

**I have a right to come to
the dormitory at any
time.**

Zhantiya Orazymbetova

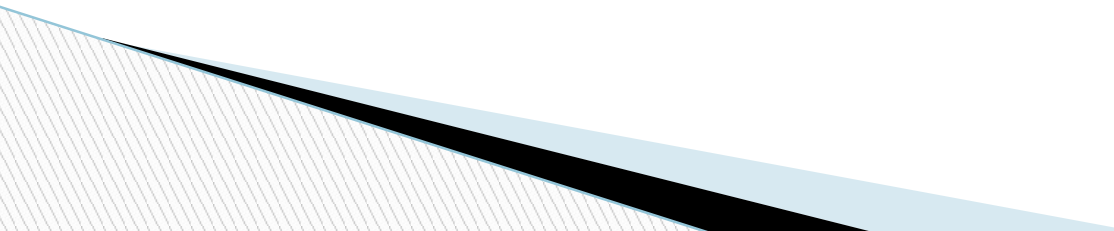

The problem

“Правила проживания:

Вход в общежитие разрешается с 7.00 до 23.00 ч.”

Why this right is important to me?

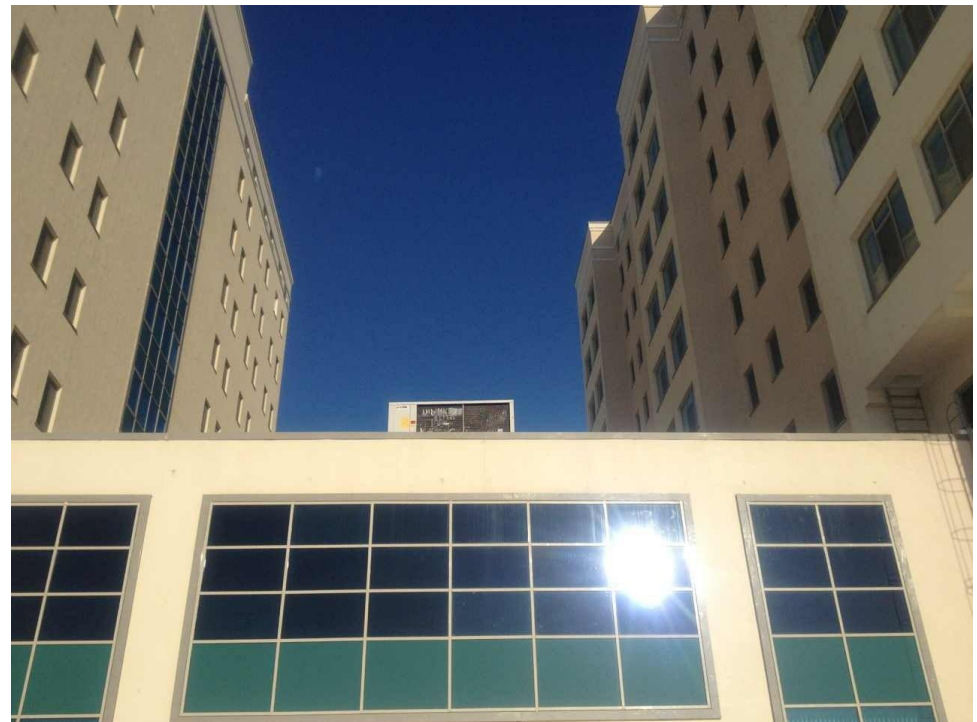

- freedom of action
 - Ineffectiveness of the rule
 - Rule of thumb
 - emergence of perverse incentives
- 

Rule of thumb

“informal rules that enforce and observe formal ones”, so that security guard in the dormitory “seek to fit the punishment to the violation in a way that matches their own sense of justice, which in turn derives from informal rules-social customs, peer norms, moral beliefs, and existing practices” (Stone, 300-301).

Perverse incentive:

some students enter the roof between the 19th and 11th blocks, which is at the same level as the 2nd floor of the dormitory.

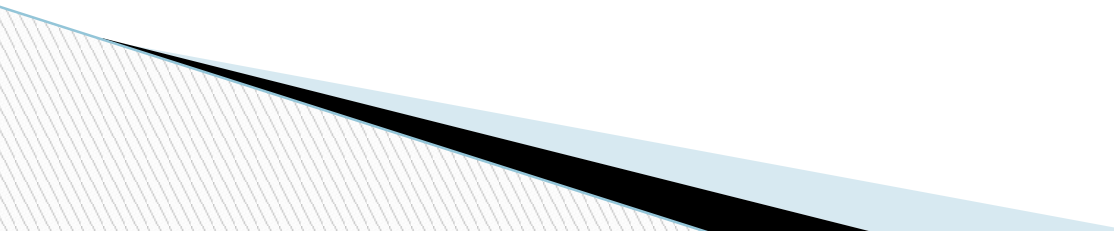

Then, they climb through the window of the 11th block and enter the building.

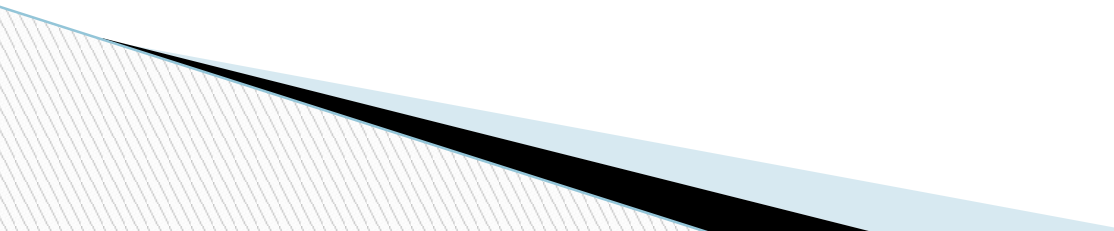

Source of the right

- KIMEP University
 - London School of Economics and
Political Science
 - Universities in Canada
- 

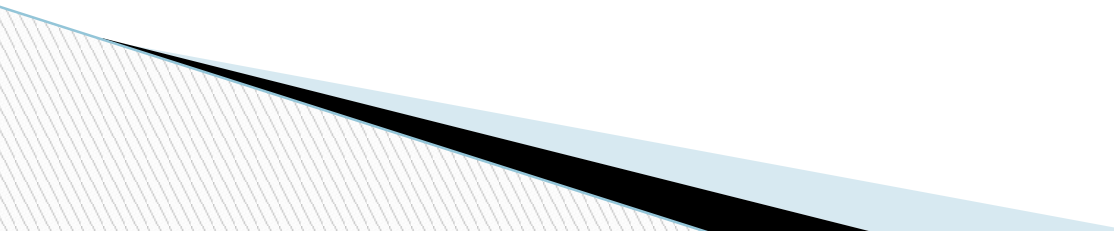

Perspectives of other people regarding this issue :

- ❑ What is your personal perspective regarding the issue of not allowing student to come and out the dormitory after 23 pm?
 - ❑ In your perspective, is this rule legitimate, and could it be justified?
 - ❑ Do you think that this rule is ineffective? If yes, provide examples and explain your answer.
- 

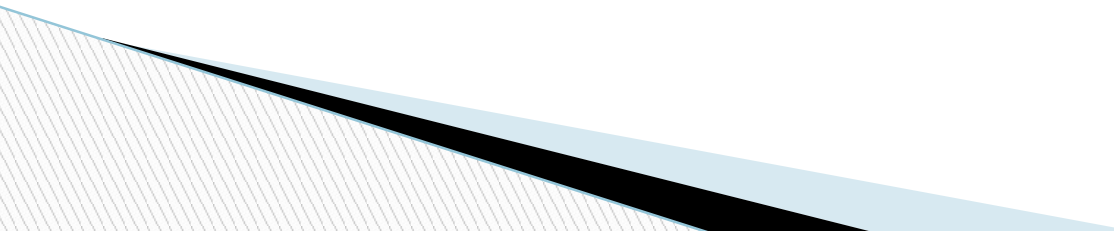

the duties that others have to perform in order for me to have this right:

- The university administration need to change the student conduct respectively
 - The functioning of the security guards in the dormitory is also need to be changed
 - Increase the awareness of students regarding the new rule
 - The university administration need to control security guards
- 

Who might resist?

- security guards
 - university administration
- 

How to overcome?

- increase the number of security guards in the way that they could work with shifts.
 - provide sufficient evidence of ineffectiveness of it
 - organize the meeting with the administration
-
