

PARENT EDUCATION

What do we have to teach parents?

Parents have to understand the benefits!

- Memory
- Brain development
- Confidence
- Concentration
- Social skills
- Good working habits
- Improved family interaction
- Appreciate beauty
- Enjoyment of music
- Express themselves

Parents have to understand what to do

- And why!
 - OTHERWISE...
-
- THIS HAPPENS: THE 3 MOST COMMON PROBLEMS THAT SUZUKITEACHERS DEAL WITH...**

Too little practice....

- Every other day - PARENTS ARE TOO BUSY!!

Do we
always
have to
practise?

No, you only have
to practise on the
days you eat ;-)

Listening?

- NOT ENOUGH LISTENING

It takes you so long time to learn the pieces and then you forget them

Are you not listening?

Follow instructions...

Oh, actually we did not do it...
But we did something else instead :-)

How did it go with the new exercise I taught you in the last lesson?

Argghhh
!

Children are like flowers

- They need good environment and nurturing!
- You can not make them grow faster by pulling...
- They blossom when they are ready 😊
