

ADOPTED CHILDREN

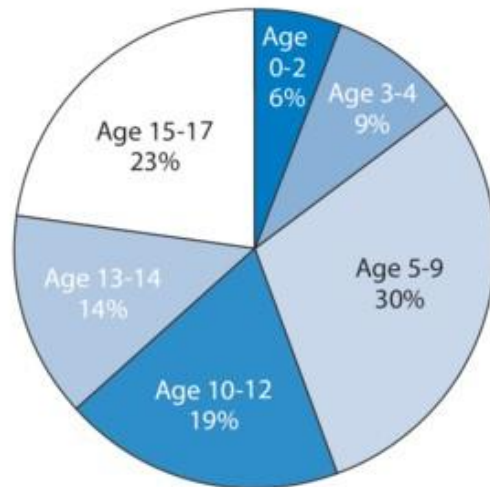

Presented by Burmistrova A.

Figure 8. Percentage distribution of all children and adopted children by child age

All children

Adopted children

Adopted children tend to be older than children in the general population. Among adopted children, 6 percent are under age 3 compared with 16 percent of children in the general population; see Figure 8. Among other reasons, this age difference is due to the fact that some children are adopted at older ages, rather than as infants. Additionally, the estimates presented here are representative of children with finalized adoptions, and adoptions typically take a minimum of six months to finalize. Larger percentages of internationally adopted children are under age 5 (24 percent) than are other adopted children (9 percent for children adopted from foster care; 13 percent for those adopted privately from the United States)

Why adoption is a positive side?

Thoughts form the character:

1. Thoughts affect feelings.
2. Feelings affect behavior.
3. Thoughts, feelings and behaviors build character.

Family gives love and care,
which is
necessary for a child.

My friend introduced the debate titled "Invisible Box". Stretching out his hand, he drew in the air imaginary box, 20 cm high and 10 cm wide, and then stepped inside the box and closed the imaginary door, he said that many people live within these imaginary boxes. How can this apply to children?

1. This imaginary box where they keep their resentment and anger.
2. This imaginary box, where they are laceration, and injected a negative attitude to everything.
3. This imaginary box where they hide many secrets and excuses.

Can this happen to your child's head? Of course!
What can you do? Hear words like these:

- *Nobody loves me.*
- *I can not do it.*
- *It's too difficult or hard for me.*

Teach your child to three simple rules, like him or her to overcome difficult times.

1. These feelings are not so terrible or awful.
2. Fear and horror - it's just a little noise, inconvenience, found on your life path.
3. Feelings do not have to know you.

Currently, many celebrities adopt children. Despite the fact that they have a very tight schedule and they are rarely home, they find time to devote his attention to children without making the differences between native and adopted children.

Nicole Kidman married to Tom Cruise could not get pregnant. But the desire to be a mother was so strong that she decided to take two at once adopted children - son Connor and daughter Isabella.
