

The future of Logistics in Kazakhstan

Nurbaeva Damelya, 3tl

The main trends

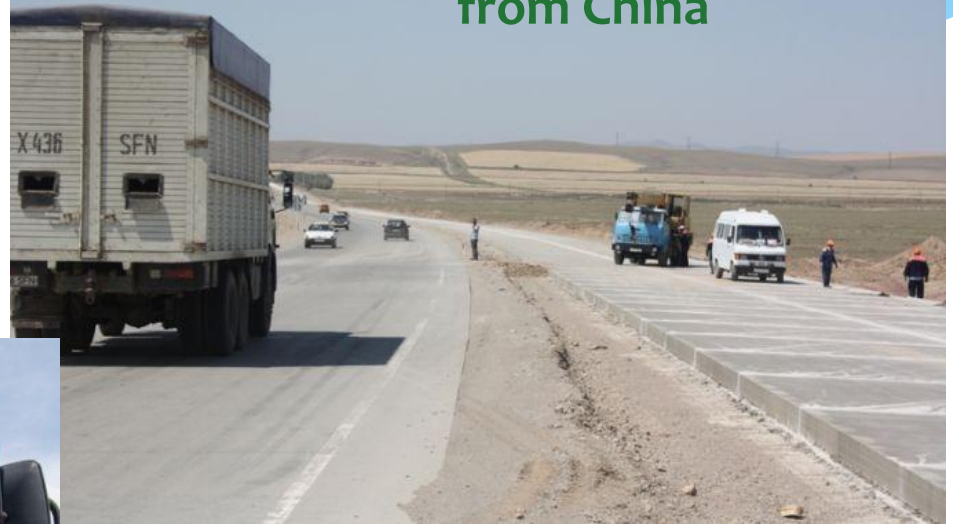

- * **poor infrastructure**
- * **financing despite an economic crisis**
- * **very slow implementation of new projects: construction of new highways, rail lines**

Western Europe-Western China Highway

Construction will be completed by 2016

Facilitation of imports goods from China

The most ambitious building project with the participation of China since the construction of the Great Wall of China

* *Advantages*

- * **Toll road - the cost of construction will pay off quickly**
- * **Reduction in transport costs**
- * **Faster delivery of goods**

* *Disadvantages*

- * **constantly more expensive fare on the route**
