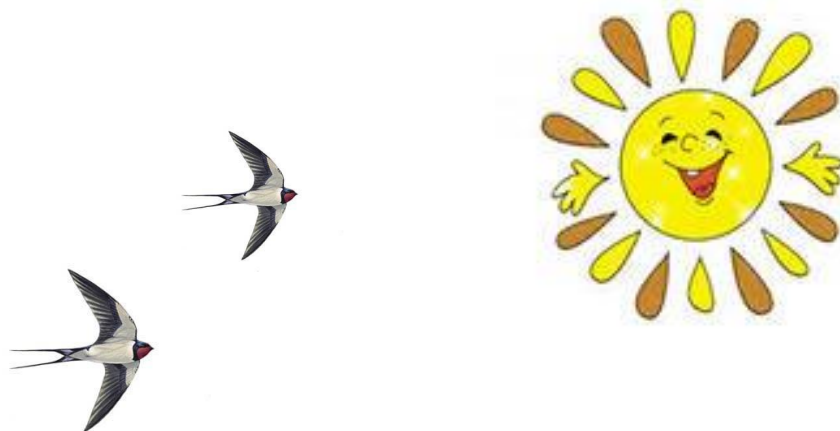

Вышла Мила  
рано утром во  
двор.

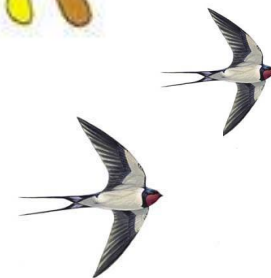

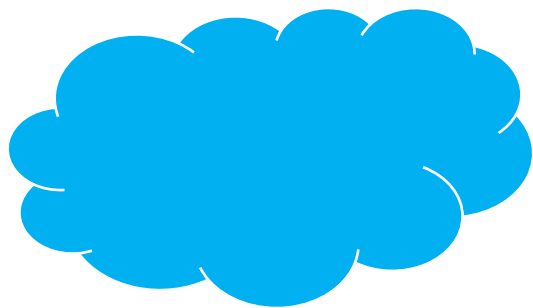

Видит :высоко  
в небе  
парят ласточки.

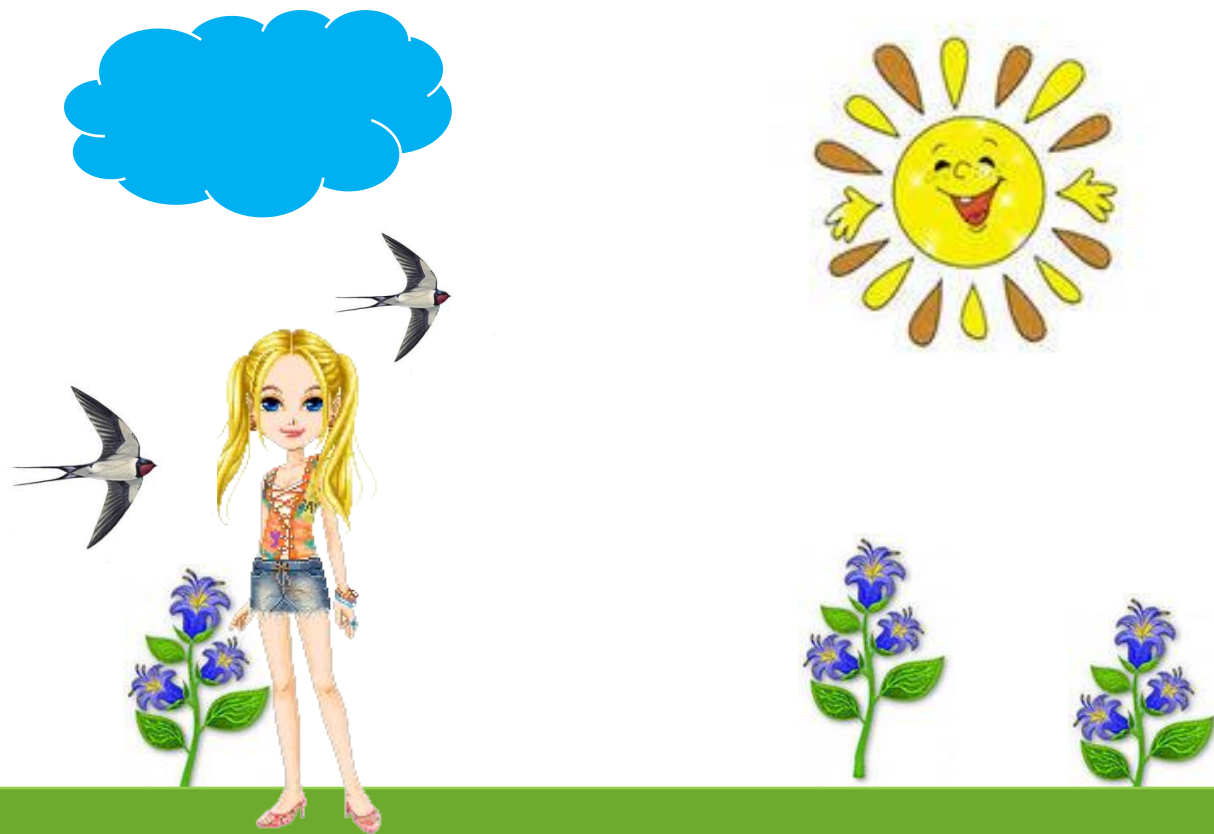

Приветливо  
улыбается ей  
ласковое,  
лучистое  
солнышко.

По небу плывут  
голубые облака.

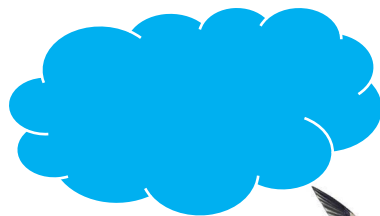

Хотела Мила  
сорвать один  
колокольчик, даже  
руку протянула.

Но передумала :  
жалко стало  
портить такую  
красоту.

«Пусть Растут» —  
подумала Мила .

Пусть  
растут!

Вдруг прилетела  
пчела и  
закружилась над  
цветами.

Увидела Милу,  
сердито зажужжала

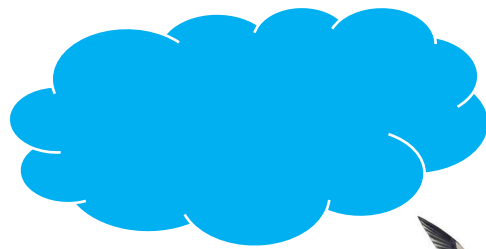

:

уж-ж-жалю,

уж-ж-жалю .

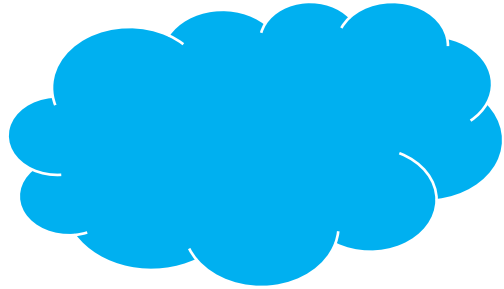

«Не бойся»-  
ласково сказала  
Мила, я тебя не  
обижу.

Успокоилась пчела и  
села на самый яркий,  
самый большой,  
красивый  
колокольчик .

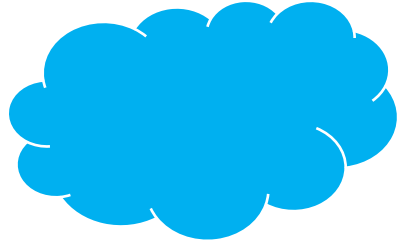

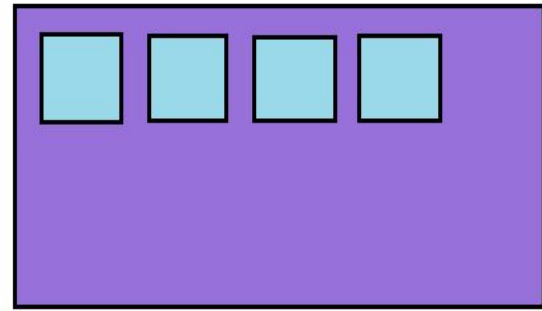

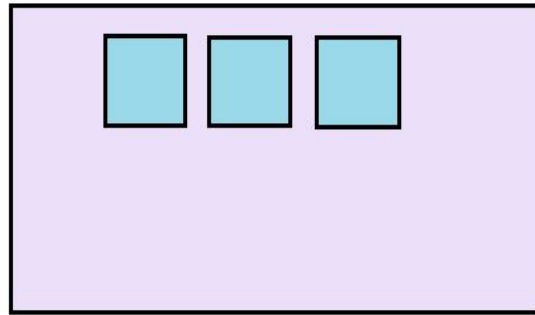

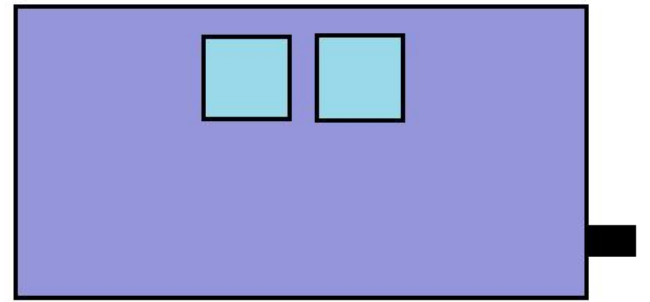

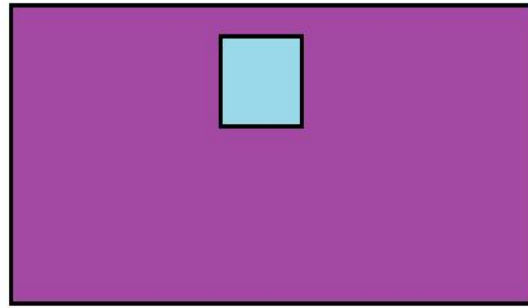

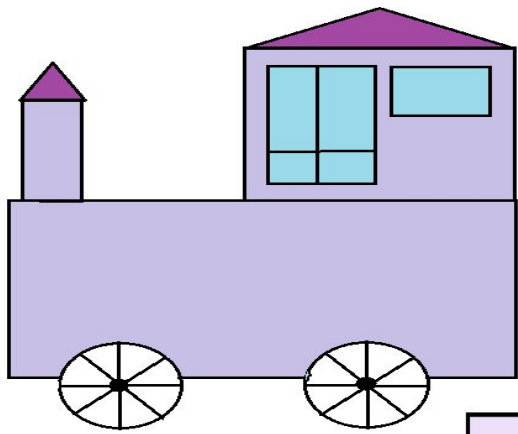

«Нектар собирает »-  
подумала Мила и  
тихо отошла в  
сторонку.

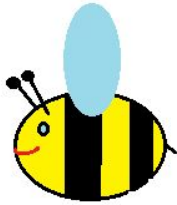

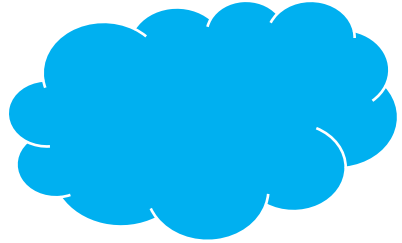

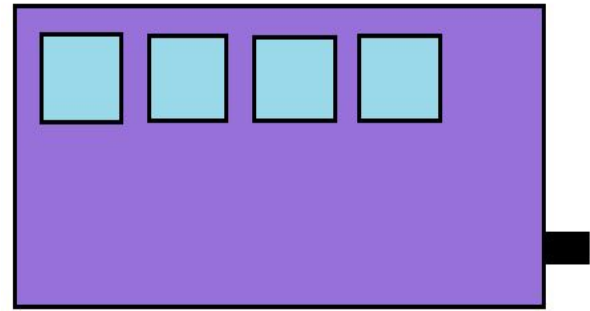

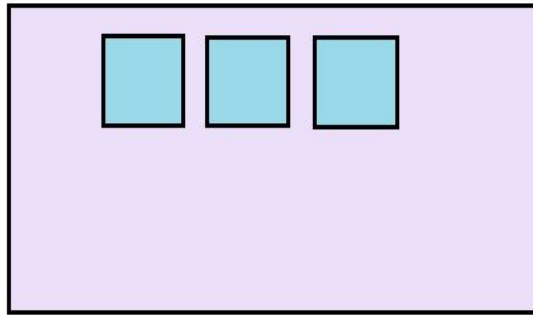

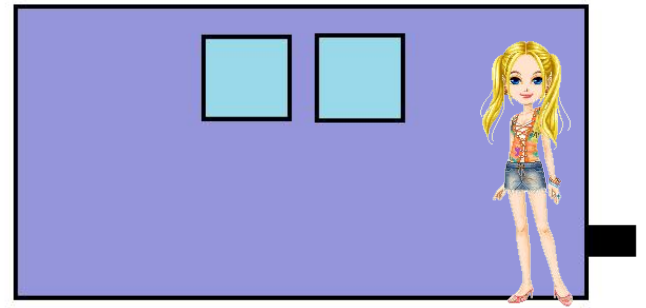

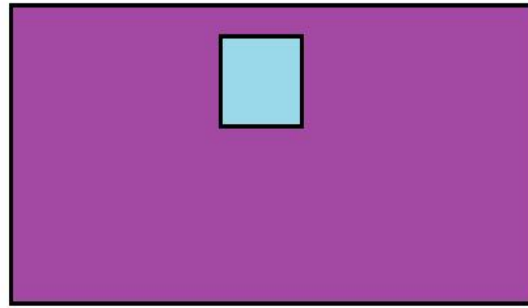

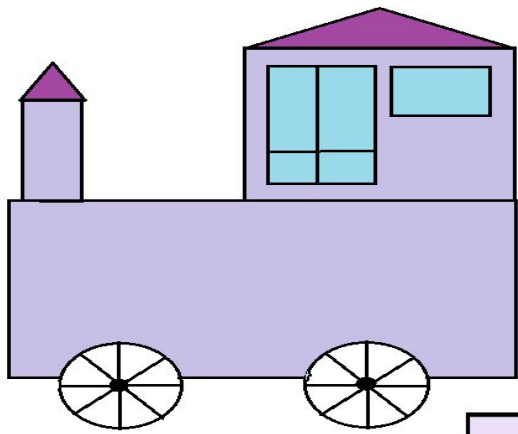

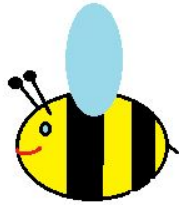

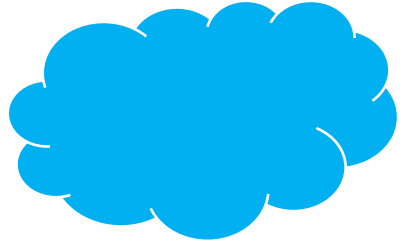

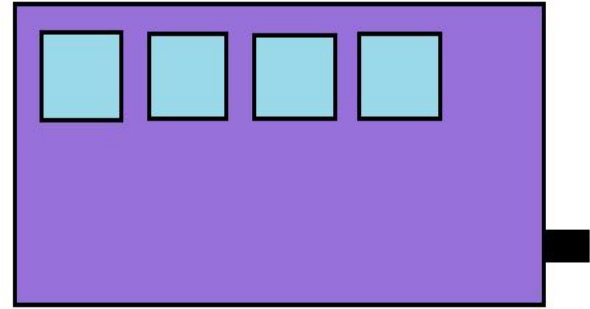

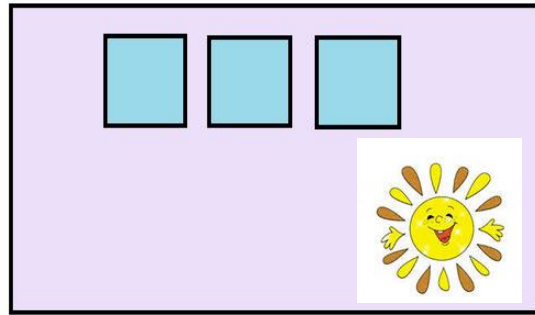

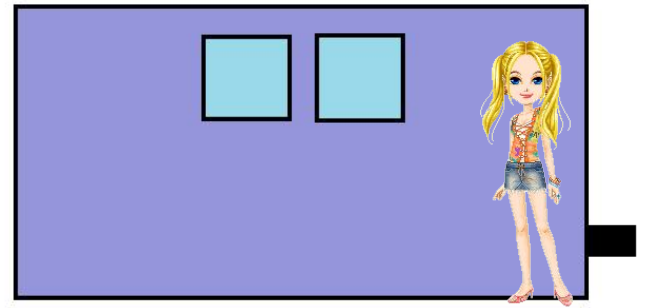

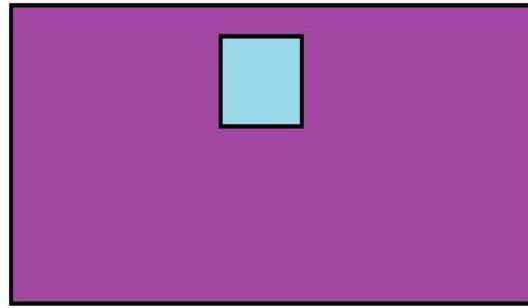

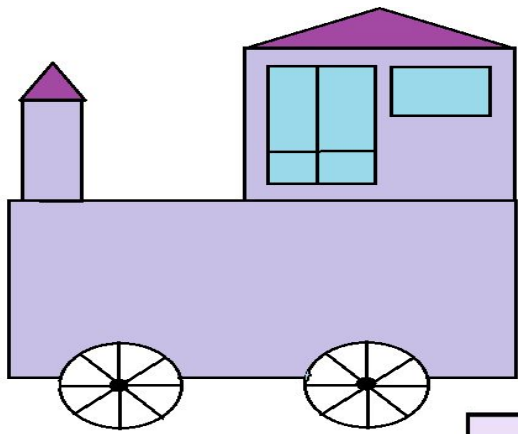

Молодец!

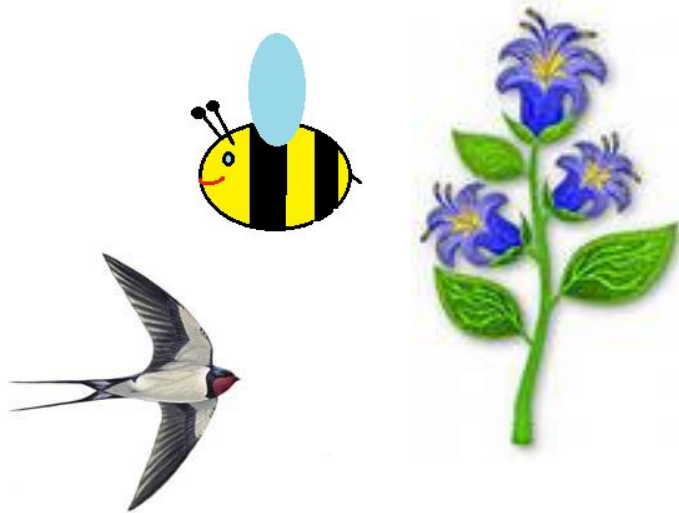

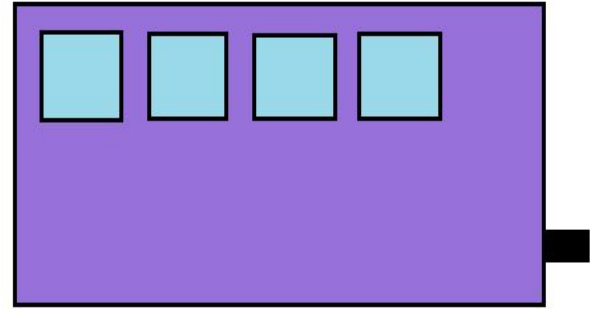

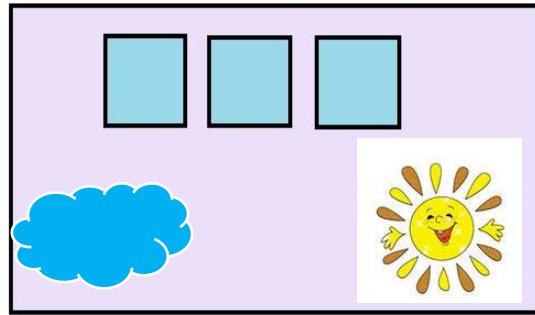

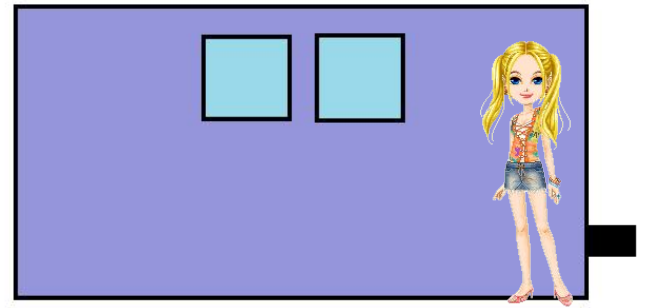

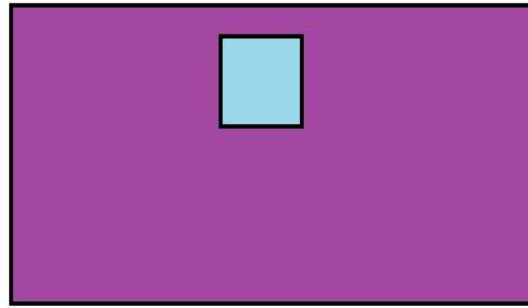

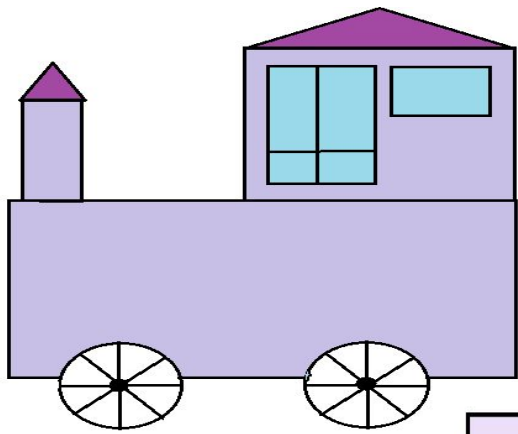

Дидактическая  
игра: «Погрузим  
картинки в  
вагончики»

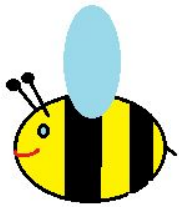

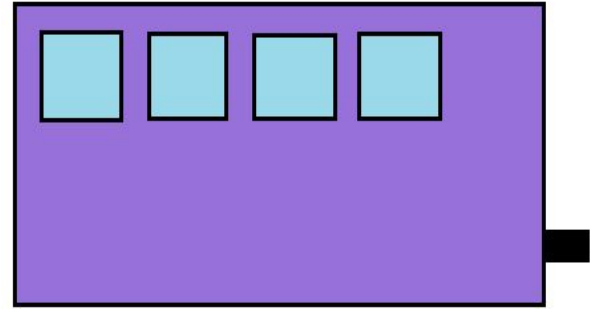

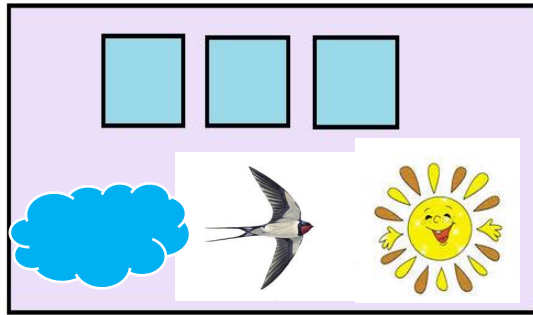

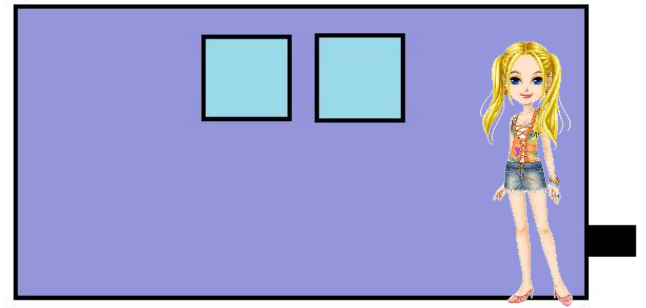

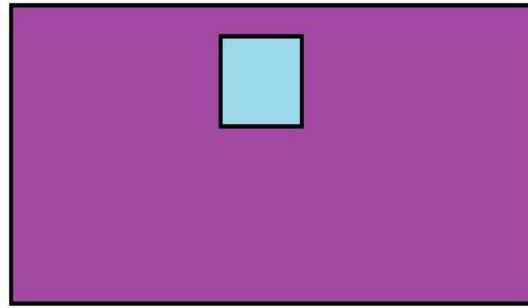

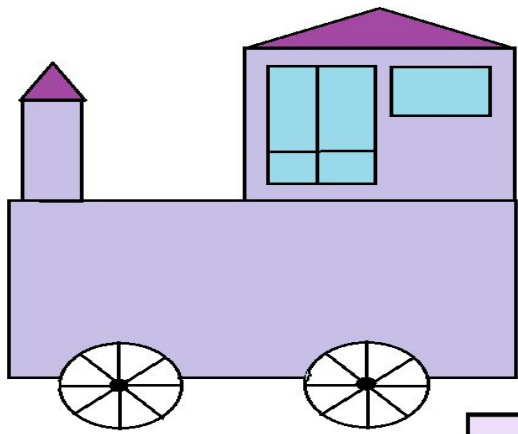

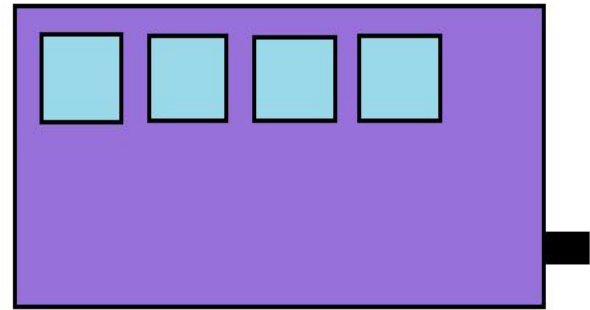

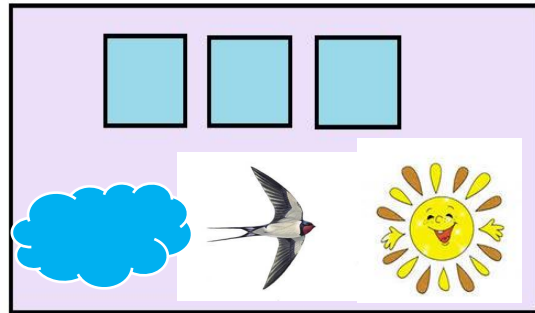

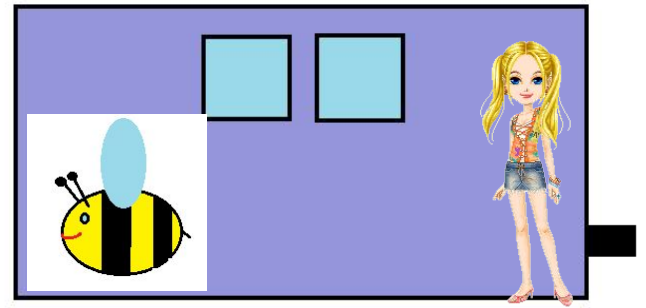

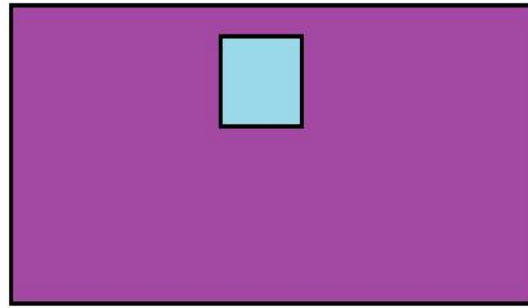

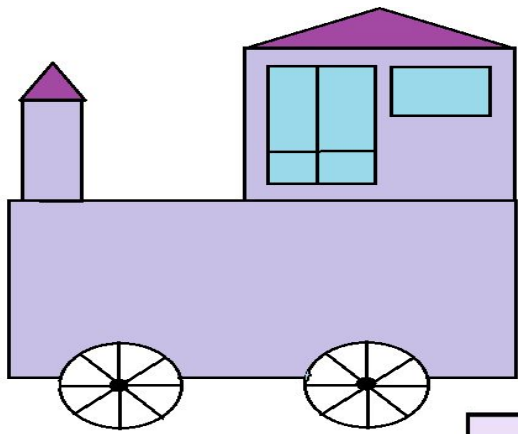

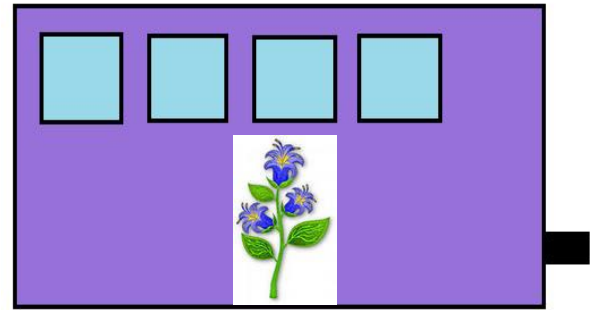

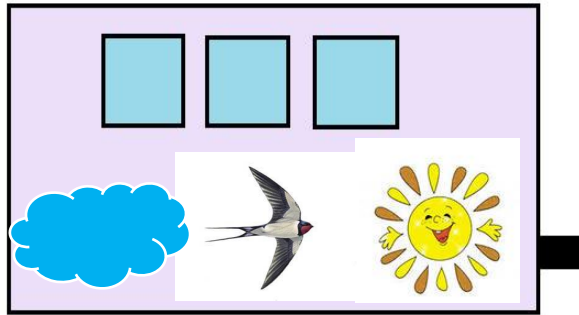

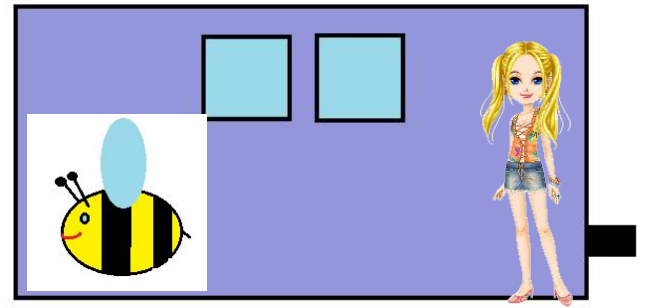

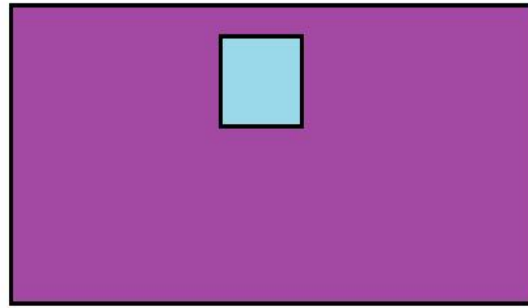

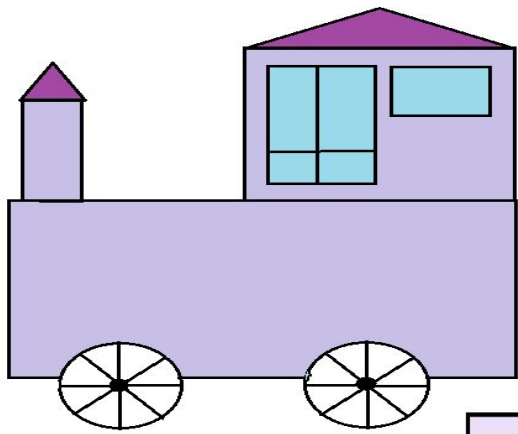

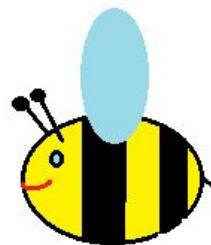

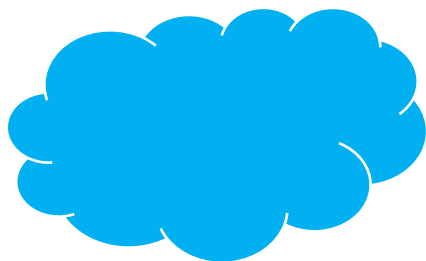

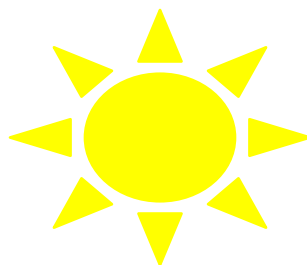

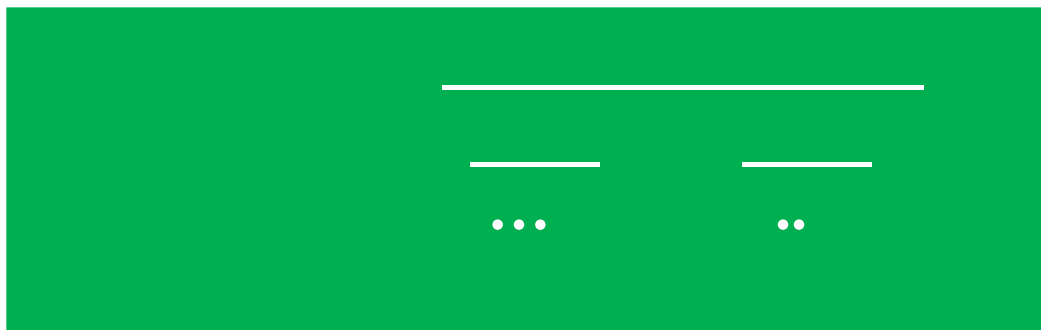

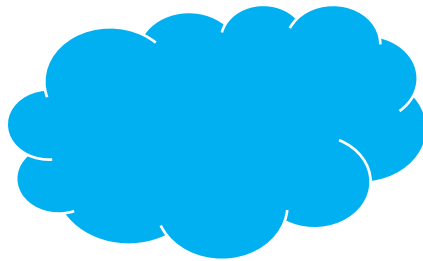

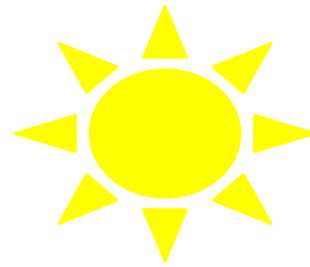

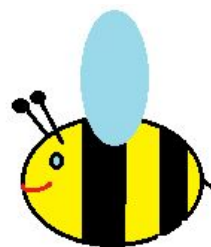

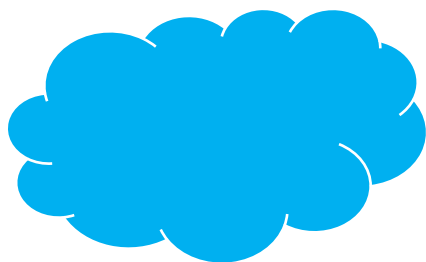

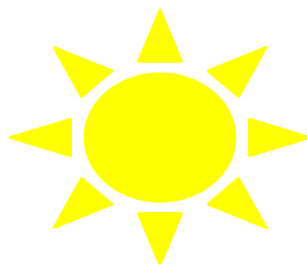

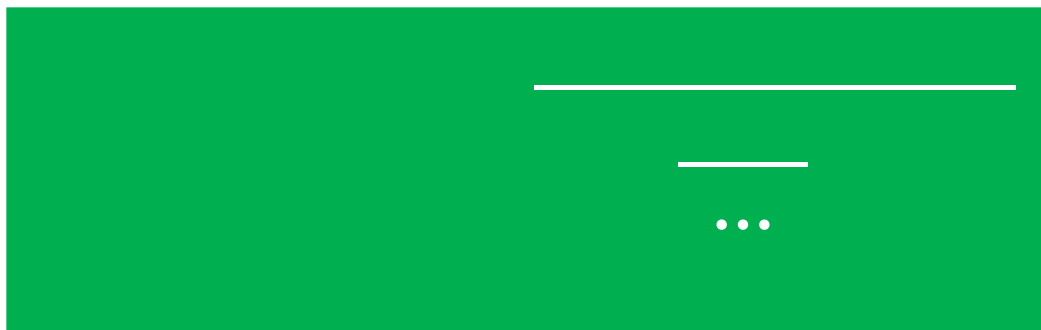

Молодец!

Дидактическое упражнение:  
«Подбери слово-название  
картинки к данной звуко-  
слоговой модели»
