# WHY INVEST IN CYPRUS

- 1<sup>st</sup> reason- crisis. It seems paradoxically, BUT current price collapse creates excellent opportunities for foreign investors. You may remember how during the period from 2004 to 2009 Cyprus properties increased by 150-200%. And now, prices have fallen again but the recovery of the market will most definitely see these kind of rises again in the near future!
- Cyprus has the lowest taxation policy in Europe having only 10% corporate tax
- Cyprus has brilliant relationship with Russians and all ex-soviet states

- Cyprus gives an incentive to every investor that spend more than 300,000 to apply for indefinite residency

- Low property prices at present making Cyprus the best ever time to invest, these property prices will soon rise due to increased international interest.
- Excellent rental return on property in all areas & type of builds.
- No inheritance tax .This is a major plus as the government will not take a cent from your hard earned investments.
- Freehold Properties. Your investment is yours for life to do with as you please
- Strong legal system in place
- High education level
- Same religion with Russians so the same mentality

**There are many more reason to invest in Cyprus these are just a few to mention!**

# CYPRUS PROPERTY TAXATION

Cyprus in general has a very flexible system of property taxation. And in the current economic circumstances, the Government of Cyprus provides investors with a good discount for investment.

Let us consider an example.

Q: what taxes you pay when buying a property for 300,000 euros?

answer:

VAT = 5% (instead of 18%) for 1<sup>st</sup> time buyers and no Transfer Fees

Or no VAT and a one-time transfer tax equal to

All others pay more modest. They are:

1) Real estate tax

- 1.8% for each 1000 of Property price/ per year
- about 25 euros per year

2) Sewer service

3) Payment for garbage disposal

Q2. What you pay taxes when selling the property?

The issue you explain to our lawyer Mr. Kouzalis

**As you can see from the Cypriot government is doing its best to offer you most profitable investment of your life!**
