

Advantages and Disadvantages of Cycling Trips

Some people all over the world think that cycling trips are very exciting, while others are completely against.

On the one hand (с одной стороны), cycling trips are interesting and fantastic. You can get rid of stress and relax. **Besides (более того),** you can visit lots of faraway places.

But on the other hand (но с другой стороны), they are difficult. Cycling trips depend on the weather. And your rucksack is always very heavy.

Cycling trips have both advantages and disadvantages. But, as for me, I think (но, что до меня, я считаю) cycling trips are very useful.
