

Артерии таза и нижней конечности

A.iliaca communis, a.iliaca externa,
a.iliaca interna

A. iliaca
externa

A. iliaca
interna

Aorta
abdominalis

A. iliaca
communis

A. glutea
superior

A. sacralis
lateralis

A. epiga-
strica inferior

A. glutea
inferior

A. obtura-
toria

R. pubicus

Aa. puden-
dae externae

A. circum-
flexa ilium
profunda

A. epigastrica
superficialis

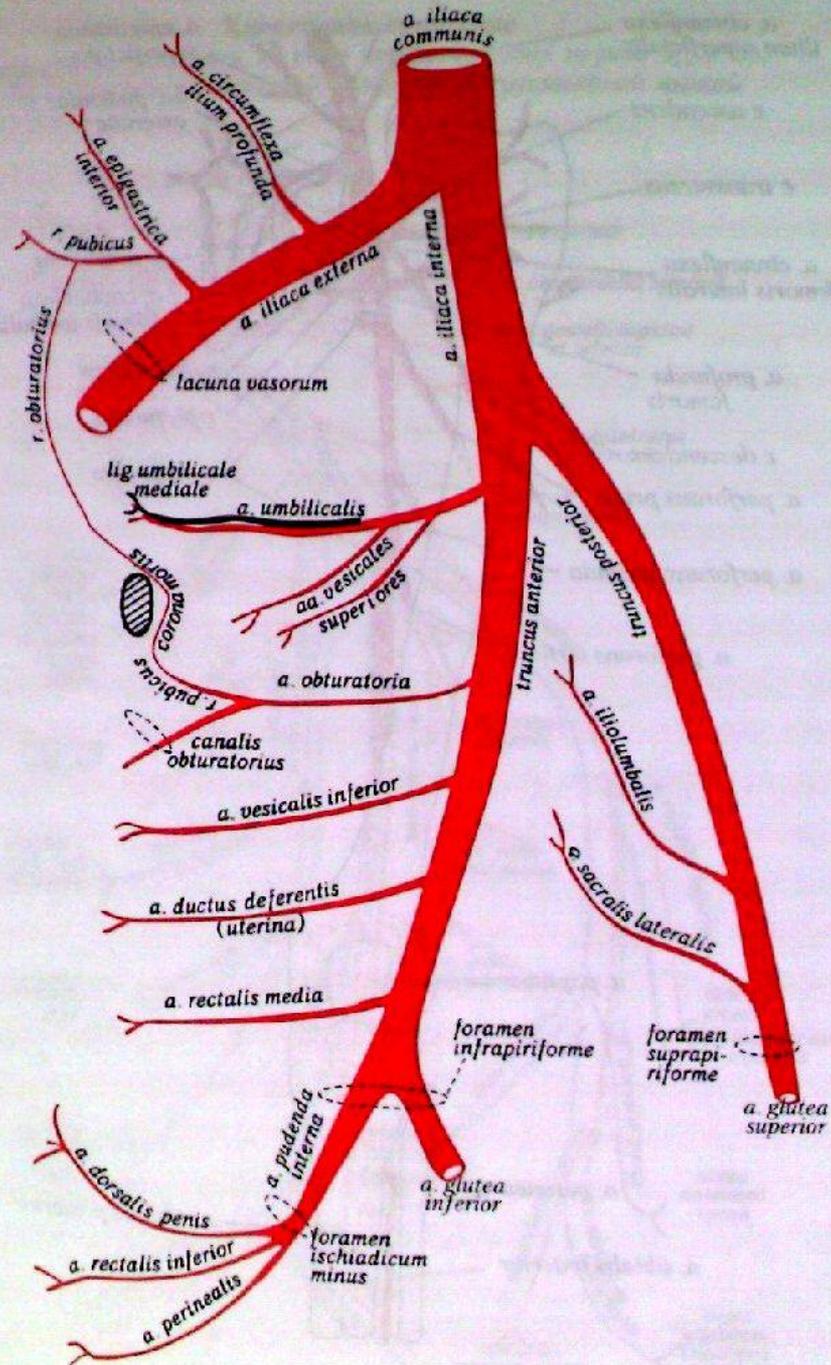

A. circum-
flexa ilium
superficialis

M. piriformis

A. circum-
flexa femoris
medialis

A. circum-
flexa femoris

*

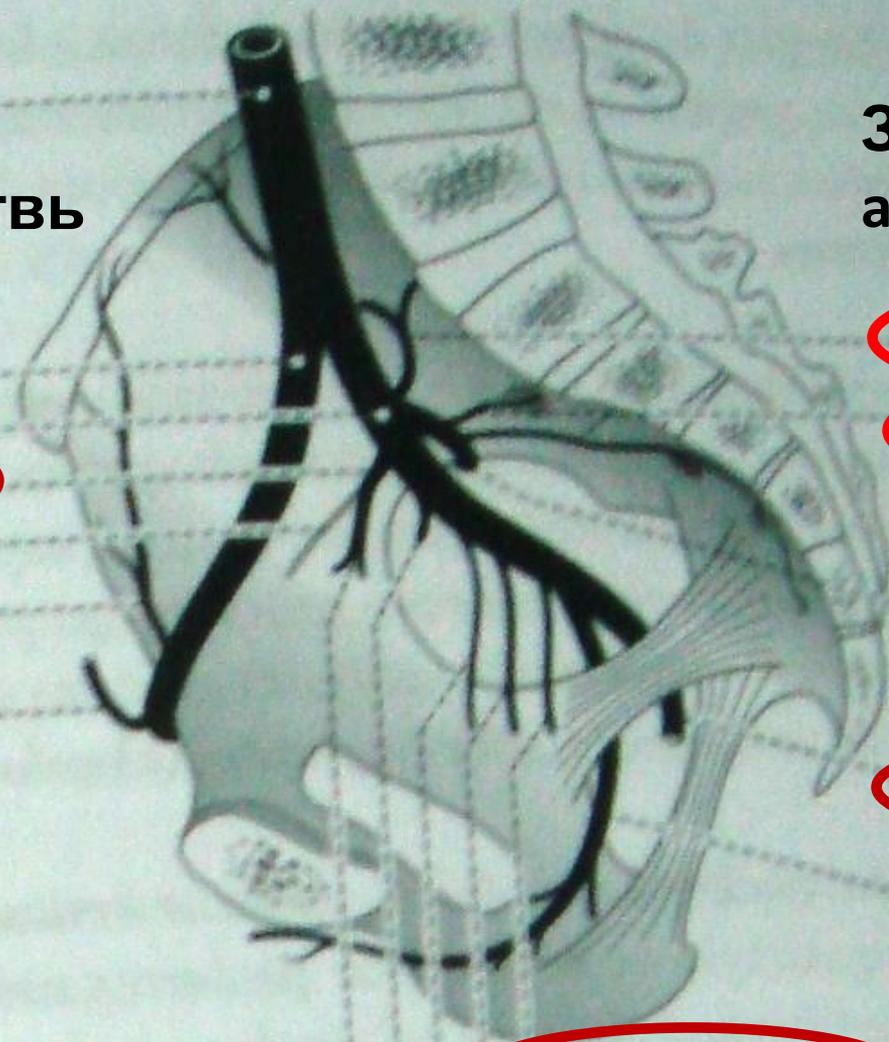

A.iliaca interna

**Передняя ветвь
a.iliacae int.:**

**Задняя ветвь
a.iliacae int.:**

A. iliaca communis
A. iliaca externa
A. iliaca interna
A. umbilicalis
Chorda arteriae umbilicalis
A. circumflexa
ilium profunda
A. epigastrica inferior

A. lumbalis
Aa. sacrales laterales
A. glutea superior
A. glutea inferior
A. pudenda interna

A. vesicalis inferior
A. rectalis media
A. ductus deferentis
A. obturatoria
A. vesicalis superior

*

Right common iliac artery

Internal iliac artery

Передняя ветвь a.iliacae

External iliac artery

Задняя ветвь a.iliacae int.:

1 - a.umbilicalis

2 - a.obturatoria

a.sacralis lateralis

aa. vesiales superiores

a.glutea superior

3 - a. vesialis inferior

6 - a.glutea inferior

Obturator internus muscle

Piriformis muscle

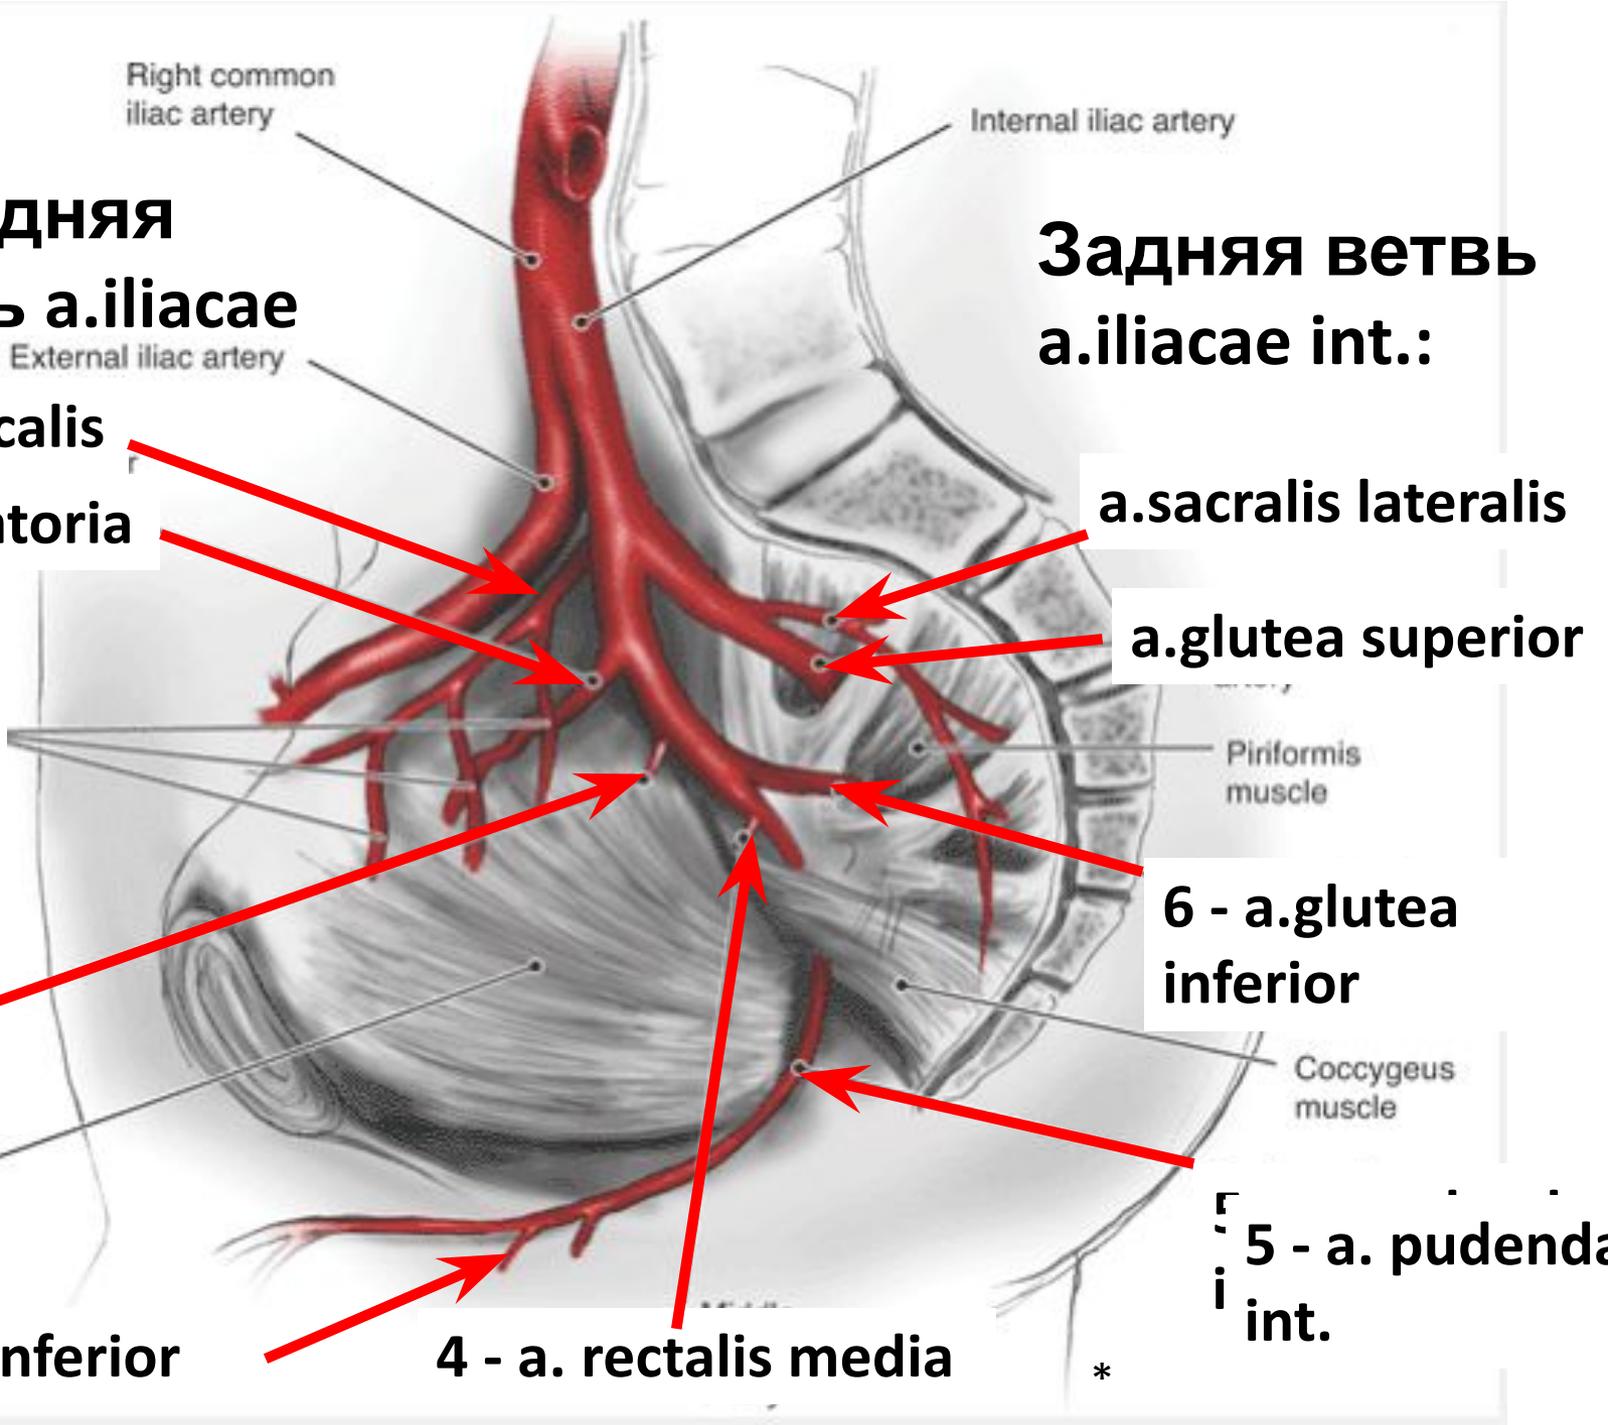

Coccygeus muscle

a. rectalis inferior

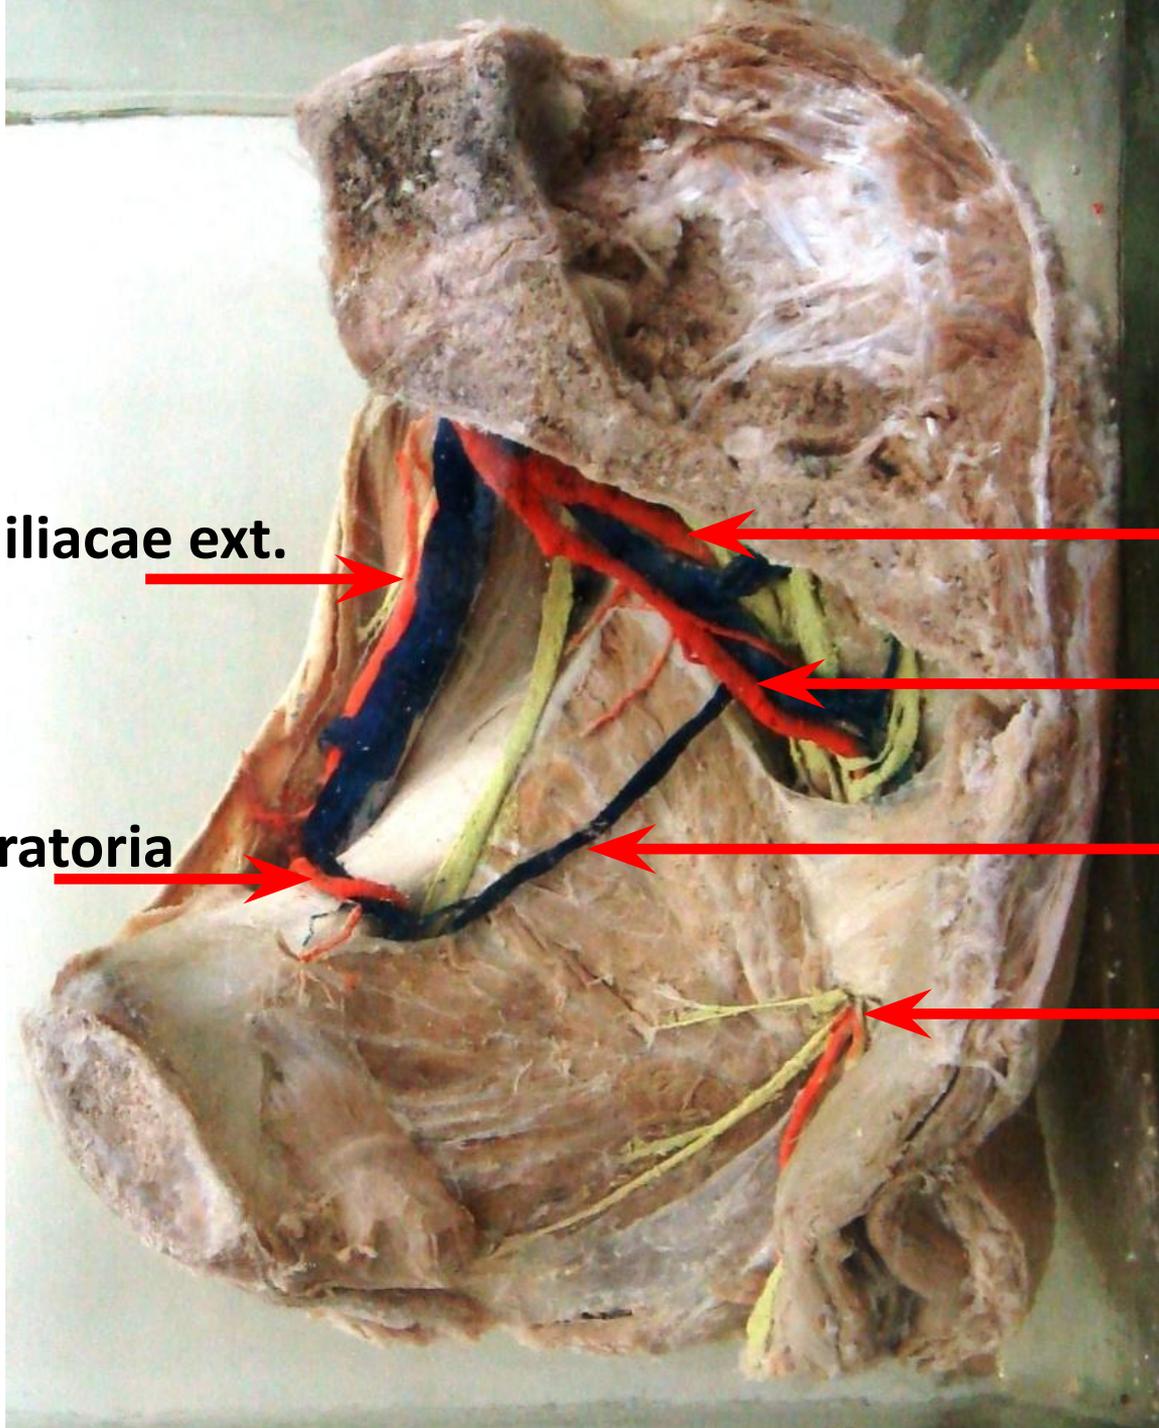

4 - a. rectalis media

5 - a. pudenda int.

*

АРТЕРИИ ТАЗА НА ПРЕПАРАТЕ

a. et v. iliacaе ext.

a. obturatoria

Задняя ветвь

a. iliacaе int.

Передняя ветвь

a. iliacaе int.

v. obturatoria

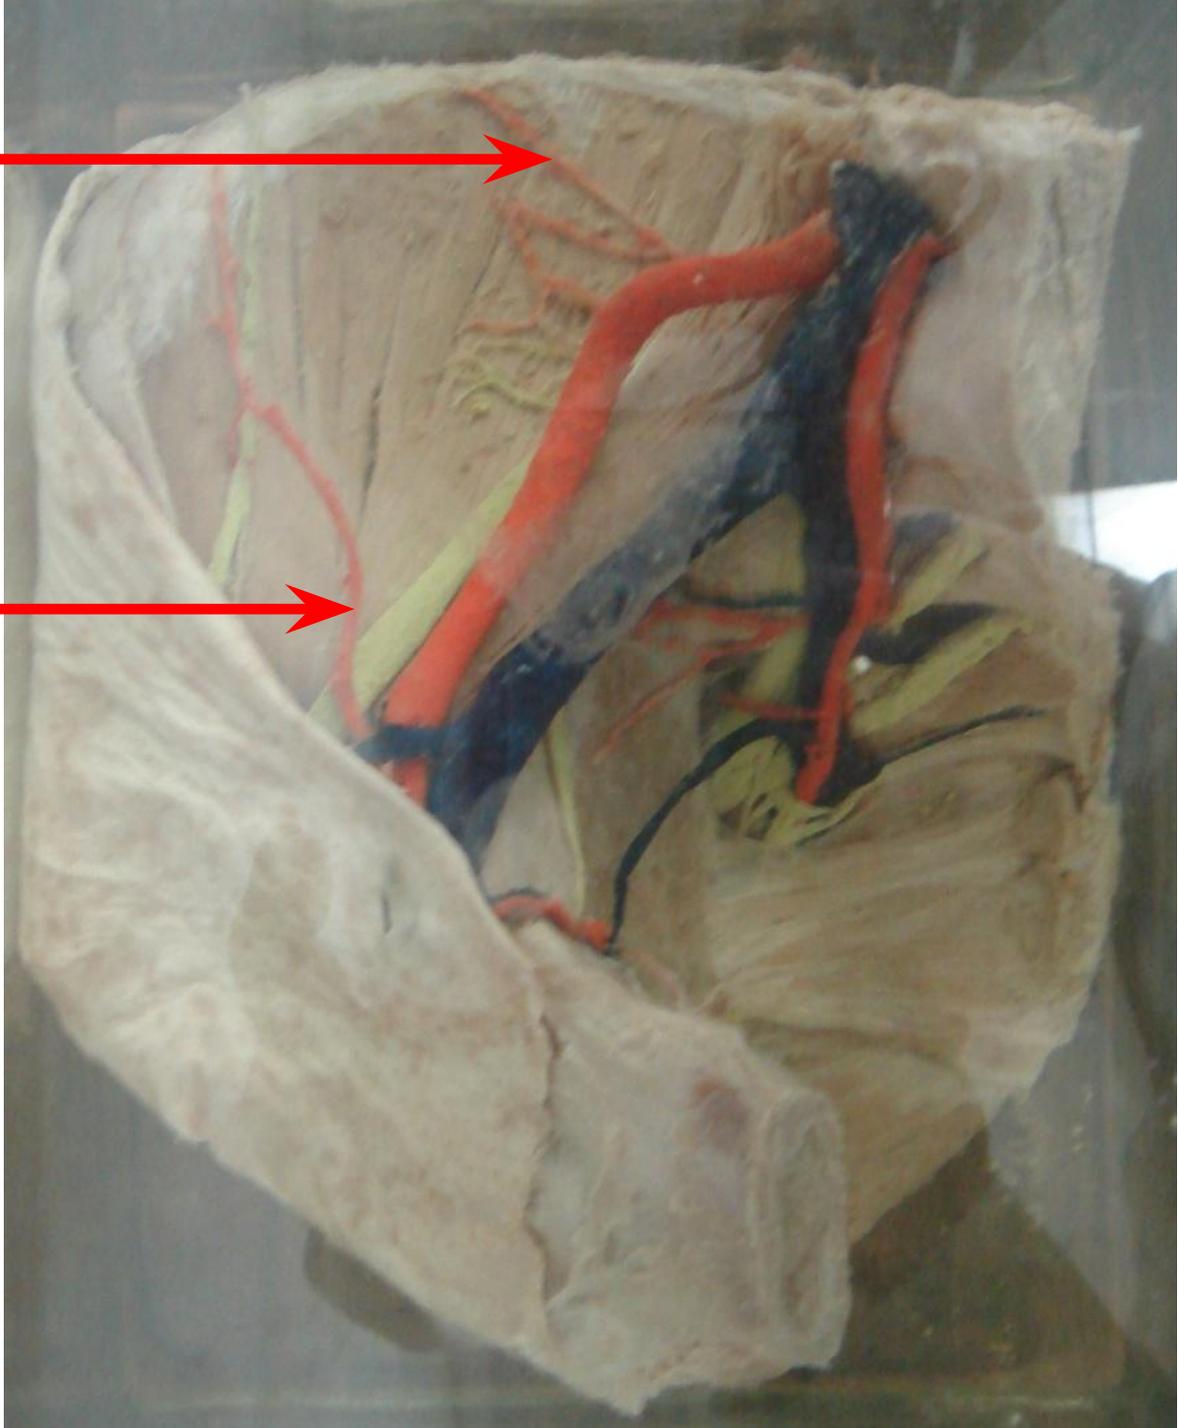

a. pudenda int.

*

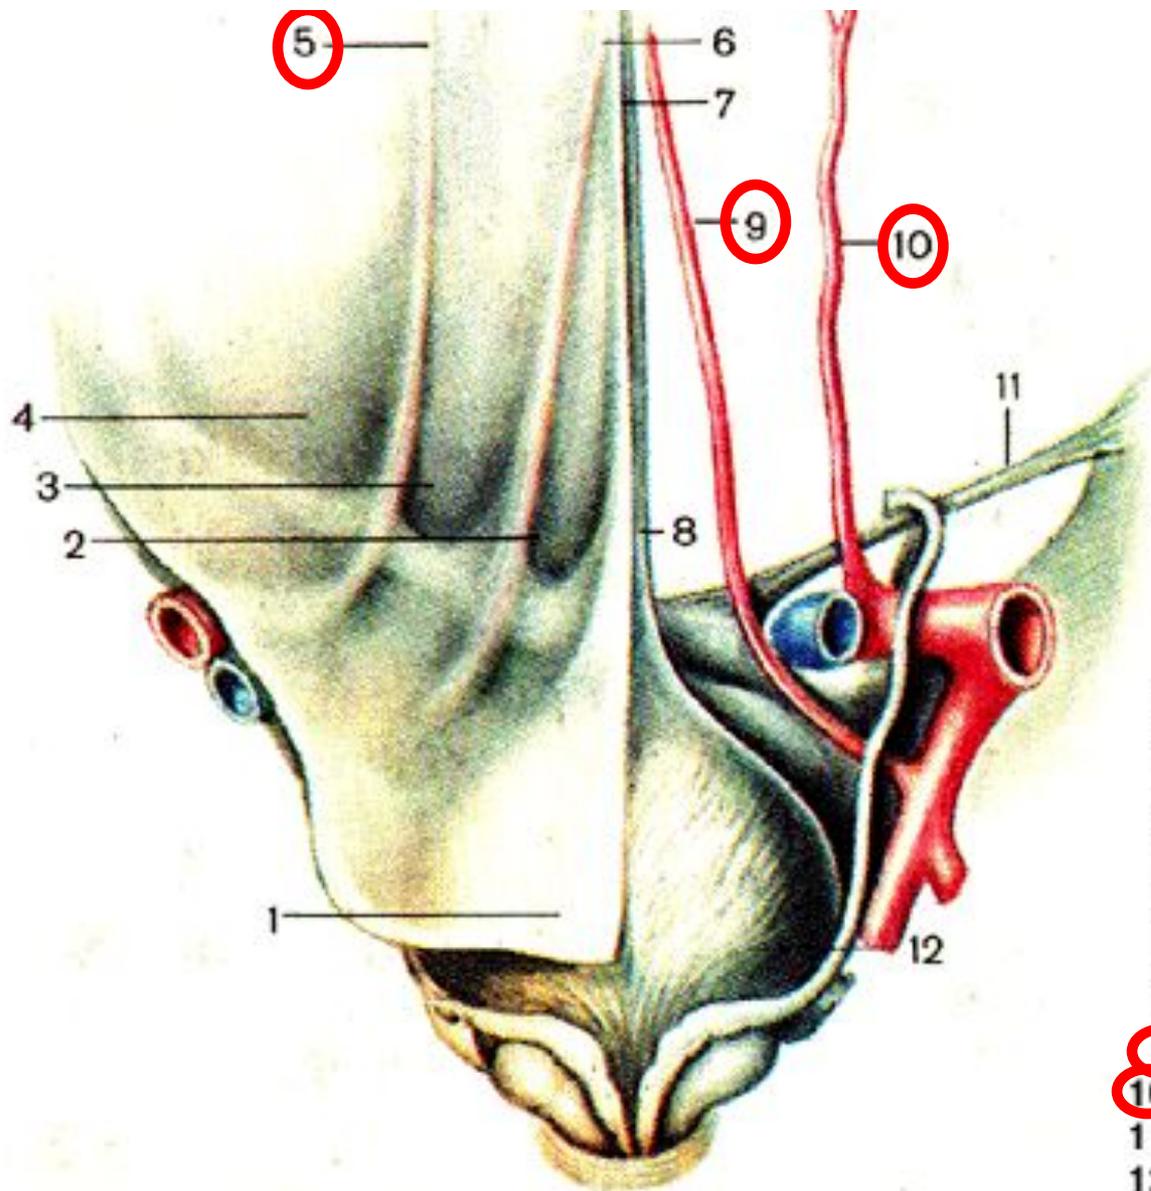

a. iliolumbalis

**a. circumflexa
ilii profunda**

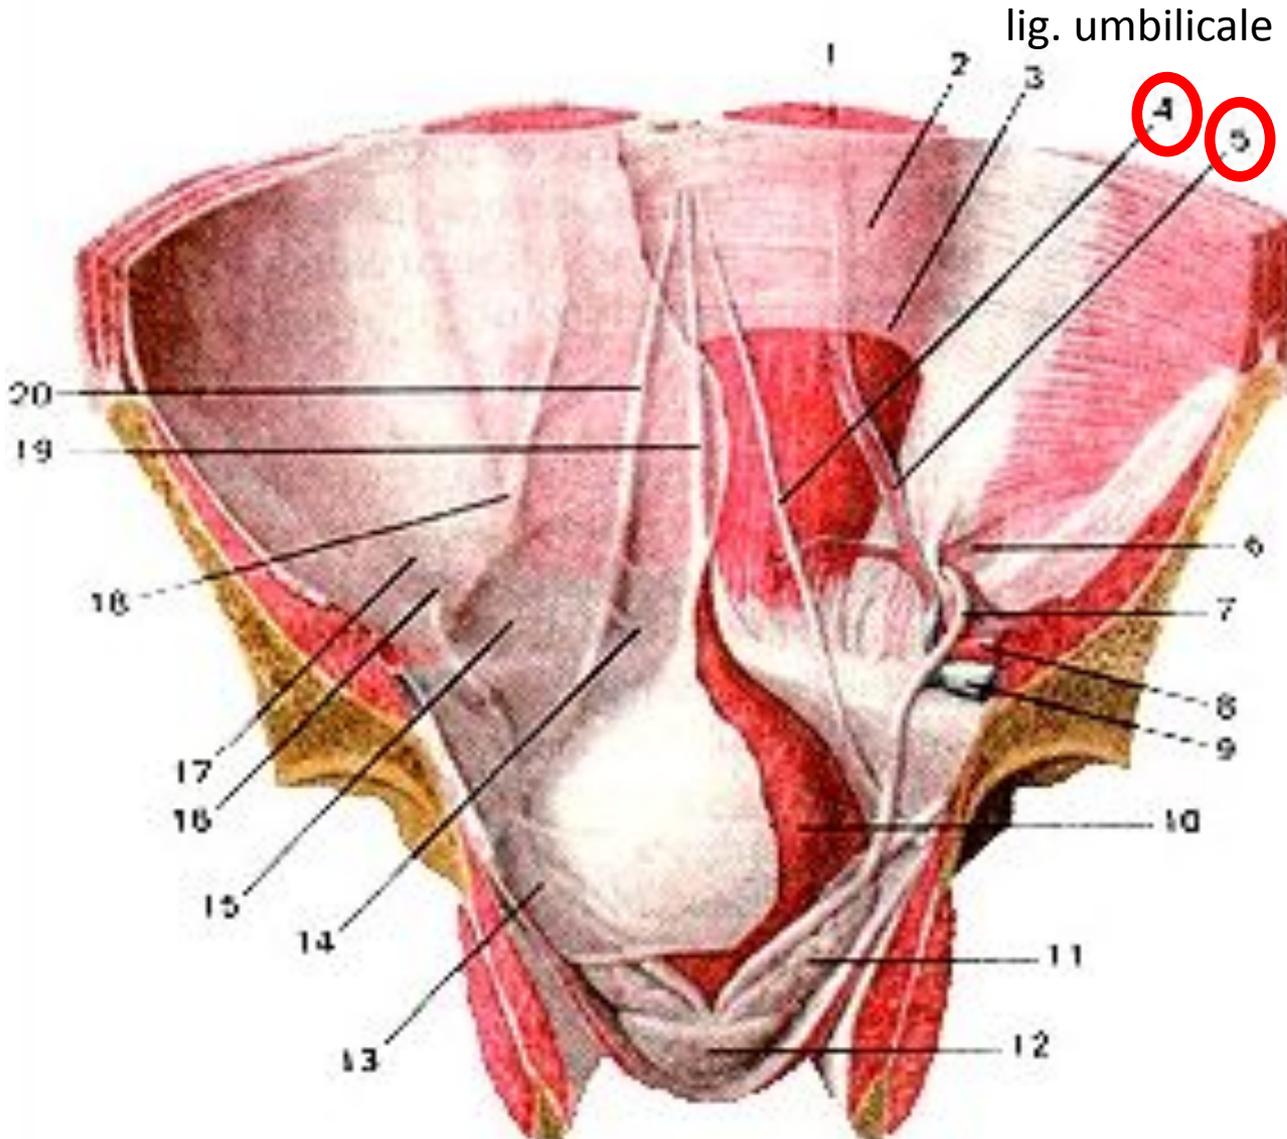

Слабые места и артерии передней стенки живота плода

- 1 – peritoneum;
- 2 – fossa supravvesicalis;
- 3 – fossa inguinalis medialis;
- 4 – fossa inguinalis lateralis;
- 5 – plica umbilicalis lateralis;
- 6 – plica umbilicalis medialis;
- 7 – plica umbilicalis mediana;
- 8 – lig. umbilicale medianum (urachus);
- 9 – lig. umbilicale mediale (a. umbilicalis);
- 10 – a. epigastrica inferior;
- 11 – lig. inguinale;
- 12 – vesica urinaria.

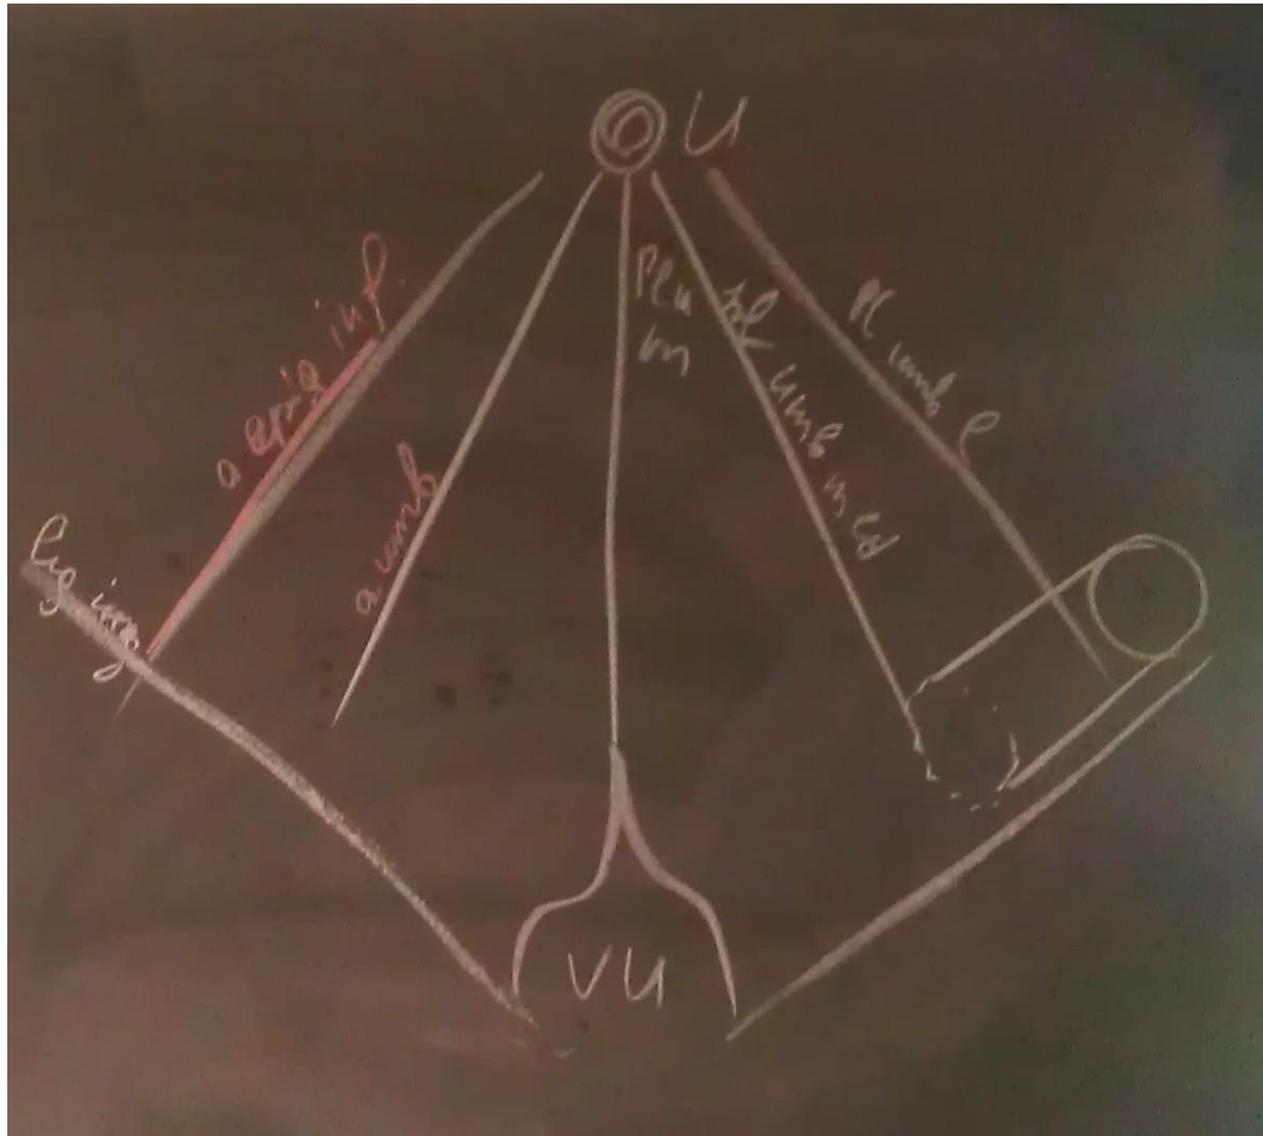

*

Слабые места и артерии передней стенки живота взрослого

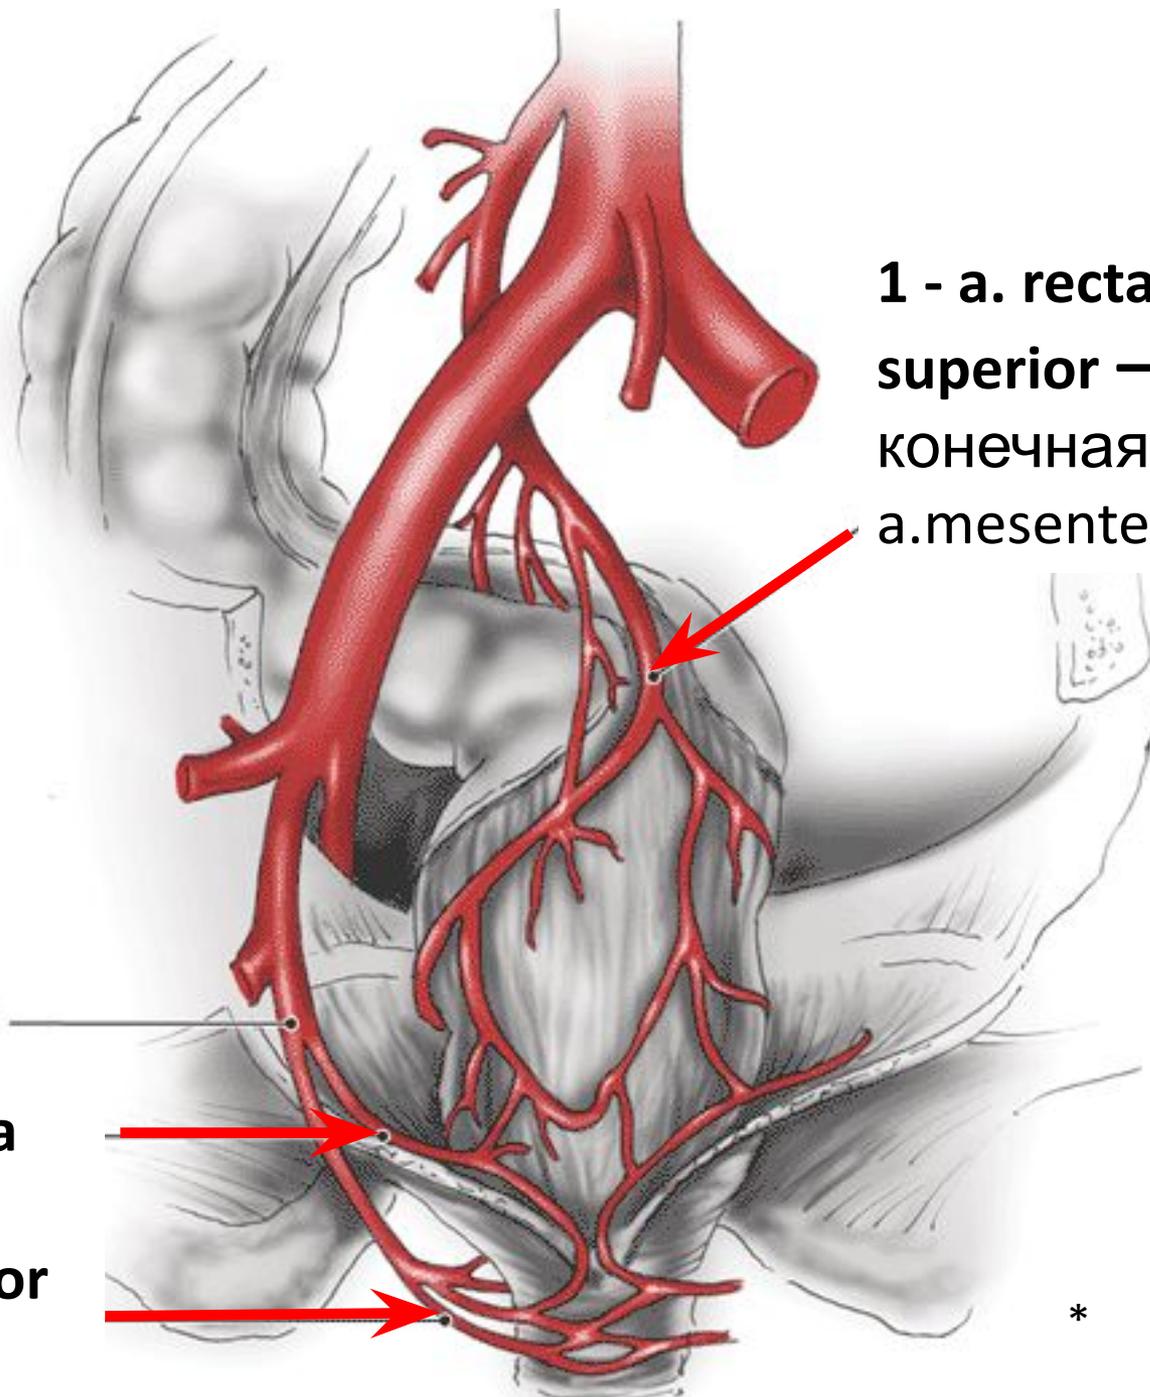

a. epigastrica inferior
(ВЕТВЬ a. iliaca externa)

Слабые места и артерии передней стенки живота взрослого

КРОВΟΣНАБЖЕНИЕ ПРЯМОЙ КИШКИ

1 - a. rectalis superior –
КОНЕЧНАЯ ВЕТВЬ
a.mesenterica inf.

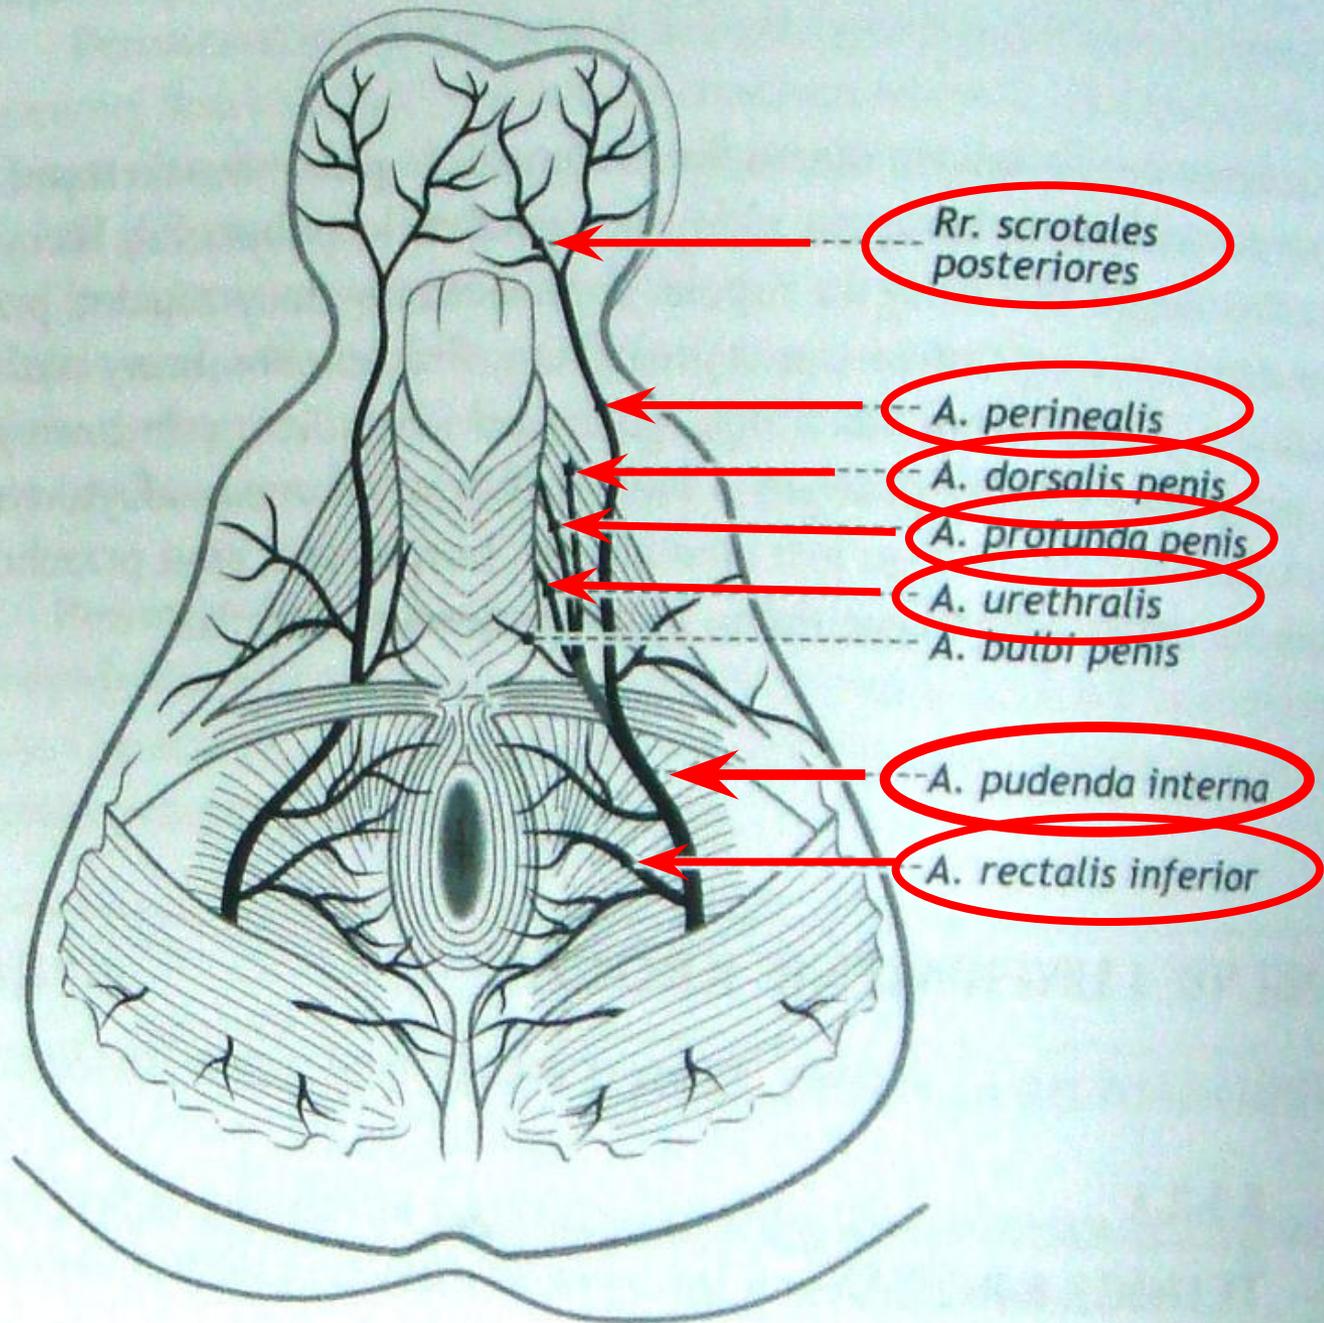

Internal
pudendal
artery

2 - a. rectalis media

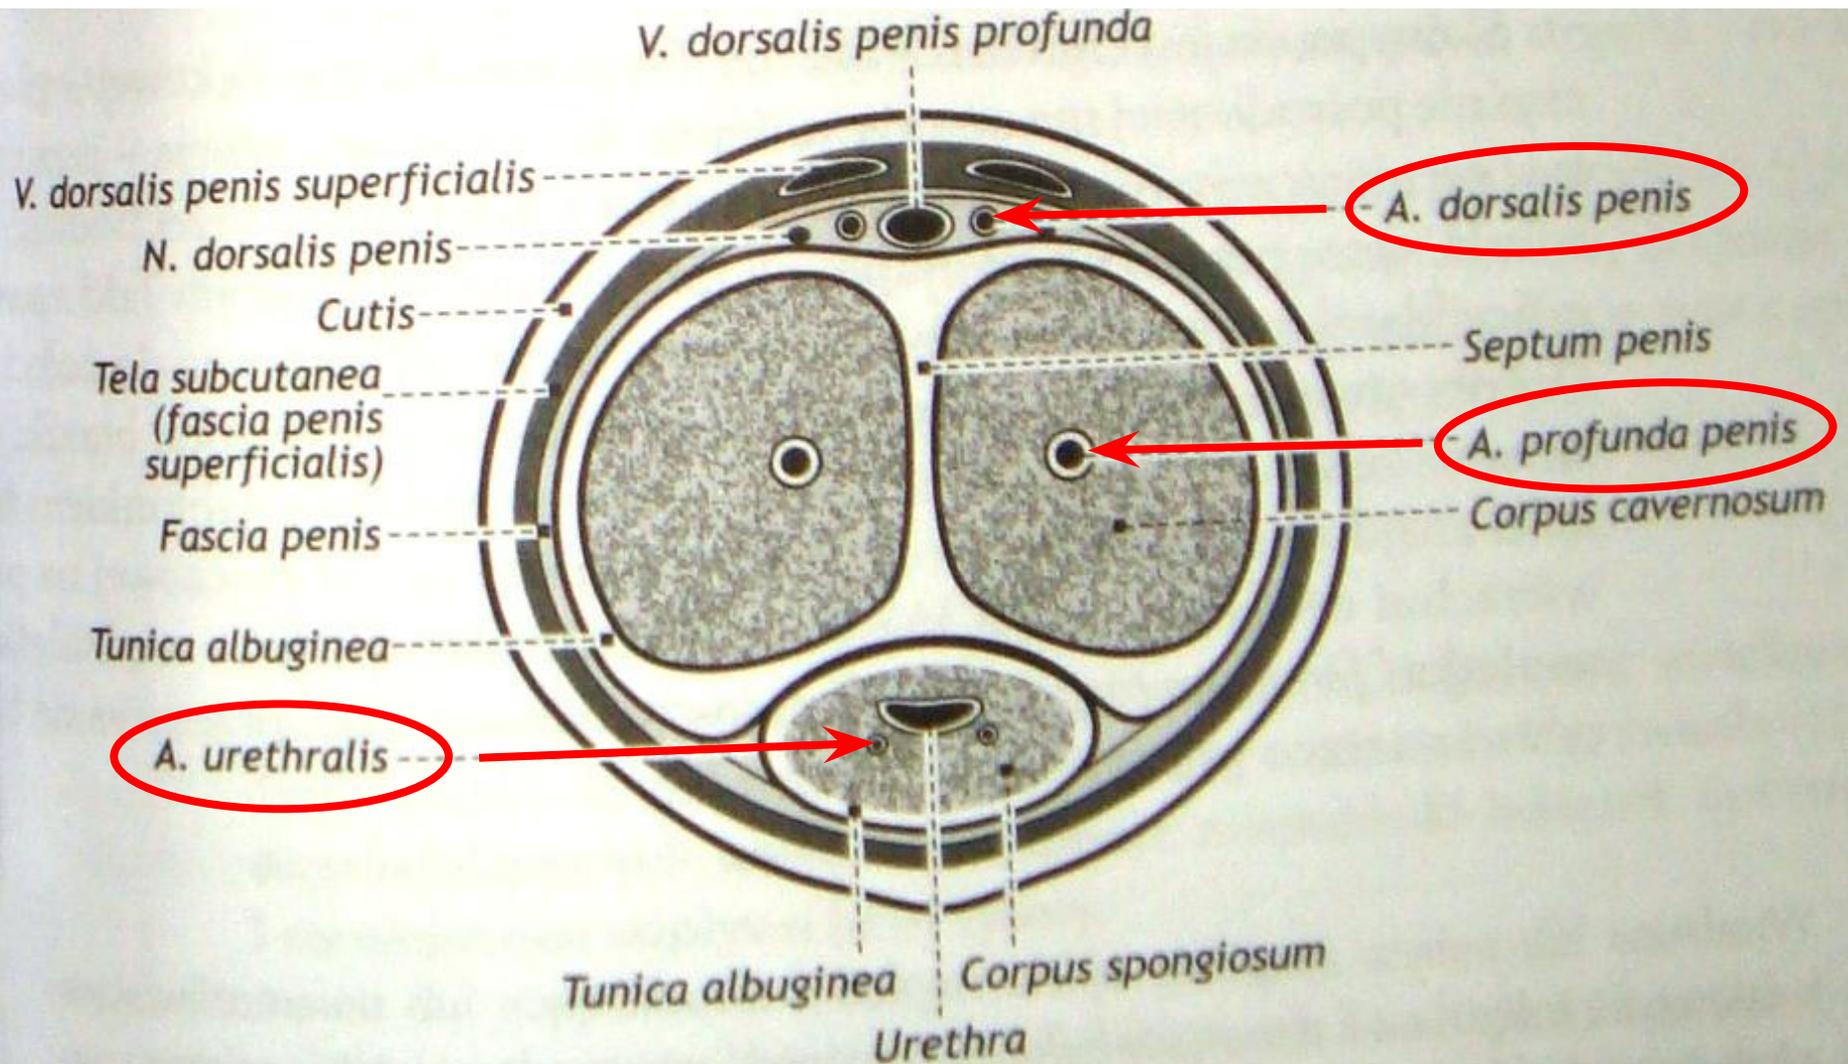

3 - a. rectalis inferior
(от a.pudenda int)

*

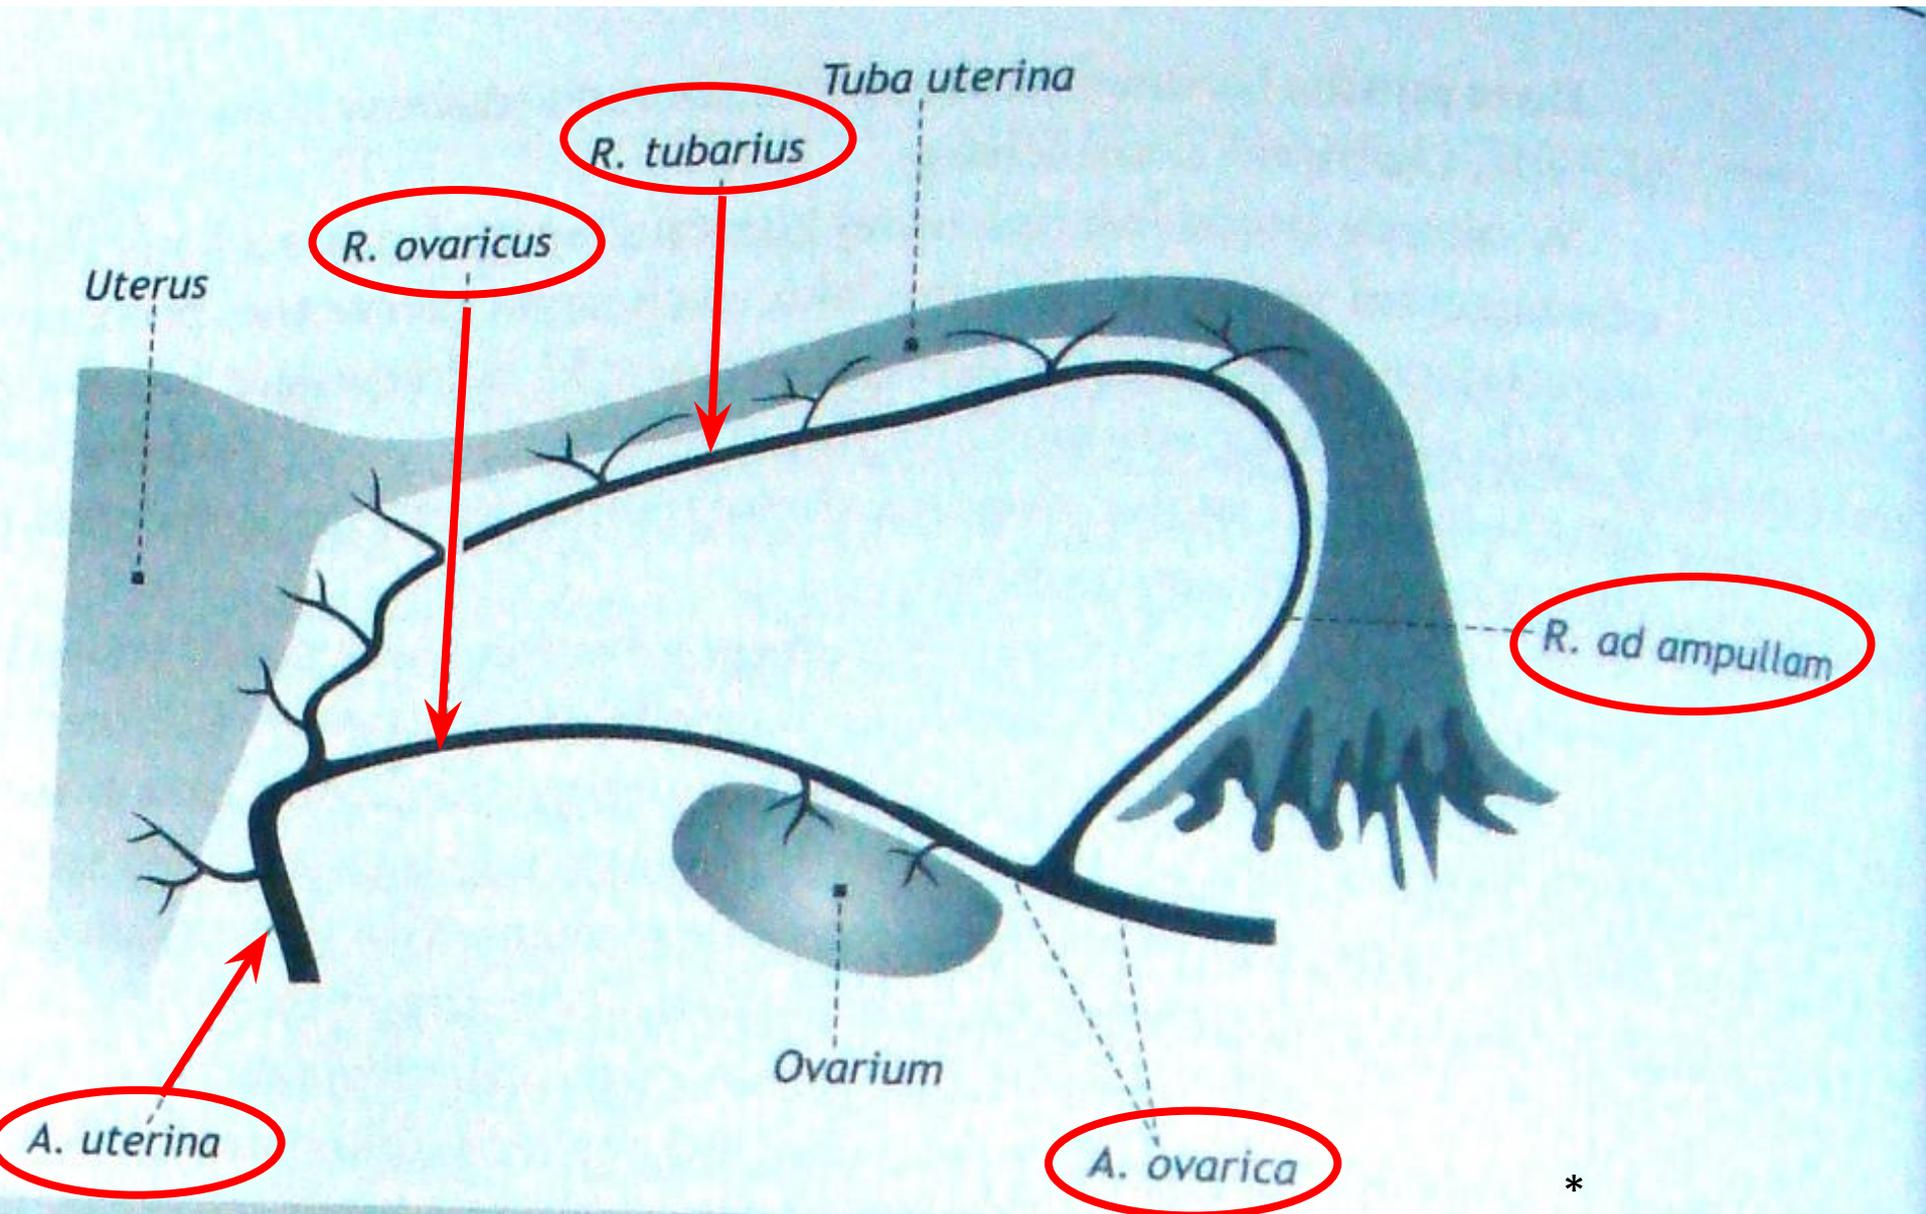

АРТЕРИИ ПРОМЕЖНОСТИ

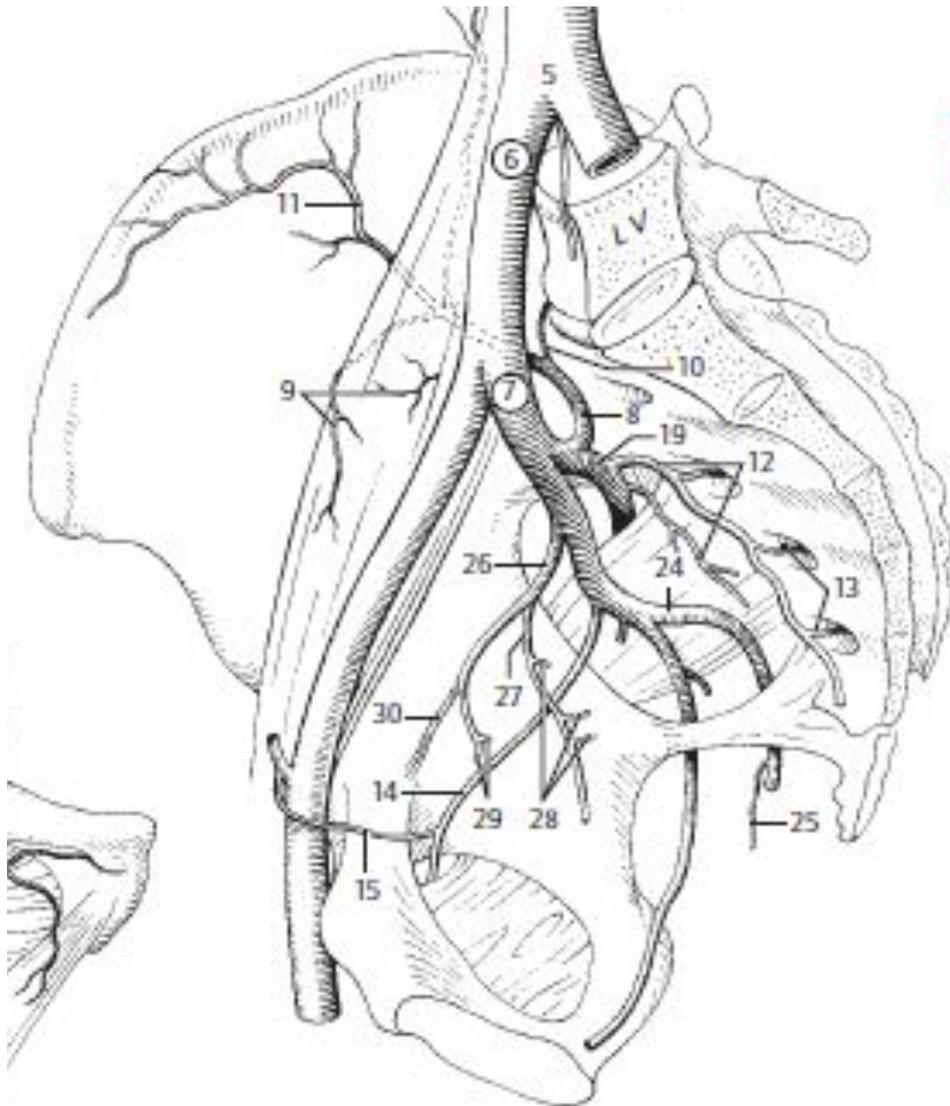

Сосуды полового члена

Артерии матки и придатков

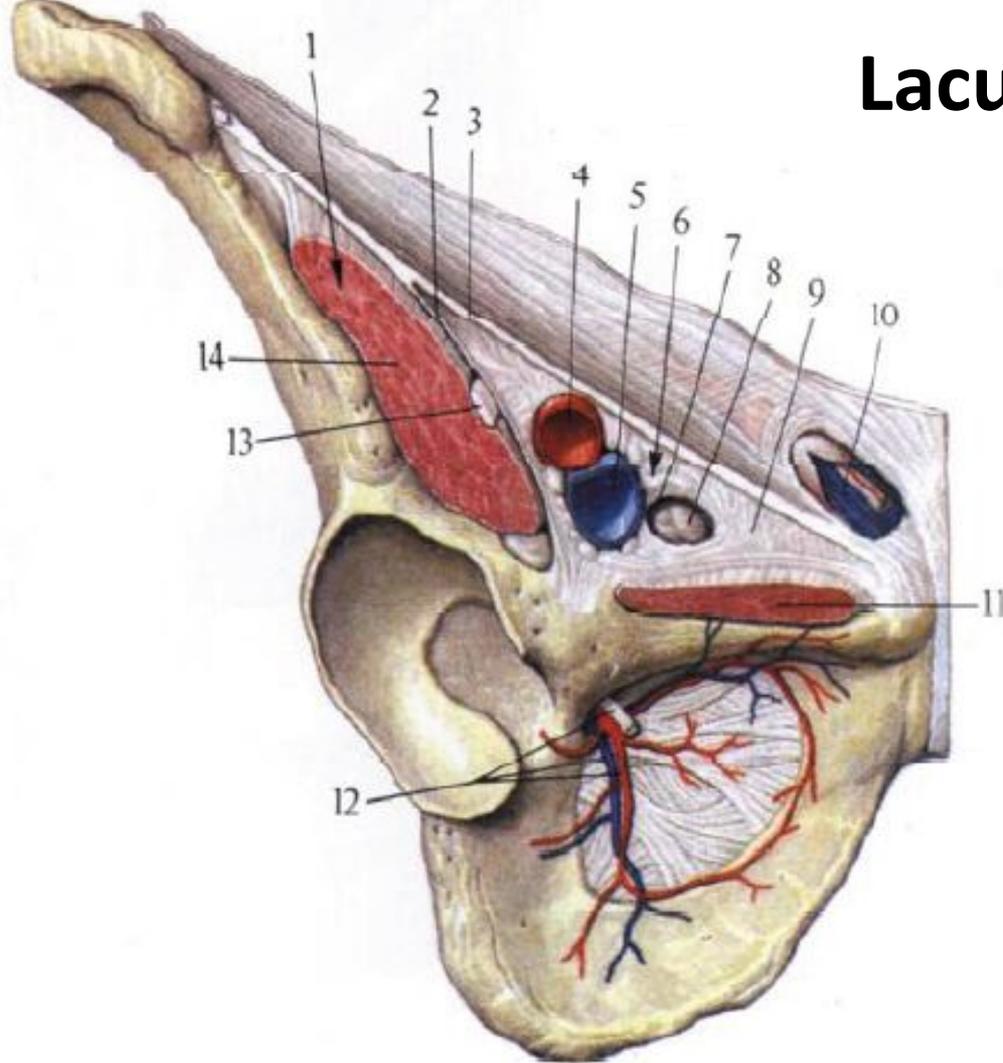

Проверьте себя!

ДОПОЛНИТЕЛЬНЫЙ МАТЕРИАЛ

Lacuna vasorum et lacuna musculorum

788. Мышечная и сосудистая лакуны правой паховой области.

1 — lacuna musculorum; 2 — arcus iliopectineus; 3 — lig. inguinale; 4 — a. femoralis; 5 — v. femoralis;

6 — lacuna vasorum; 7 — anulus femoralis;

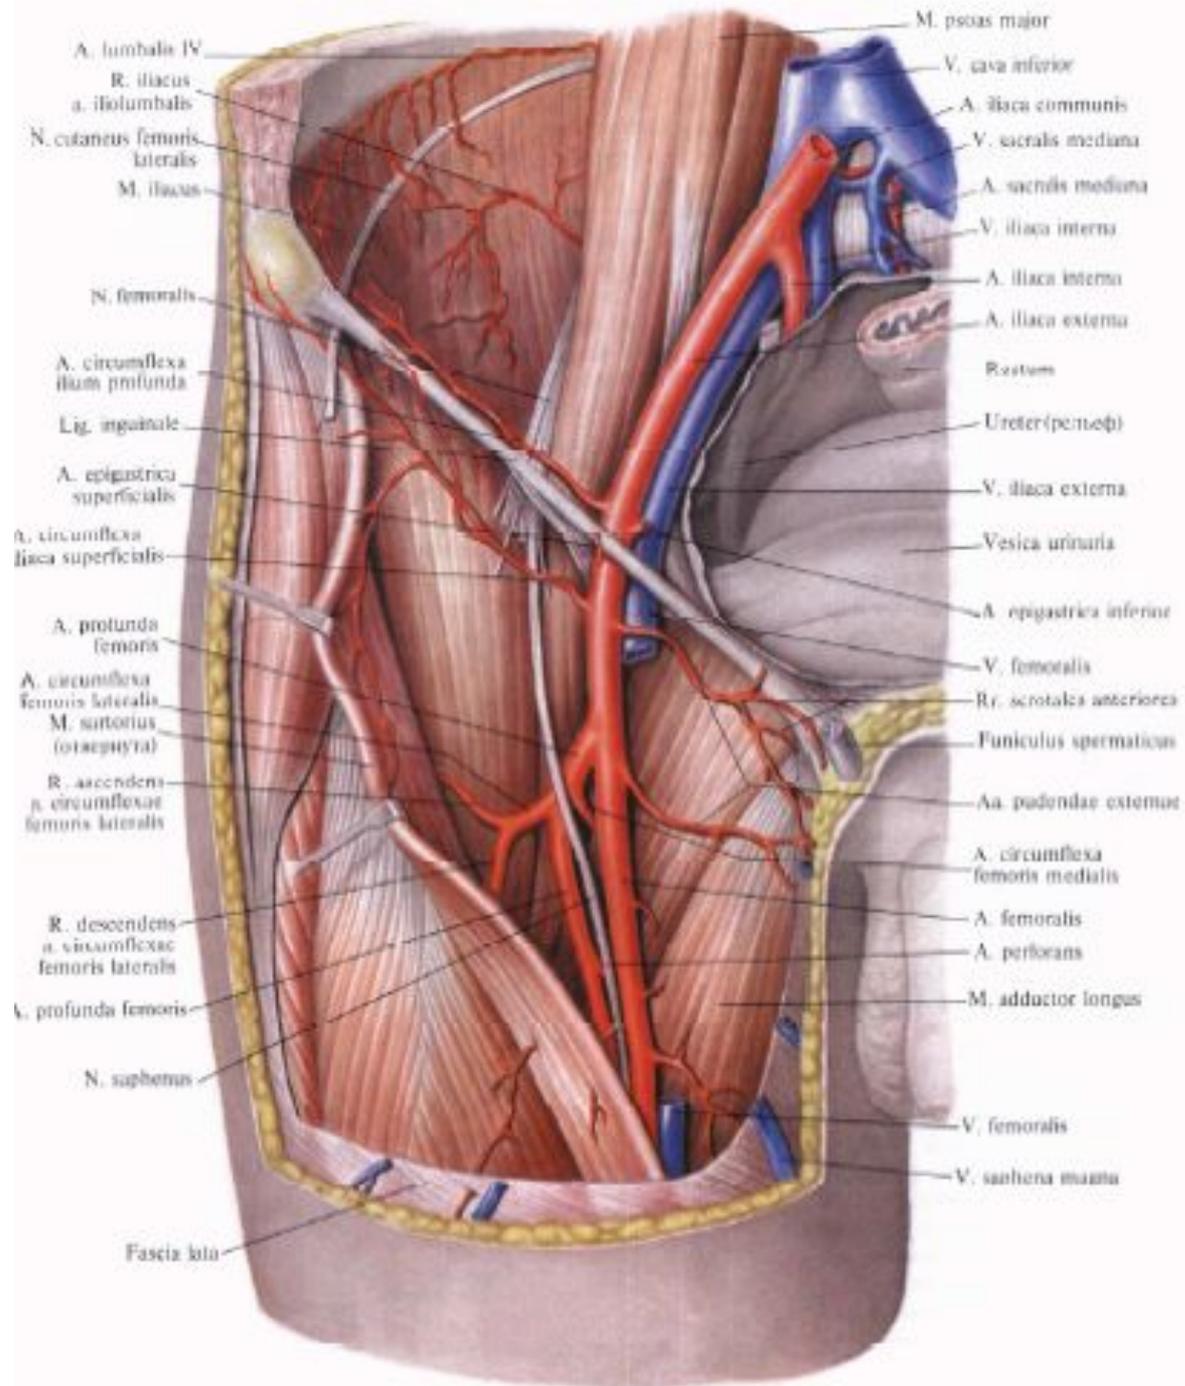

8 — глубокий лимфатический паховый узел;

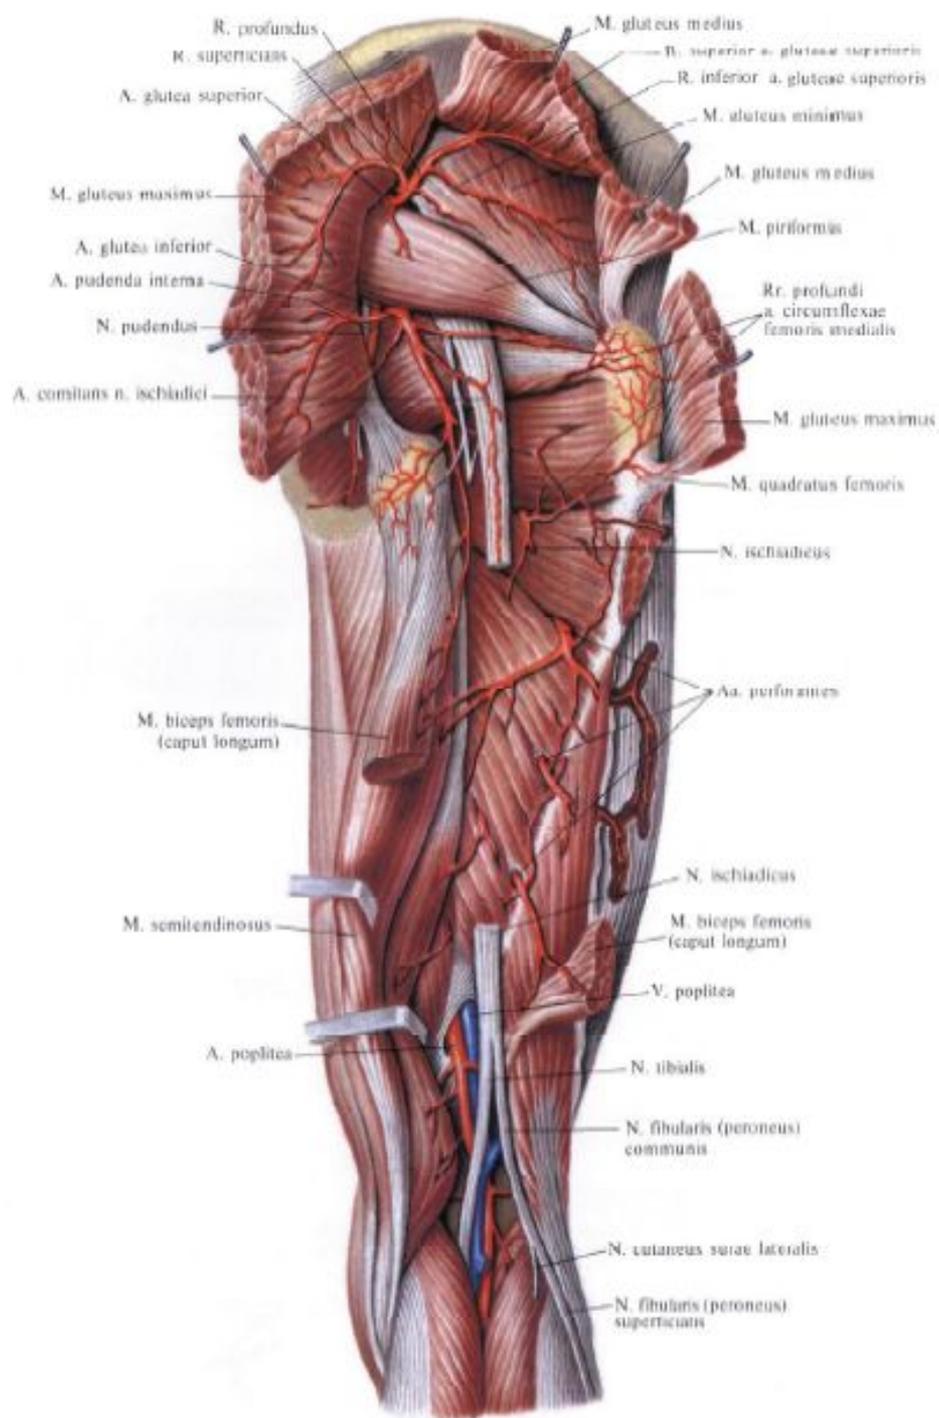

9 — lig. lacunare; 10 — funiculus spermaticus;

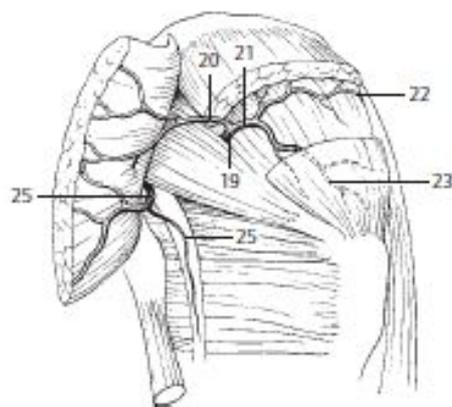

11 — m. pectineus; 12 — n., a. et v. obturatoriae;

13 — n. femoralis; 14 — m. iliopsoas.
