Game of Thrones Decoded: Connecting the Dots from Season 3 by Heather Jones

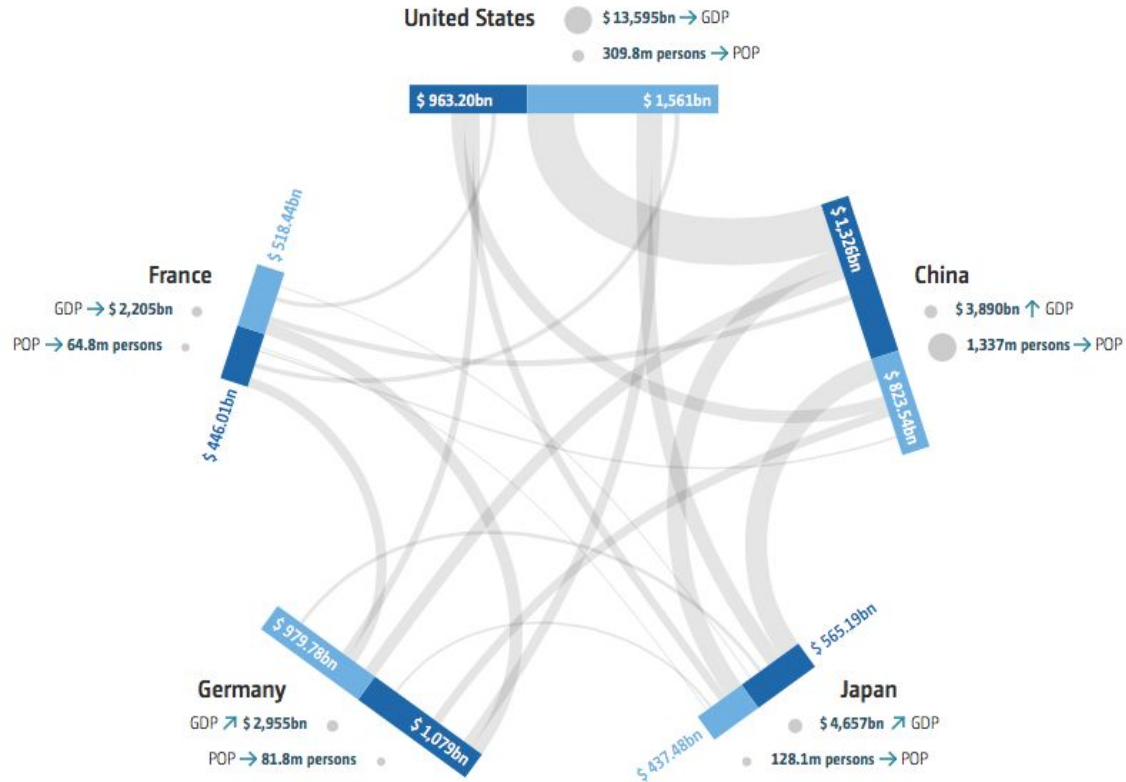

Bloomberg Billionaires Index by Bloomberg Visual Data

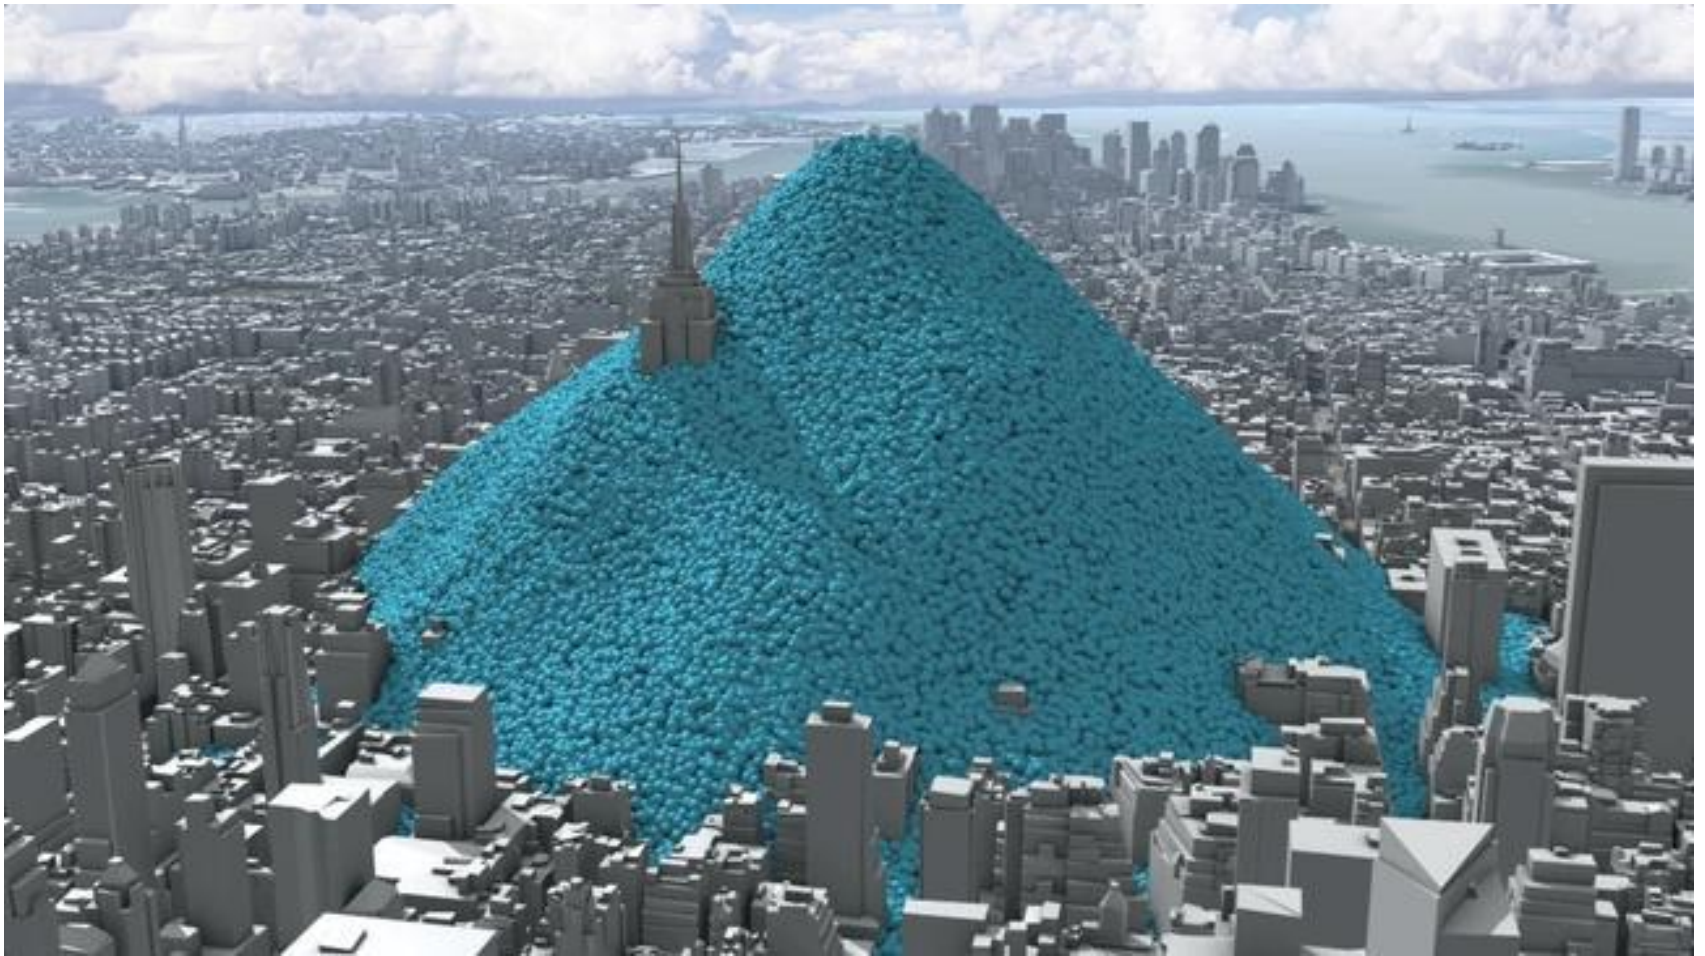

GED VIZ: Visualizing Global Economic Relations

by Jan Arpe

New York City carbon emissions
by Adam Nieman

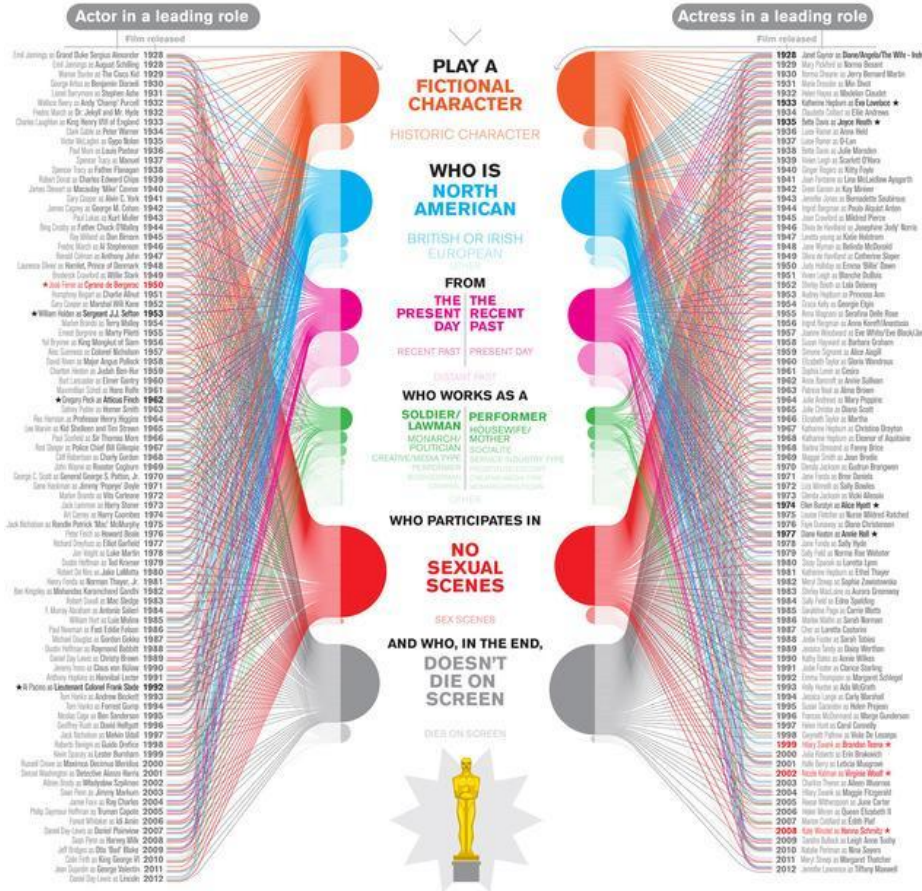

How to win an Oscar by Christian Tate

How to win an Oscar

Delayed Gratification analyses the characters played by every winner of an "actor/actress in a leading role" Oscar to see which parts will most reliably lead to glory

Research: David Shaw. Illustration: Christian Tate

Facial hair?

Best decade for face fuzz: 1970s

Vicars v tarts*

*Characters who are prostitutes or escorts

Fighting chance?

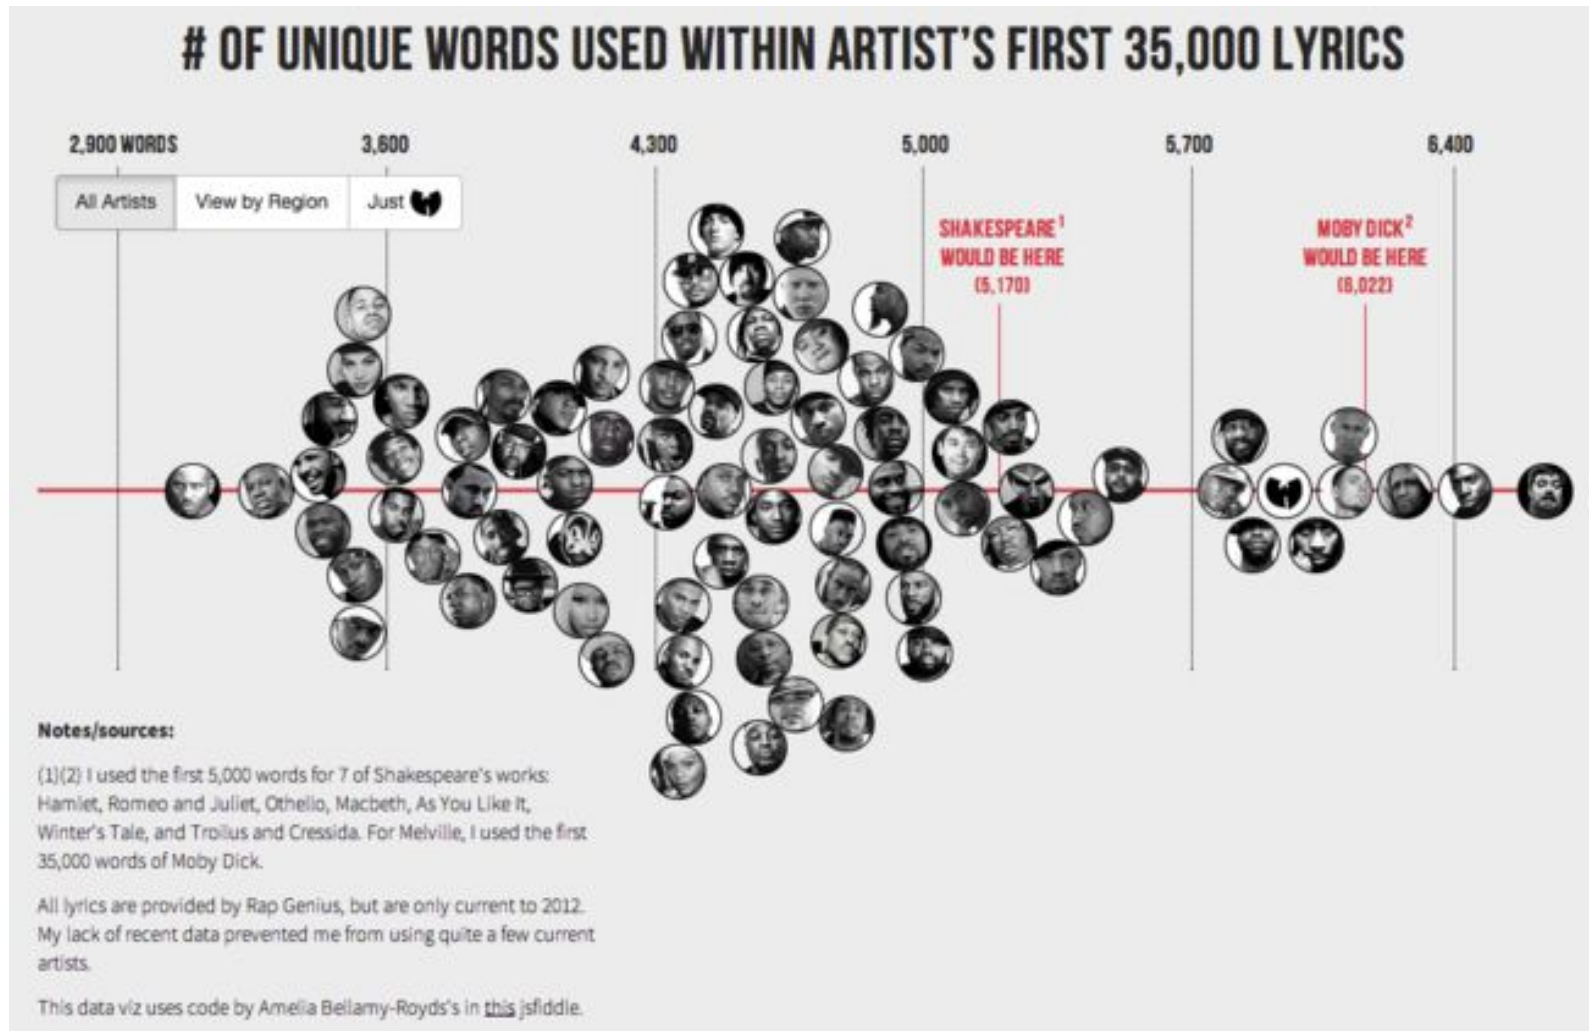

Zero chance of winning playing a sportsman or woman unless they are a boxer

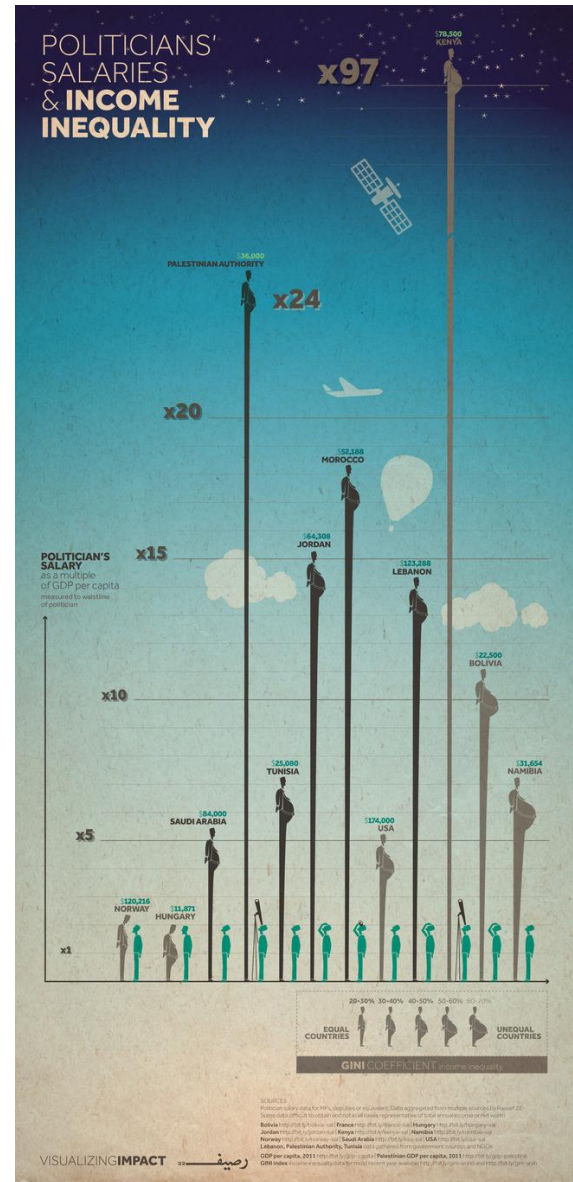

*Dead certs: Winning roles which match all top categories. *Coop shots: Winning roles which match only one of the top categories. Every winner matches at least one of the top categories.

Rappers, Sorted by Size of Vocabulary

by Matthew Daniels

Politicians' Salaries and Income Inequality

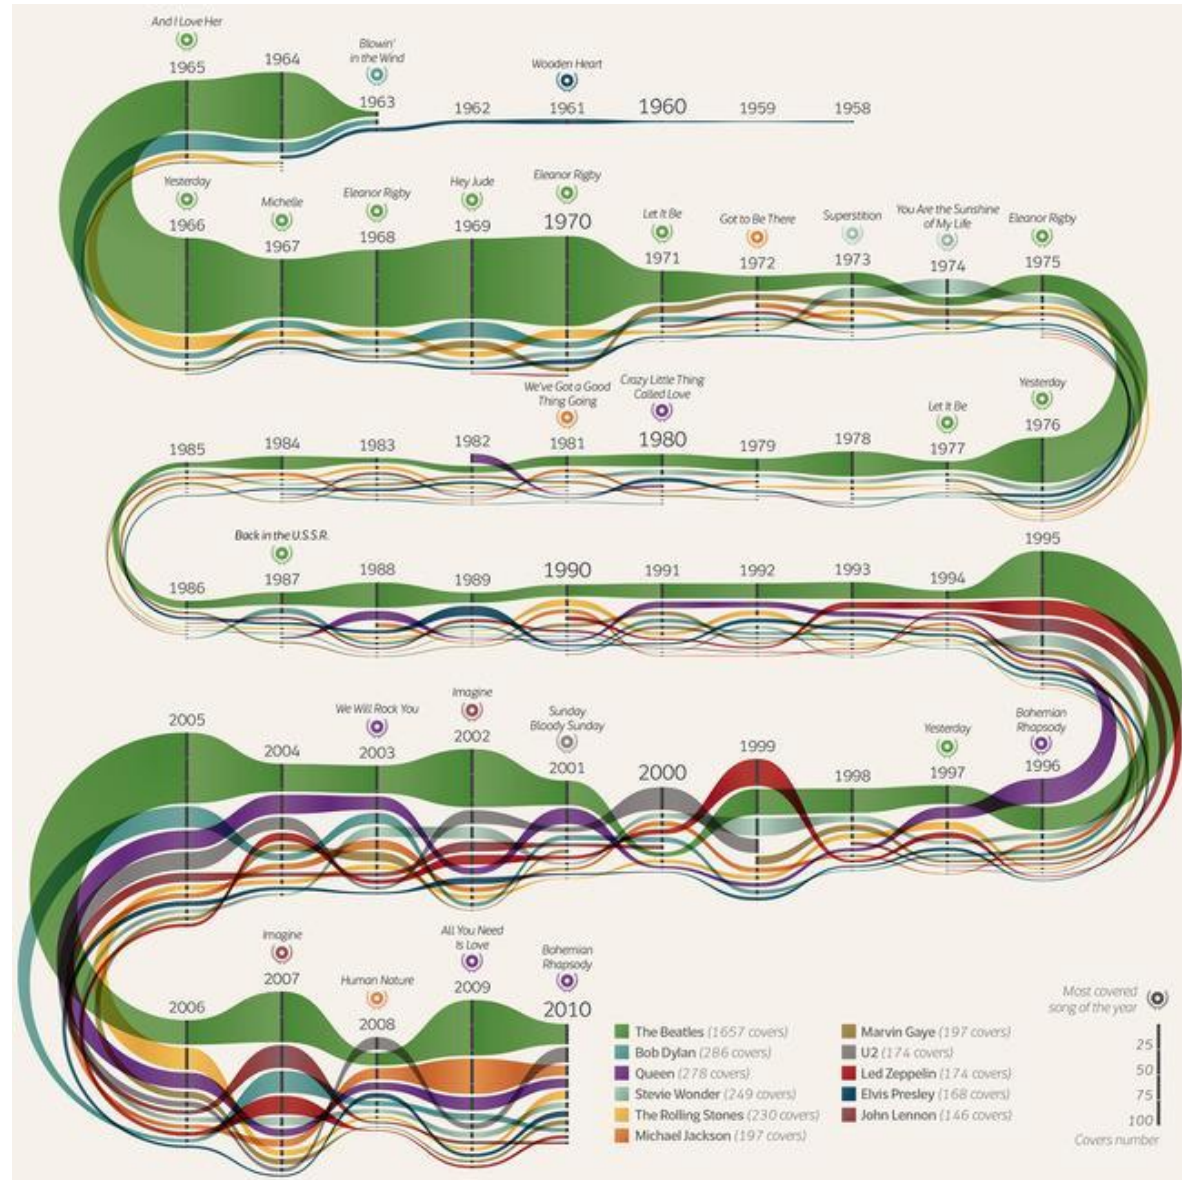

Information graphics in context

by Peter Orntoft

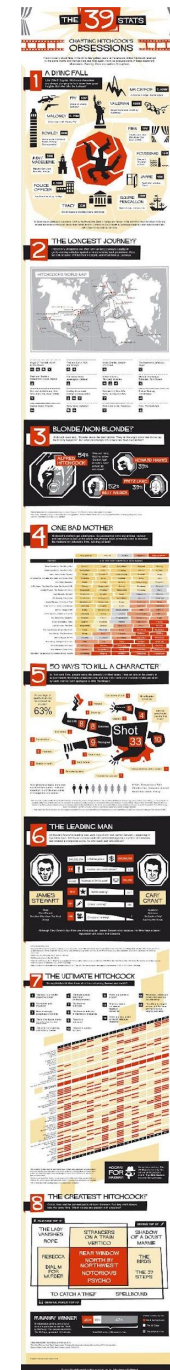

Cover mania

by Michele Mauri

The 39 stats: Charting Hitchcock Obsessions
