SLOW **is a revolution,** an alternative to our obsession with speed.

You see more when you take things a little slower,
like you notice every little detail
when a film is shown in slow motion.

Slow can manifest itself in any
design, object,
space or image
that encourages a promotion of local artisans,
local designers, local flavours.

It's an endless idea
you can make your own in any way you want to.

Slow works to counteract fast life
and the disappearance of local traditions.

In a loud, crowded, crazy world,
it's good for the soul
to live life better by living slower.

- I hope that soon there will be more such cities, where the soul could live in harmony with the body! life without stress, depression and diseases! Such cities where people could enjoy their life
