# “Harry Potter”

- I want to tell about characters of one of me favorite book “Harry Potter” Harry Potter and Ron Weasley.

# How their friendship started

- They met each other in train to Hogwarts. Harry set in one cabin with Ron. When Ron understood whom he met, he was really shocked. Harry was a famous person in magic world but even Harry didn't knew much about himself. But boys click straight away.

# Differences

- These are two completely different characters. Ron from a poor family with many children, which is a whole generation of magicians. Harry is the only child in family and his parents died when he was very small. About his magical abilities Harry learned only after he was informed of acceptance to Hogwarts.

# Critical moments

- There were many critical moments in their friendship. They fall out and make up again. There were many different reasons for their quarrels. But despite this they have always helped and support each other, even when they were in a quarrel.

# *Lifelong friendship*

- As we can see even after all they continue being friends. Despite all good and bad, through the years, even when they have families they continue being best friends.
