

preparation for the new  
year

new year is a family holiday. I celebrate it with a family at a dacha. We decorate the house, we decorate a Christmas tree and we prepare entertainments for a table.

# House preparation

- We already started decorating the house a little.
- We decorate kitchen, windows but while put an artificial Christmas fir-tree.

# Christmas tree.

- the main symbol of new year is a Christmas tree. We decorate a Christmas tree on the street and at home.

# Gifts

- We choose gifts to friends and relatives.

# Fakes the hands

- I try to make fakes for new year. Relatives can present them and to decorate the house.

# Food.

- I decided to be original and to make unusual, but tasty dishes.

New year is a family and quiet holiday.  
And we treat preparation responsibly.
