Think of Scotland, and you'll likely conjure up images of tartan-kilted Highlanders, skirling bagpipes, the Loch Ness Monster, lonely castles, golf, magnificent scenery, and shaggy Highland cattle. All of these are part of the mystique of this unique country, but also (apart from Nessie) a very real preview of what tourists see there.

Another of Scotland's great attractions is its solitude, with its remote stretches of heather-covered moors; secluded beaches; and wild, romantic mountains, with their deep glens and lochs. Whether you choose vibrant cities, historic towns, or remote moors and islands, you'll find they are all filled with memorable things to see and do.

**Plan your trip with
the list of some
top fascinating
attractions
in Scotland!**

Edinburgh Castle and the Royal Mile

The stone towers and walls of Edinburgh Castle have dominated the Edinburgh skyline since the 13th century. Perched atop black basalt rock, it offers magnificent views of the city and a trip through Scotland's tumultuous history. Highlights are the spectacular Crown Jewels; the famous Stone of Destiny (the Stone of Scone); and St. Margaret's Chapel, built in 1130 and the oldest building in Edinburgh. Enter the castle over a drawbridge across an old moat from the broad Esplanade, where the famous Edinburgh Military Tattoo is held every August. Bronze statues of legendary heroes William Wallace and Robert the Bruce seem to keep watch over the castle gates.

Loch Lomond

Idyllic Loch Lomond, just a short drive northwest of Glasgow, is Britain's largest lake and, according to author Walter Scott, 'The Queen of Scottish Lakes.'

With an abundance of trout, salmon, and whitefish as a lure for anglers; water sports; and plenty of open space for hikers, this beautiful corner of Scotland is also a favorite day trip from the city.

Boat trips are always popular, as are lakeside rambles and longer treks up majestic Ben Lomond (3,192 feet), with its spectacular views across the Trossachs National Park.

Cruising Loch Ness and the Caledonian Canal

Think of Loch Ness and you'll probably picture the mythical monster that, according to legend, has made this 23-mile-long loch home for countless centuries. The largest body of water in Scotland's Great Glen, Loch Ness is part of a waterway connecting the east and west coasts of Scotland. It and three other lochs are joined together by the Caledonian Canal, which you can cruise on short excursions, or on a six-hour voyage from one end to the other, through the canal locks that adjust the varying water levels.

Isle of Skye and the Inner Hebrides

The largest of Scotland's inner isles, Skye is especially popular with birders, ramblers, and nature lovers. Its wild, romantic mountain scenery is marked by green valleys, caves, lonely glens, sandy beaches, and rushing waterfalls-quite a remarkable variety for an island just 50 miles long and never more than 15 miles wide.

The island has the remains of primeval oak forests, as well as an abundance of wildlife that includes otters, seals, and at least 200 species of birds. Getting to Skye is easy, as it's connected to the mainland via a bridge. You can also get here by ferry.

Stirling Castle

The palace of James V and childhood home of Mary Queen of Scots, Stirling Castle is one of the best-preserved Renaissance buildings in the UK. While some earlier structures still stand, the castle's grand halls and rooms are carefully restored and furnished to its 1500s appearance, even to painstaking reproductions of its tapestries. Costumed interpreters interact with visitors to bring the castle and its history to life, and History Hunter programs on weekends are designed for young explorers.

Kelvingrove Art Gallery and Museum, Glasgow

Since a fire devastated much of the work of Charles Rennie Mackintosh at the Glasgow School of Art, Kelvingrove Art Gallery and Museum has become the primary destination for admirers of the Glasgow Style, a distinctive part of the Arts & Crafts movement and Art Nouveau styles of the early 20th century.

Along with other notable treasures—a Van Gogh portrait, Bronze Age tools and jewelry from Arran and Kintyre, a 1944 Mark 21 Spitfire, and a magnificent 1901 organ used for daily free concerts—one of the museum's most popular exhibits is Salvador Dali's Christ of St. John of the Cross.

Golf at St. Andrews

The Scots lay claim to many inventions, including the bicycle, postage stamps, telephones, and steam engines.

But perhaps their most enduring invention is the game of golf.

One of the lifetime dreams of dedicated golfers is to play the much revered Royal and Ancient Golf Club located in historic St. Andrews and just 12 miles southeast of Dundee.

Worth visiting are the majestic old Clubhouse and the British Golf Museum, which documents the history of the "home of golf" from the Middle Ages to the present day.

Fort William & Ben Nevis

The best place to explore Ben Nevis, Britain's tallest mountain, is from the picturesque town of Fort William. Situated at the southeastern end of the Caledonian Canal, this coastal town can trace its roots back to the original fort built here in the 17th century. Although since long gone, the history of the fort can be explored in the West Highland Museum, along with sizable collections of paintings, Highland costumes, and weaponry. A must-do is hop aboard The Jacobite steam train. Made famous by the Harry Potter movie franchise, the train follows the West Highland Line over the spectacular Glenfinnan Viaduct.

Isle of Arran

The lovely Isle of Arran is called "Scotland in Miniature" for good reason. This picture-perfect island off the country's west coast mirrors the landscapes of the entire country in an area of scarcely 166 square miles. Here, you can find rolling moors, rugged mountains, sandy beaches, fishing harbors, castles, and golf courses, all less than an hour's ferry ride from Glasgow, and all within an area you can easily explore in a day or two.

Robbie Burns Country: The Burns Heritage Trail

No visit to Scotland is complete without visiting at least one or two sites associated with the country's most famous son: poet Robbie Burns. A great way to experience a little of Burns' life and times-as well as seeing some of the most beautiful parts of the country-is along the Burns Heritage Trail.

Start at the Robert Burns Birthplace Museum in Alloway, on the outskirts of Ayr, where you'll find the perfectly preserved thatched house where the poet was born and spent much of his childhood.

Glenfinnan Viaduct

The Glenfinnan Viaduct is a railway viaduct on the West Highland Line in Glenfinnan, Inverness-shire, Scotland. Glenfinnan Viaduct has been used as a location in several films and television series, including Ring of Bright Water, Charlotte Gray, Monarch of the Glen, Stone of Destiny and The Crown. After it appeared in four of the Harry Potter films, British Transport Police warned fans not to walk on the viaduct after a handful of near misses with trains had occurred. It is also featured in the 2018 videogame Forza Horizon 4. The Glenfinnan Viaduct features on some Scottish banknotes. The 2007 series of notes issued by the Bank of Scotland depicts different bridges in Scotland as examples of Scottish engineering, and the £10 note features the Glenfinnan Viaduct.
