

# Showplaces of Canada

# CN Tower

- Arriving in Toronto, you can see the highest television tower, called the CN Tower. The height of this building is more than five hundred meters. Not surprisingly, that this tower recognized visiting card of Toronto. You can visit the observation deck, which offers beautiful views, and sit in a restaurant on a rotating platform.

# *Louisbourg*

▣ *Fortress of Louisbourg* is national historic site of Canada.

It was founded the first European settlement in 1713. In the future, a small fishing village has grown considerably and has become the largest port in the XVIII century in the Americas.

# Great Lakes

- " Great Lakes " is a pool, which was formed during the ice age . It is filled with melt water , which appeared during the thawing of glaciers.
- They are located in North America, in United States and Canada; Lake Michigan is located entirely in the United States, for the rest of the lakes is the border between the United States ( $\frac{2}{3}$  waters ) and Canada ( $\frac{1}{3}$  waters of lakes) . By the Great Lakes are the five biggest : Superior, Huron, Michigan , Erie and Ontario , sometimes they include and Lake St. Clair , they form the largest group of freshwater lakes on Earth
- Visit all five " Great Lakes " for one or more days - it is impossible

# Notre-Dame de Montreal

- One of the greatest buildings located in Montreal, Notre-Dame de Montreal. The original building was constructed in simpler forms, in the late sixteenth century, but in the first half of the nineteenth been remodeled. The main feature of the cathedral is a neo-gothic style of architecture. This is very different from other similar facilities in Canada. The building also has two twin towers, which is famous cathedral.

# Harbour Centre

- Vancouver is known for the fact that you can see the famous lookout tower Harbour Centre. Construction was completed in 1977. The tower height is 177 meters. And at the height of 130 meters constructed a special viewing platform. The tower itself consists of twenty-eight floors, which are mainly located in different offices. On the site you can see the Pacific Ocean and the city with its lights parks and gardens.

# Niagara Falls

- Niagara "roaring water" - a waterfall, falling from a height of 50 meters , a miracle of nature and the attraction of Canada and the United States .
- Near the waterfall are two islands - Moon and the Goat , and the rushing water from a rock in three streams . As it reaches a width of 800 meters. Niagara Falls can be seen from a bird's flight , rising by helicopter or by boat . At the foot of the falls is " Cave of the Winds " , where tourists descend on the express elevator . Each of us received a raincoat and bag for clothes .
- Canadians are very proud of that " Big Horseshoe " is on their territory

# Thank you for your attention!
