Возьмите лист бумаги

Заверните уголок так, чтобы он совпал с противоположной стороной

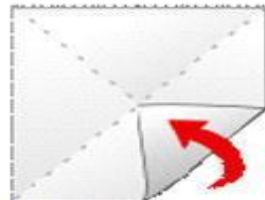

Заверните другой уголок так, чтобы он совпал с противоположной стороной

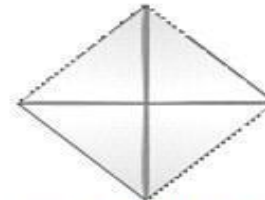

Обрежьте остаток бумаги сверху

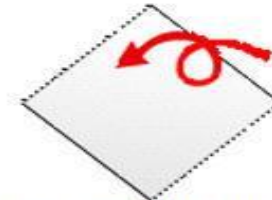

Разверните лист. У вас получился квадрат

Сложите все четыре уголка так, чтобы они встретились в центре

Теперь ваш лист бумаги должен выглядеть так

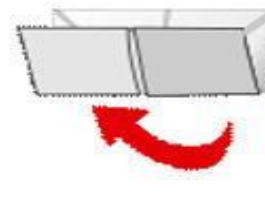

Переверните лист

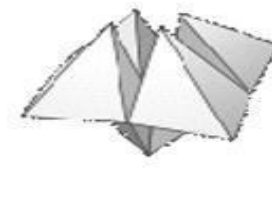

Снова сложите все четыре уголка так, чтобы они встретились в центре

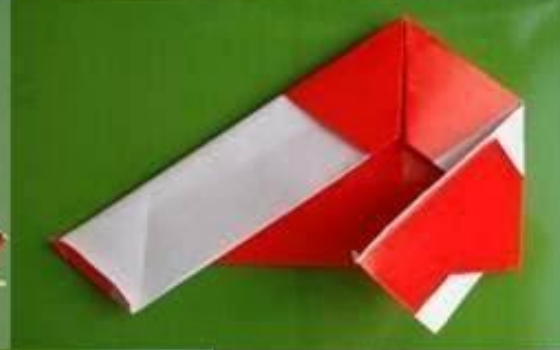

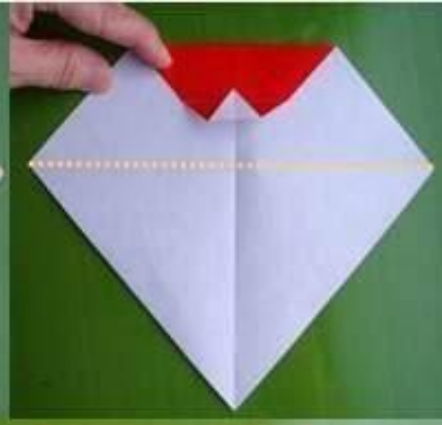

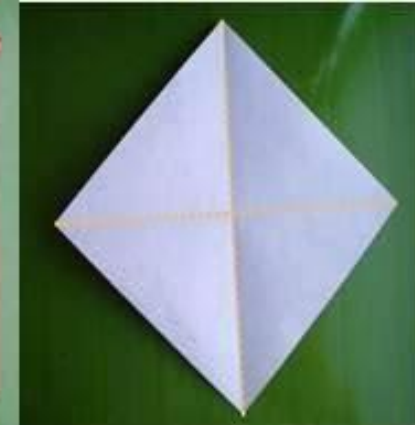

Теперь ваш лист должен выглядеть так

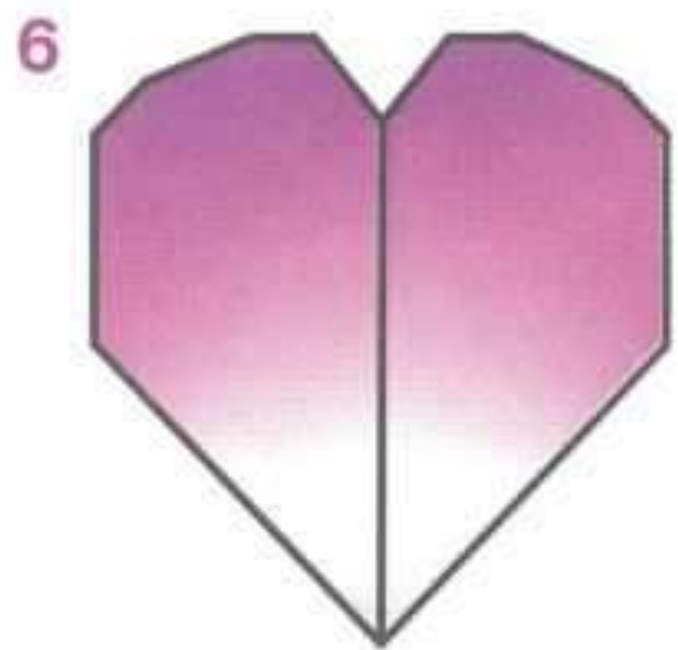

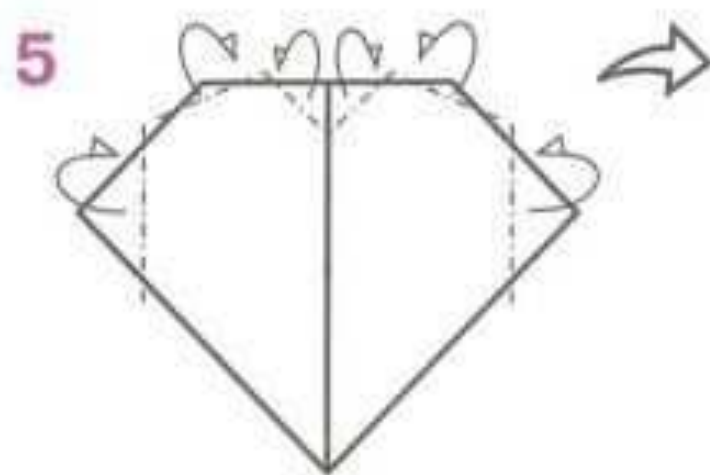

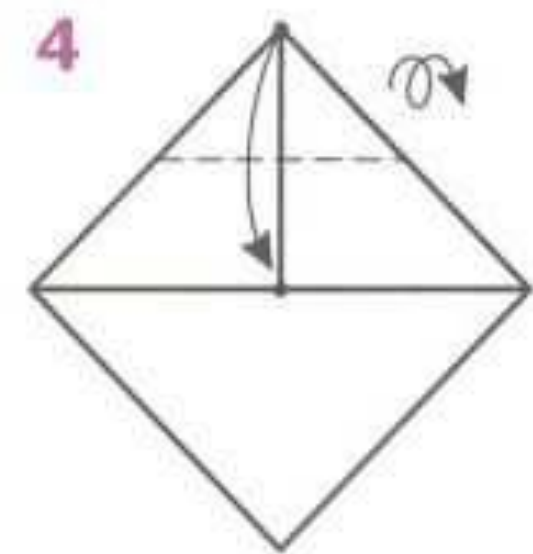

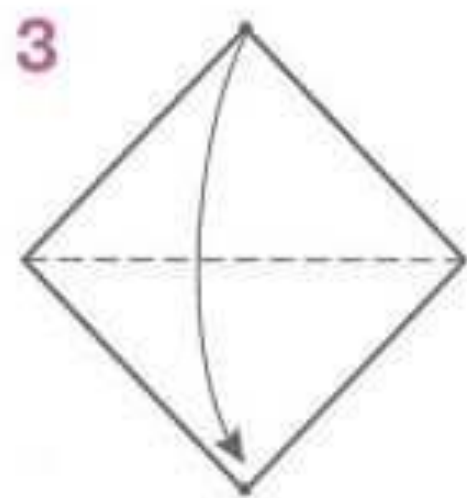

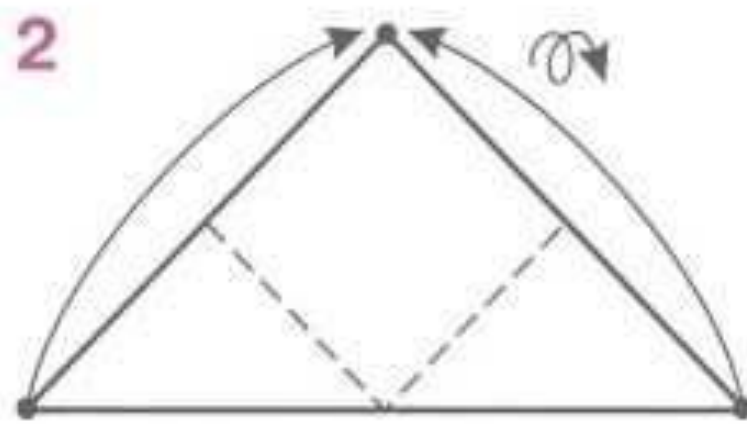

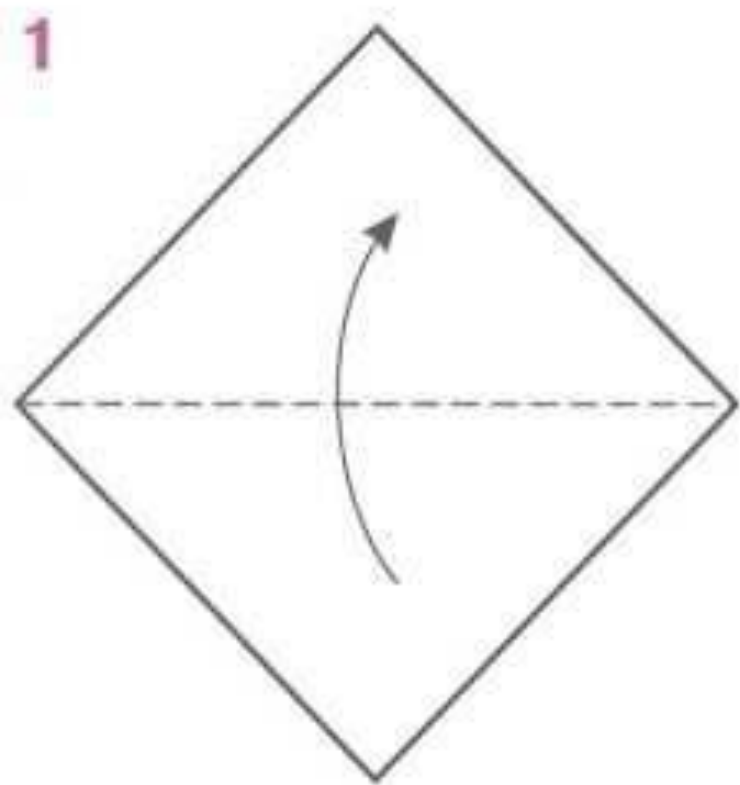

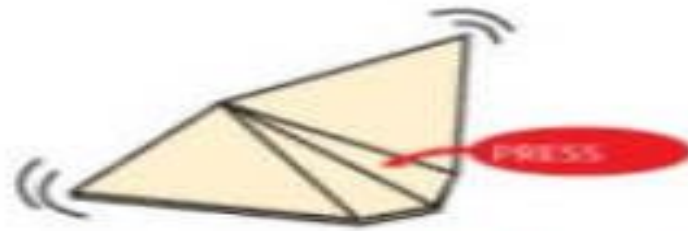

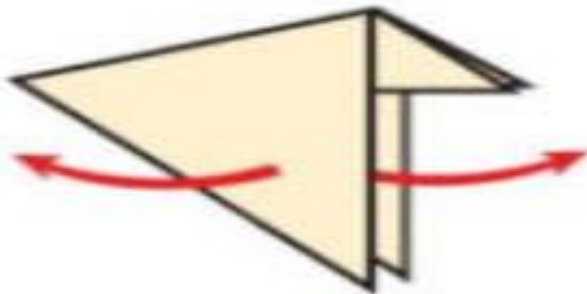

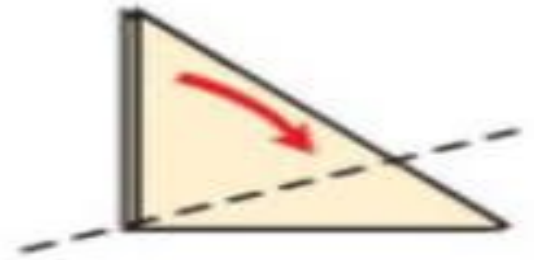

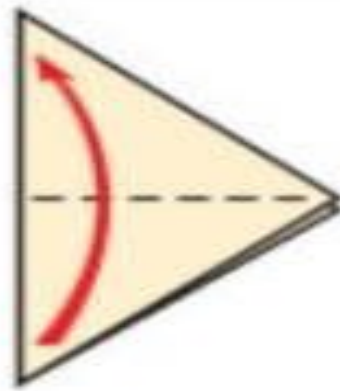

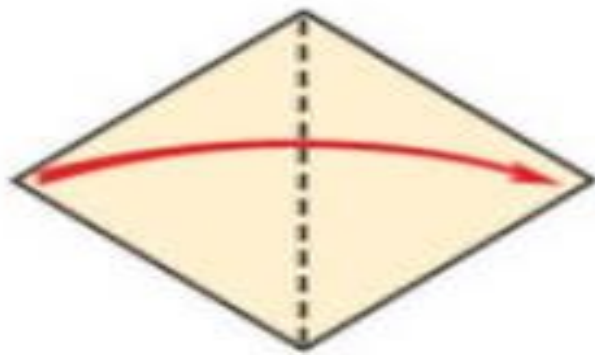

Сложите лист

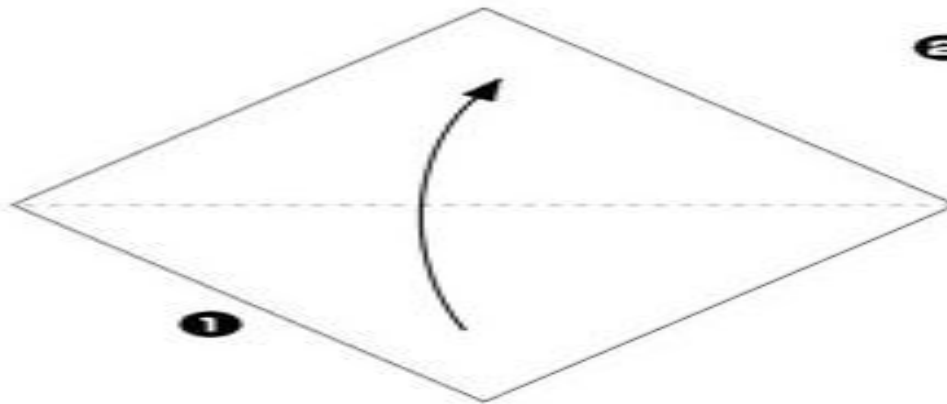

У вас получилось!!!
