It was the first trip to Astana.
I and my friends went to this
city for 10 days.
For the first time in life I went
to other city without parents.
Reason : musical competition
under the name "With Love
from Korea".

We rented apartment in a
fine housing estate
"Nomad".
The apartment was
three-room, cozy, spacious.

We bought products for 10 days.
But we ate them within 5 days because to us came our creative friends Sam and Capitall Kulak.

- There came day of selection round for performance at a concert "With love from Korea"

We sang "Nan Pappa" song that meant "We are busy"

We are happy! ! !

We passed selection round!

Then we looked at sights of Astana.
We had fun, had a rest and enjoyed life!
There was fine time.

Also when there were in the apartment we cooked a lot of tasty food and enjoyed time!

We danced, sang and went crazy from fun!

And still I fell ill because it is very cold in Astana .
There was a problem, could i sing in the competition final?

There came day of the final of the competition "With Love from Korea".

I hadn't voice. I didn't recover.

With girls decided to go to mosque and to pray.

So, rehearsal before a concert!

Performance of our group 2B!
Our group represented our city of Alma-Ata!
We are proud!

There was a miracle!
My voice appeared directly
on a scene!

We perfectly sang the song!
Came home and had fun!

The trip was excellent!
I thank parents for that
that supported me and gave
me money!
