

# *Summer holidays*

Summer is very warm and favorite times the year the children.

In the summer of people go on the sea

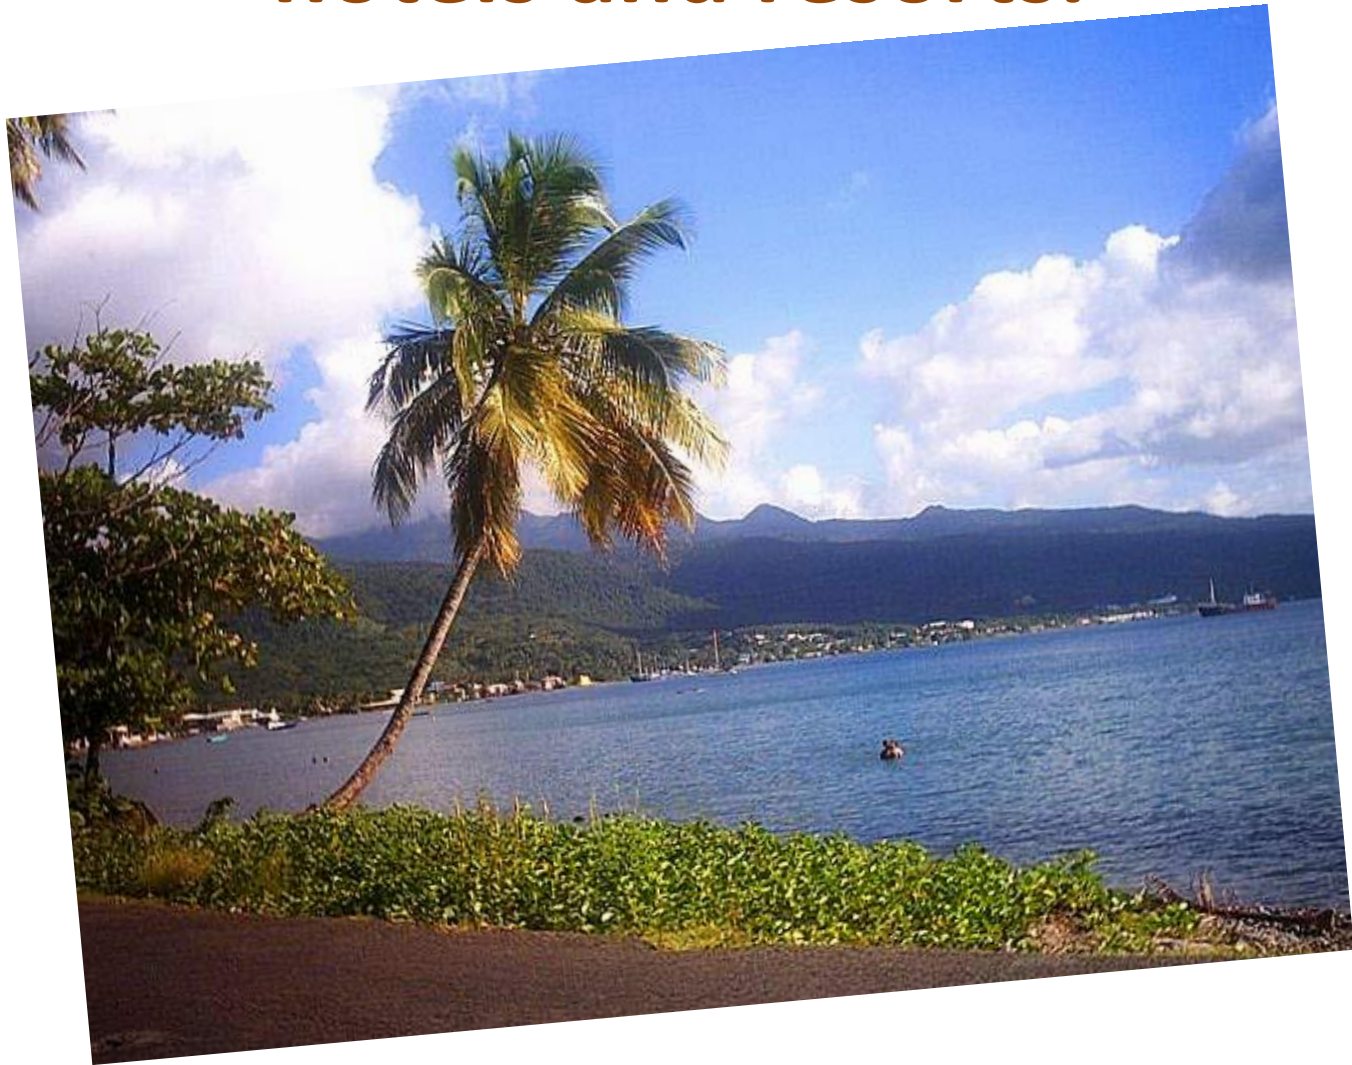

**On the seas sometimes there are  
hotels and resorts.**

People go to the sea to have a rest

You only look at the nature in the  
summer!

Summer is not only good on the seas and in hotels, but simply in the nature

Brand New Day, Grinnell Point, Summer, Glacier National Park, Montana

For example in the mountains, too, the summer comes.

Summer is a time of cold drinks and ice  
-cream

But the summer is not only the sea, the nature and hotels, but also friends!

With friends is fun!

Last summer I had a lot of  
fun.

- To me came girlfriend. She was in the summer of birthday and we went bowling celebrate it.

We realized that the summer is different : it can be on the sea, with friends or simply in the nature.

I think that summer is the most bright  
and unforgettable time!
