

A vibrant space-themed illustration. In the upper left, a large, detailed grey moon with numerous craters is partially visible. To its right, the planet Saturn with its prominent rings is shown in a blue and white color scheme. In the lower left, a white rocket with a blue window is launching from a small Earth globe, with a bright orange and yellow flame trail. The background is a deep blue space filled with numerous white stars of varying sizes and several other planets in shades of blue and green. The overall composition is bright and colorful, typical of children's educational materials.

"Космическое
путешествие"
