Виды контроля

- Текущий
- Промежуточный
- Итоговый

- Самоконтроль учащихся

Форматы контроля

- Контрольная работа
- Тест
- Альтернативный контроль (например, проектная работа, ролевая игра, портфолио)

Характеристики контроля

- Валидность (validity: контролируем то, что заявлено)
- Надежность (reliability: тест дает стабильные результаты, их можно повторить)
- Объективность (общее впечатление vs. критерии)
- Регулярность

Типы тестов и их назначение

Тип тестов	Назначение
Установочный тест (entry/placement test)	Каков должен быть уровень обучения
Тест успешности изучения курса (progress/achievement test)	Что учащиеся усвоили в процессе изучения и по окончании курса?
Тест владения языком (proficiency test)	Что учащиеся умеют делать на иностранном языке?)
Диагностические тесты	Каковы проблемы учащихся в изучении и использовании языка?

(Цитируется по: Методика обучения иностранным языкам: традиции и современность / Под ред. А.А. Миролюбова. – Обнинск: Титул, 2012)

Практика контроля в школе

- **Текущий контроль:** разработки учителей, наблюдения, общее впечатление от работы на уроке
- **Промежуточный контроль:** готовые контрольные работы (например, рабочие тетради «Контрольные работы», контрольные работы в учебнике, тесты в учебнике), контрольные работы, разработанные учителями, проекты учащихся
- **Итоговый контроль:** итоговая аттестация (4 *(внутри школы)*, 9 (ГИА) и 11 (ЕГЭ) классы), итоговые контрольные работы в учебнике, портфолио учеников

Практика контроля в школе

Проблемы:

- Валидность контроля, разработанного учителями
- Требования администрации (например, контролировать каждый вид РД)
- Недостаток времени (выполнение контрольной работы учениками, проверка учителем, работа над ошибками), если это время не заложено в УМК (например, резервные уроки)

ИКТ и контроль в обучении английскому языку

- Развитие умений самоконтроля у учащихся
- Автоматизация контроля и оценивания
- Возможность контроля каждого вида РД
- Подготовка к итоговой аттестации (ГИА и ЕГЭ)
- Использование альтернативных методов контроля (создание проектов, портфолио учащихся)
- Сохранение результатов контроля

Электронные учебные пособия – обучающие программы к учебникам “Enjoy English”

Электронные учебные пособия – обучающие программы к учебникам

“Happy English.ru”

Электронные учебные пособия – обучающие программы к учебникам “Millie – New Millennium English”

Развитие самоконтроля

- Понятные формулировки заданий и инструкции – очевидный для ученика результат
- Показ правильности ответов сразу по выполнению задания
- Для перехода к следующему этапу работы нужно правильно выполнить предыдущий
- Бонусы как способ формирования положительной мотивации

Понятные инструкции

Задание 1.
Послушай и прочитай считалку.

Задание 2.
Перетащи строчки стихотворения под соответствующие картинки. Нажми кнопку **Check**. Неправильно расставленные строчки становятся красного цвета. Если задание выполнено верно, картинка оживает.

Задание 3.
Перетащи в предложения пропущенные слова. Нажми кнопку **Check**. Неправильно вставленные слова становятся красного цвета. Если задание выполнено верно, картинка оживает.

Ssss! It's a snake.
Zzzz! It's a bee.
Sh! It's she.
Bump! It's me.

The interface features a central yellow notepad with a spiral binding at the top. On the left side of the notepad, a list of subjects is displayed: 'Maths', 'Reading', 'PE', 'English', and 'Art'. The 'Reading' and 'PE' items are preceded by checkmarks. In the center of the notepad, a cartoon girl with brown hair and a headband is shown with her hands clasped. She is surrounded by a blue cloud-like shape with pink and purple radiating lines. The word 'SUPER!!!' is written across her chest in large, colorful, 3D-style letters. The interface is framed by a brown border. In the top-left corner, there is a green circular button with a white question mark. In the top-right corner, there is a green rounded rectangular button with a white arrow pointing right and a book icon. In the bottom-left corner, there is a green triangular button with a red stick figure icon and a brown star-shaped button with the word 'CHECK' written on it. In the bottom-right corner, there is a green triangular button with a red stick figure icon. At the bottom center, the text 'Click on the subjects that Mag likes.' is displayed in a white box. Have you ever wondered how New York City got the nickname of the Big Apple? Did you know that New York City had many nicknames in the past? When the Indians lived in New York, they gave it the first recorded nickname of Mahatta which later became Manhattan. The word "Mahatta" means "slender shape". This has to do with the narrow shape of the island's 13-mile-coast line.

The next recorded nickname was given to New York City by the Dutch. They occupied the city and called it New Amsterdam. It had this name until 1664 when the British took control of the island. At that time it was nicknamed Gotham. In comic books Batman calls home "Gotham" and many people do not know that this is New York City.

There exist a lot of opinions on why people call New York City the Big Apple. In the early 1920s, "apple" was used in reference to the many racing courses in and around the city. Apple referred to the prizes being awarded for the races.

In the late 1920s and early 1930s, New York City's jazz musicians began referring to New York City as the "Big Apple". An old saying in show business was "There are many apples on the tree, but only one Big Apple". New York City being the premier place to perform was referred to as the Big Apple.

A dull rainy morning makes me realise that the summer is over and I haven't enjoyed a single day of it. I've been working really hard on the pack of software to detect computer viruses and couldn't think about anything else. It was a challenging task – everyone knows how dangerous computer viruses can be. They can damage, steal or delete information or your entire computer may crash because of them. The best programmers cooperate to fight the viruses but in vain. As soon as the anti-virus program is created a new virus inevitably appears. This seems to be a never-ending race.

Luckily for me, I was allowed to have a break. My boss himself offered me a week off as a compensation for my sleepless nights. Now I can go wherever I want. Definitely I'll go to a place with no computers. I won't take my laptop with me either. Losing no time, I reached for my computer to search the Internet for my dream destination. Wow, there are so many wonderful places in the world! One can spend months or years reading all the information.

When the week was over, I'd processed only a small part of the information available. I think we need to design speedier searching programs for tourists and holidaymakers.

Apart from exotic sports, the number of eccentric hobbies has increased. Believe it or not, there are actually people who create sculptures and artwork from crayons. Most people use their fingernails to carve the crayon into interesting shapes. Others make things from waste materials or collect dangerous animals and insects.

The choice of a hobby depends on many things: age, gender, place of living and your character. The most popular hobby for young and middle-aged people is sport. There are different sport clubs and societies in our country. Russia is famous for rhythmic gymnastics and figure skating schools. Ice hockey is also very popular. Hundreds of people in this country do it professionally, but there are thousands of them who do it as a hobby.

All people are different. And they spend their free time in different ways. Some like sitting in front of their TVs and computers, watching videos and talking to their friends. Others prefer travelling, doing sports, gardening or collecting things. So the word "hobby" has become common to everyone. Hobby is a special interest or activity that you do in your spare time.
