

London Sightseeing!

Ferris Wheel London Eye (London Eye) 135 m high - the tallest Ferris wheel in the world. There you can take a half-hour flight over the capital of Great Britain, admiring the stunning views. The most romantic time to see London - the evening, when it begins to get dark and the lights at the bottom of the set of lights.

The Royal Botanic Gardens

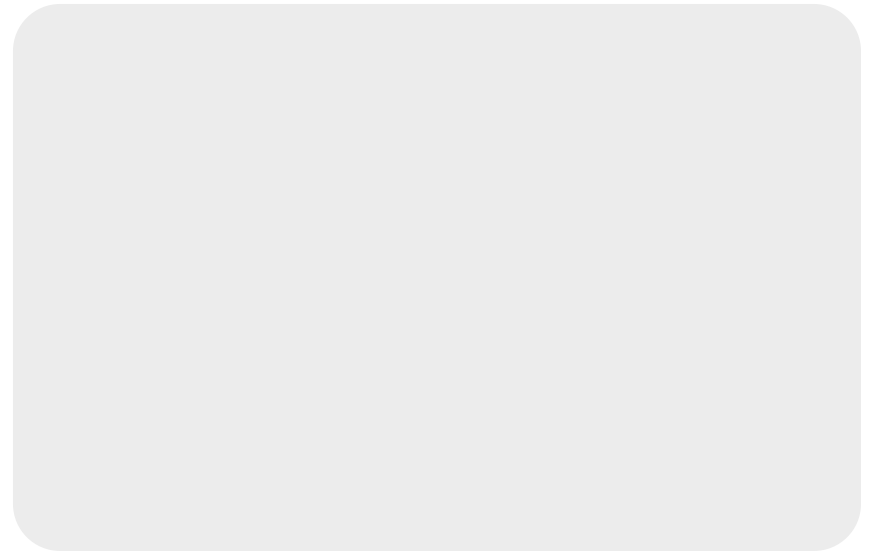

The London Aquarium (London Aquarium) contains hundreds of species of fish and other sea creatures. This is the only place in London where you can see sharks, giant sea eel, piranhas and electric rays. Visitors can even touch crabs and sea stars.

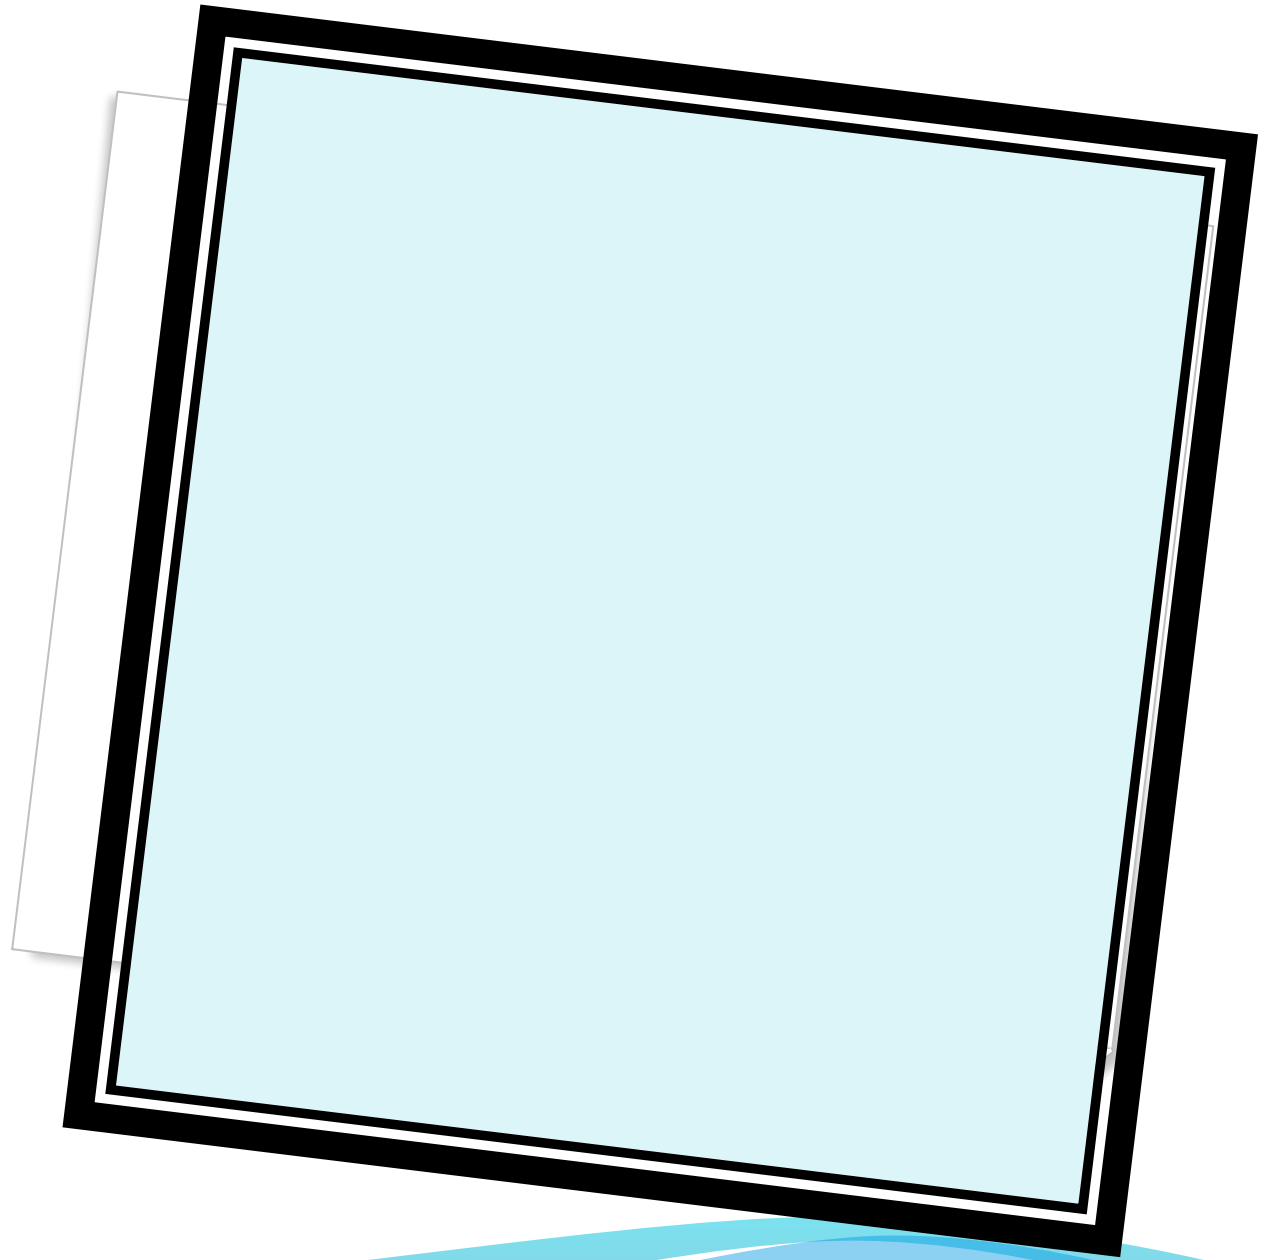

For over 40 years the London Planetarium (London Planetarium) delights its visitors stellar show. Today, visitors can take a virtual trip through the starry most perfect in Europe starry projector. In the space of interactive attractions you can learn about black holes, to take part in the search for extraterrestrial civilization and feel, what would be your weight on Jupiter - the largest planet in the solar system.

Over the dark waters of the Thames stretched famous Tower Bridge, known, probably in the world. He became as much a symbol of London as the Eiffel Tower - Paris, the Statue of Liberty - New York. He even seems trivial, its image is so closely connected with the capital of England. However, again and again, he shakes the viewer grandeur and severity of forms.

At night, the medieval gloom Tower Bridge disappears and, thanks to modern illumination, it appears to us as a kind of fantastic, fabulous building.
