CLM Presentation Name	Chapter	Slide name	Presentation structure ID	monitoring	mapping
	Targeting	Slider	3.0	-	

Functionality:

On this slide a doctor can choose a number of potential patients, using a slider. We can ask for example" How many patients visit him with particular disease?"
When moving a slider to the right with a finger, the number increases.

CLM Presentation Name	Chapter	Slide name	Presentation structure ID	monitoring	mapping
	Targeting	Draggable	3.1	-	

Functionality:

On this slide we can find out what medicine does the doctor prescribe more often.
On the left side there is a list of medicines, with a help of a finger a doctor can move the medicine to the most suitable place, putting them in the necessary order. On the top there will be a medicine which is frequently prescribed, on the button will be one which is prescribed the least often.
