DEVELOPING A

GLOBAL MINDSET

Global Leaders Have a Global Mind

behaviours in multiple cultural contexts

- it is an ability to connect with people from other cultures on an intellectual as well as emotional level

Culture dictates

the way
we dress

the food
we eat

the
language
we speak

the stories
we tell

Leaders who possess a global mindset are able to view situations from a variety of perspectives,

develop trusting relationships with individuals from different contexts,

and identify promising routes to successful collaboration

Foundations for Effective Global Leadership

Global Mindset

Intellectual Capital
Psychological Capital
Social Capital

Global Skillsets

Internal
External

Global Experience Cross-Cultural
