**Keep
moving!**

All kinds of exercises are important, from strength training and aerobics, to flexibility and stretching exercises.

Aim for a 10-minute morning walk, workout with hand weights at lunch, and some digging in the garden before dinner, and you've met your goals.

**Move,
move and
keep
moving!**

Be positive!

Stress is a significant villain of heart health and really any health issue. It can wreak havoc.

Avoid stressful situations and try to be calm. By the way, it's widely believed that dog owners are less prone to depression than the dog-les.

**Keep calm
and have

Eat healthy fats, NOT trans fat

which is known to increase your risk of developing heart disease or having a stroke over a lifetime. They are industry-produced fats often used in packaged baked goods, snack foods, margarines and fried fast foods to add flavor and texture. So, avoid trans-fat!

**Keep track
of what
you eat!**

Dental health is a good indication of overall health, including your heart, because those who have periodontal disease often have the same risk factors for heart disease. Studies have shown that bacteria in the mouth may increase your risk of heart disease and stroke.

Gaining weight is a constant threat for most people in the world of cheap, convenient, and decadent foods. And extra pounds – especially if you tip into obesity – raise the risk of a heart attack, stroke, and high blood _____ pressure

**Work Toward
a Healthy
Body
Weight!**

Sleep is an essential part of keeping your heart healthy. If you don't sleep enough, you may be at a higher risk for cardiovascular disease no matter your age or other health habits. Get 7 to 8 hours of sleep most nights. If you have sleep apnea, you should be treated as this condition is linked to heart disease and arrhythmias.

Dogs don't just fill your heart; they actually make it stronger. Studies show that having a canine companion is linked to lower blood pressure, reduced cholesterol, and decreased triglyceride levels, which contribute to better overall cardiovascular health and fewer heart attacks .

**Your Dog
improves your
heart health!**

**Keeping your heart healthy
is simple when you look at
the big picture:**

**Get exercise. Eat right.
Stress less. Watch your
weight. Don't smoke.
Get a four-legged friend**

**Keep
Your Heart
Healthy!**
