

1. Can you please add the bird (coucou) in smaller size as per previous feedbacks?
2. When you will put colors, is it possible to make it like it's the evening/sundown? So we see the lanterns, candles, etc and maybe sun doing down
3. Is it possible to have trees in different colors, and not only in the green shades? Green with some pinkish (japanese tree colors). To see how it looks.

1. Is it possible to write 'KAMA CITRON' on top of the museum (museum/roman style) instead of the 3 monuments?
2. Have descriptions of the different positions underneath the statues
