# Three Bubble Steps

With Bubbles, everything is Perfect

**All their equipment and instruments are alive.**

A peep at some distant orb has power to raise and purify our thoughts like a strain of sacred music.

**A red flair silhouetted the jagged edge of a wing.**

As the minuteness of the parts formed a great hindrance to my speed, I resolved, contrary to my first intention.

**Almost before we knew it, we had left the ground.**

As I went on, still gaining velocity, the palpitation of night and day merged into one continuous greyness.

## She stared through the window at the stars.

I shall see the face of Mars, anyhow, and that will be a rare experience. It seems to me that a view.
