

***THE MOST
UNUSUAL HOUSES
ALL OVER THE
WORLD***

Utemuratova Aru

GK-11

Not devoted to humor and education. Unusual building shown in the photo, appeared in the Dresden art-the center "Courtyard of elements". The wall "singing house" covers a system of drains and funnels. When it rains, the whole building becomes a giant musical instrument, performing a kind of explanation.

Building grand piano and violin

It" musical" the building in the form of a grand piano and a violin – a unique, surprising and beautiful architectural miracle.

It is located in the city of Huainan, in China. The main building is in a grand piano made of black glass, and in a violin from transparent glass the ladder is located.

Library to Kansas – City(United States of America)

The reason is an unusual architecture of a facade, in creation which the local population took part. Inhabitants were suggested to be helped with a choice of the most known books where mentions of their hometown meet. Result of the conducted survey – emergence of a facade of the building in the form of a book shelf – the big backs of books built in a row authors famous for the whole world.

The amazing house is in the State of Tennessee. It represents entertainment center and is very popular among residents of the USA and Canada. There is a mass of entertainments: the room with earthquake measuring six balls imitation, the room for meditations, a virtual roller coaster, everywhere chairs hang down from a ceiling. In other words, "all head over heels".

House basket

The building appearance which represents a basket is located in the USA in the State of Ohio. And it that other, as headquarters of the Longaberger company, being the leader in America in production of baskets. In fact, this architectural monument is the biggest basket in the world. The area which was occupied by the building makes 180 thousand sq.m. On construction it buildings left nearly two years.

Projecting of the building was made so that looks as a basket to the trifles, even handles lie as at the real basket.

This private house, built in 1861, became the main attraction of the commune of Plougrescant in France. The structure actually looks unusual: it is located on a small island and is sandwiched on two sides by cliffs that protect it from wind and storms. Home owners, tired of the special attention and the influx of visitors, but to admire it from you and no ban!

"The turned house"

The "turned house" — the mystical museum in the State of Tennessee. That costed only by history of its creation! The building was once research laboratory and was on one of islands near the Bermuda Triangle. Scientists who worked and made experiments in this building, the whirlwind, huge was created by a tornado, but they didn't calculate its force. The whirlwind picked up the house, and it landed, almost intact, on the roof.

The film is over, but the village continues to be popular among fans of the famous film. Fans of "the Lord of the rings" from all over the world come to the village Hobbiton to live to see the hobbit holes and other colorful buildings, embodied from the fairy tale to life.

Conclusion

In some parts of the world was born custom house.

It shows that modern humans have a very unusual fantasy.

There are wonderful, fabulous and frightening. Some even like a puzzle, some houses were built on the trees.
