Me as pillado ...

...Con las manos en la masa.

Встанем мы, когда
вы спите,
И муку просеем в
сите,
Докрасна
натопим печь,
Чтобы хлеб к
утру испечь.

A large, diverse collection of baked goods is displayed on a light-colored, patterned tablecloth. The assortment includes several long, golden-brown baguettes with diagonal slashes, some topped with seeds. There are also round rolls, some with a dark, possibly chocolate or fruit, glaze. A prominent feature is a large, curved, golden-brown roll, possibly a croissant or a similar flaky pastry. Other items include smaller buns, some with a white dusting, and a few pieces of what appear to be cinnamon rolls or similar pastries. The breads are arranged in a dense, overlapping manner, showcasing a variety of shapes, sizes, and textures. The lighting is warm, highlighting the golden tones of the crusts.
