

London

London — the capital of Great Britain is situated on the Thames River. It is the largest city in Europe with a population of eight and a quarter million.

–It is divided into four parts:
the City, Westminster, the
West End and the East End.

- The City is the business and commercial heart of London. Many banks, offices and firms are concentrated there. The Tower and St. Paul's Cathedral are in the centre. The Tower is about 900 years old. Many years ago it was a royal residence, then a prison. Now it is a museum. St. Paul's Cathedral is very large and fine. It was completed in 1710. The famous English architect Christopher Wren planned and built St. Paul's Cathedral.

- If the City is the business part of London, Westminster is the centre of administration. We can see the Houses of Parliament there. It is a beautiful building with two towers and a very big clock called Big Ben. The Houses of Parliament stand in Parliament Square. Westminster Abbey is opposite the Houses of Parliament. Many great Englishmen were buried in Westminster Abbey. To the west of Westminster Abbey you can see Buckingham Pa-lace. It is a royal residence. The ceremony of the changing of the guards which takes place in front of Bucking-ham Palace is of great interest to the tourists.

- Rich people live in the West End. The best and most expensive clubs, restaurants and theatres, beautiful houses and parks are there.

- The East End — the district of plants, factories, slums and docks — is for the working people. London is unlike any other city in the world. It has rather wide streets but low houses. It looks very grey because there is so much rain and fog there. Only buses and pillar-boxes are red. This city has never been planned and it has many parts which are different from each other.
