

An underwater photograph of a vibrant coral reef. The scene is filled with various types of coral, including branching corals in shades of red, orange, and pink, and a large, intricate white coral structure in the foreground. A single butterflyfish with a yellow and white body and a black stripe is swimming in the clear blue water. The lighting is bright, highlighting the colors of the coral and the fish.

A bright sun is positioned in the upper center of the frame, casting a shimmering path of light across the surface of a vast, deep blue ocean. The sky is a clear, vibrant blue, dotted with soft, white cumulus clouds. The horizon line is straight and divides the image roughly in half.
