My hobbies

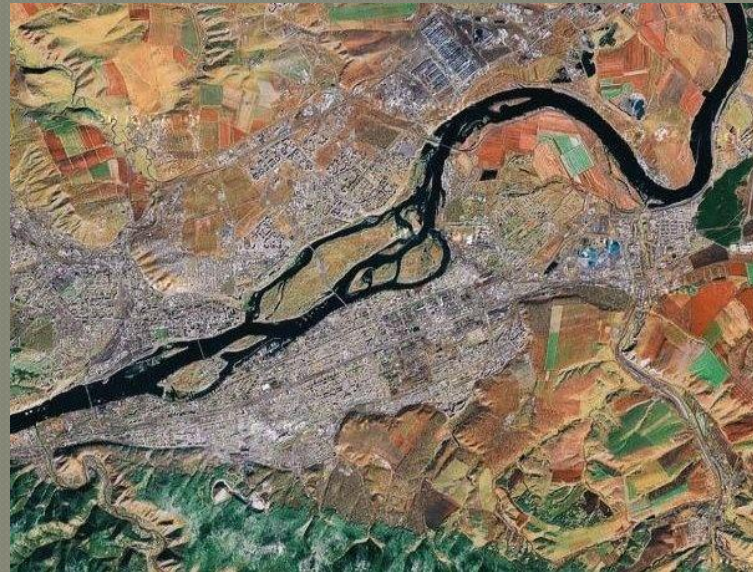

My plans for the future. My future profession

Name and Surname, Age

My name is Vsevolod Dergachyov. I am 19 years old. I live in Russia, Suberia, city Krasnoyarsk

Education. School years

I graduated from gymnasium № 4 where I had been studying for 10 years. Also I attended Siberian Aerospace school

But the years, held in school were not very interesting since there were many unnecessary subjects like ORR, Music, MHK, Social Studies

However, exactly in the school I started to like the English language since I had very qualified teacher who had been teaching me for 2 years

Education. University

Now I am second – year student of The Siberian state aerospace university named after academitian Reshetnev, IITC institute, BS-91 group, system analysis

I have been learning English for 4 years

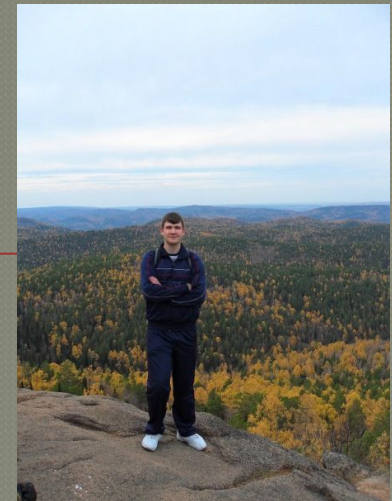

The aim of my learning is to acquire more knowledge in order to get a profit from it, also I just like what I learn

Also I am preparing to the international language exam called FCE in order to have a document confirming my knowledge of the English language

My Group and Me

1	Белоусов Д. Е.
2	Дергачев В. Д.
3	Заболотникова О. А.
4	Иванов И. А.
5	Кармалюк Д. Д.
6	Крицкий Н. А.
7	Кузнецов Д. С.
8	Куприн А. Г.
9	Ломаев Ю. С.
10	Максимов И. В.
11	Мальшев А. А.
12	Раицкая Д. С.
13	Романов А. В.
14	Старовойтова А. В.
15	Хаустов И. А.
16	Цуцман А. И.
17	Чашин И. О.
18	Шадрин А. О.
19	Ярлыкова Л. К.

Our group is called BS-91, now we are Second-year students of The Siberian aerospace university

My hobbies

I prefer reading to walking

I prefer studying to sleeping

I like drinking black and white teas

Also I love cats

↓
Little one

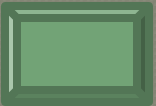

→ Old one

My plans for the future. My future profession

Now and for next years I am going to get the education and to graduate from university, being the specialist in the field I am studying at. Also I want to pass international language exam FCE to have an ability to cope with native language speakers if it is needed

My future profession is to solve different kinds of problems in the most sufficient way. Systems analysis is the logical and consistent approach to the problem of decision-making. The effectiveness of problem-solving using systems analysis is determined by the structure of problems which are to be solved

Reflection & Self-assessment

Listening

Reading

Speaking

Writing

Listening

		I do this now	I'd like to do this in future
