

Viewing English
YouTube channels as
a way to improve
pronunciation and
listening skills in
English in the process
of its learning.

Mazurkevych Tetjana Volodymyrivna

Form 11-B

Khmelnytskyi school №1 with extensive
learning of English

Supervisor: Kupchyshyna Lyidmyla

Mukolaivna, teacher of English language at
school №1

Relevance of the project:

The actuality of the work is to show learners one of the ways of learning English using modern computer technologies.

The Aim of the Research: to explore the effectiveness of learning English using educational YouTube channels for improving listening skills and pronunciation.

The Subject of the Research: the ways of learning English

The Object of the Research: educational YouTube channels.

The tasks:

1. To analyze the effectiveness of educational YouTube channels in the process of learning English by making a poll among pupils aged 13-16.
2. To select the most effective YouTube channels.
3. To produce recommendations on how to use educational YouTube channels.

Methods

- Theoretical methods: analysis, synthesis, induction, axiomatic, comparison, classification.
- Empirical method: a poll.
- Processing methods: statistical analysis, cluster analysis

On the first task

A poll was held in Khmelnytsky school N^o1 among children aged 13 to 16 years. The main objectives of the poll were:

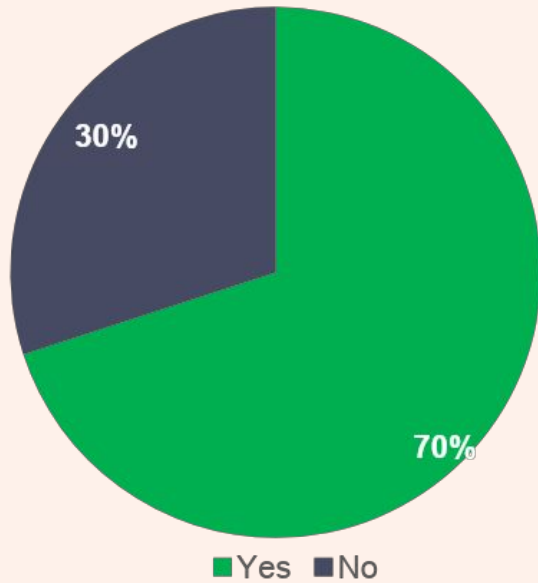

1. To analyze how much children learn English through Internet service YouTube.
2. To study the efficiency of learning English by using English YouTube channels.

Students were divided into two age groups:

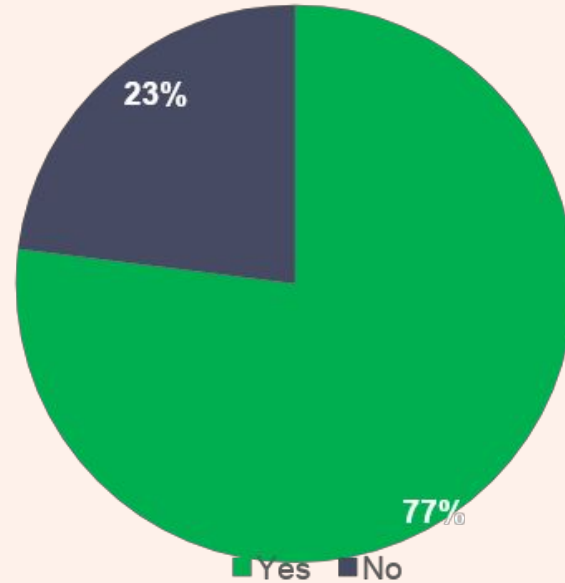

- 1) From 13 to 14 years;
- 2) From 15 to 16 years.

Students were asked four questions.

Age from 13 to 14

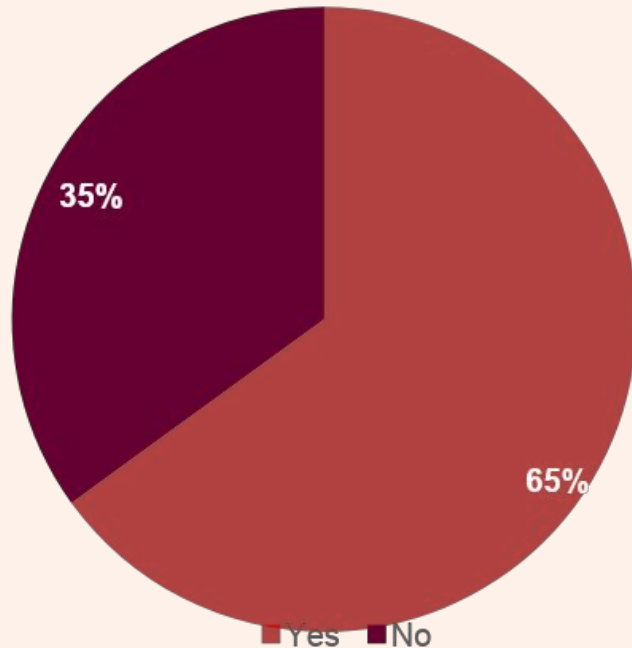

Age from 15 to 16

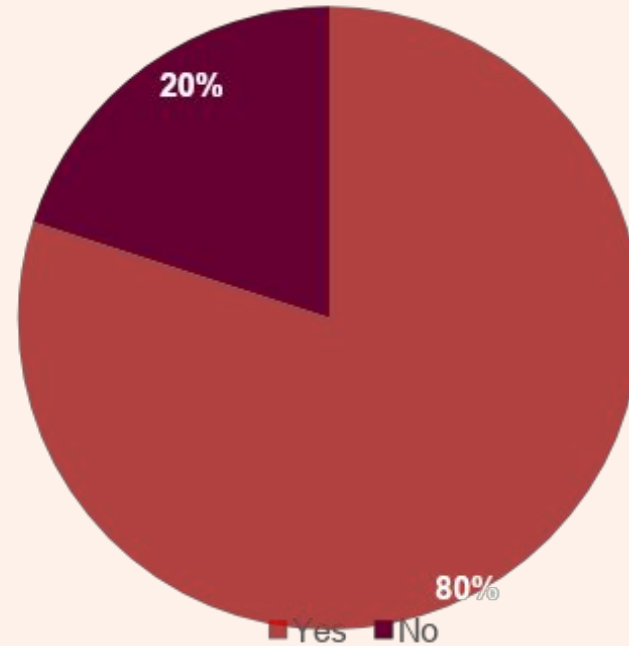

«Do you watch English YouTube channels?»

Age from 13 to 14

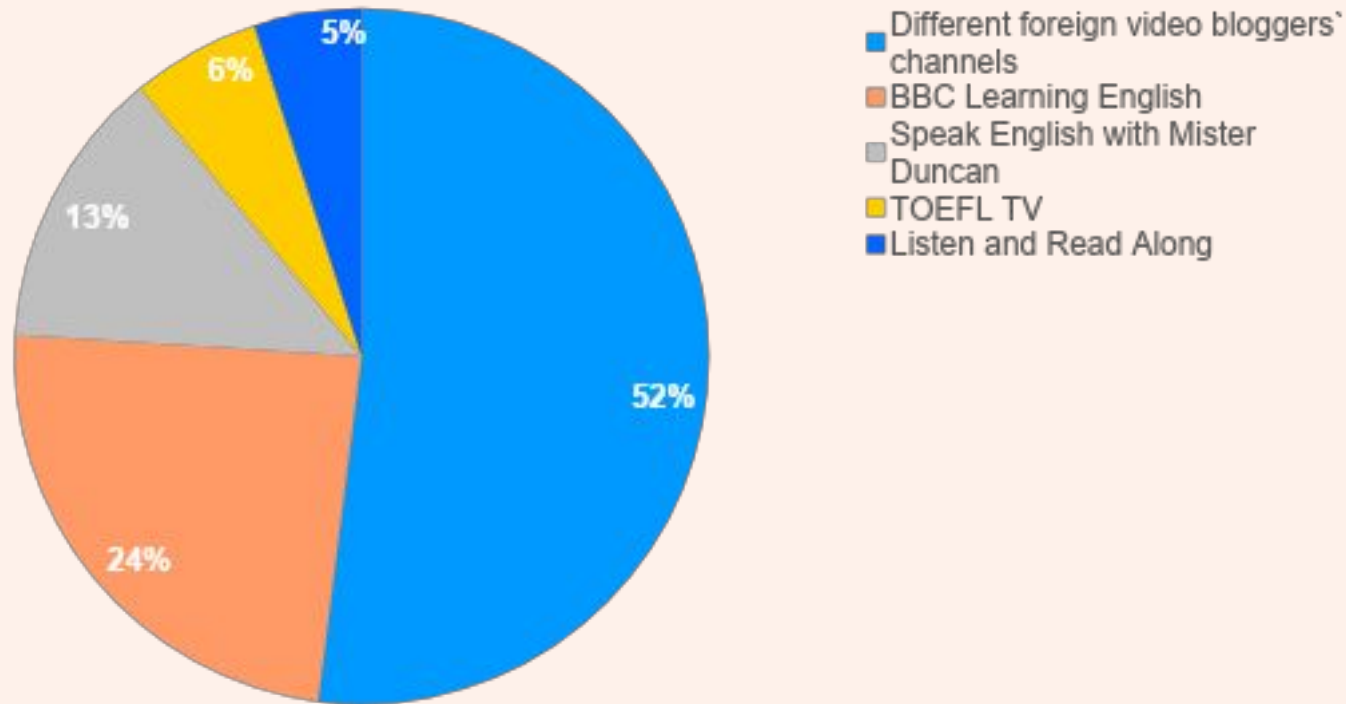

Age from 15 to 16

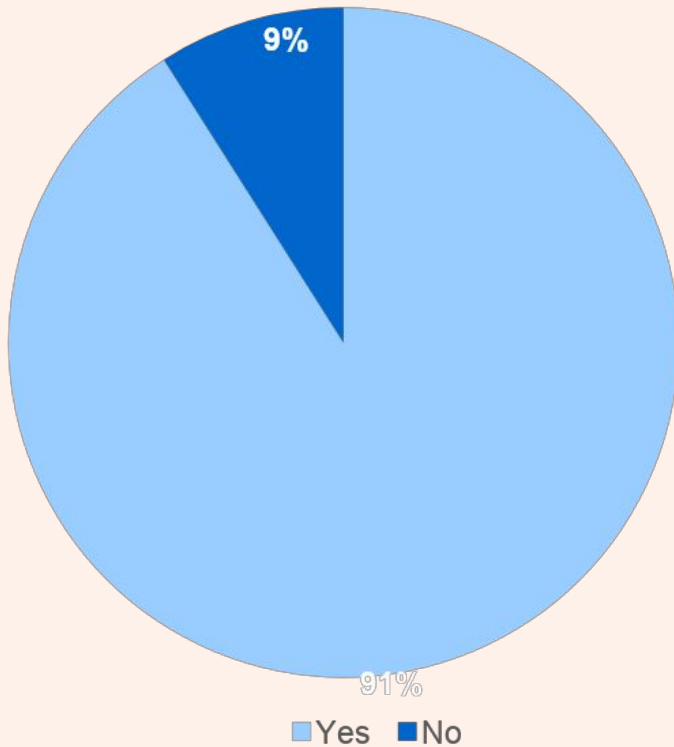

«Has viewing of English YouTube channels improved your knowledge of English language?»

The most viewing English YouTube channels among students of age from 13 to 16

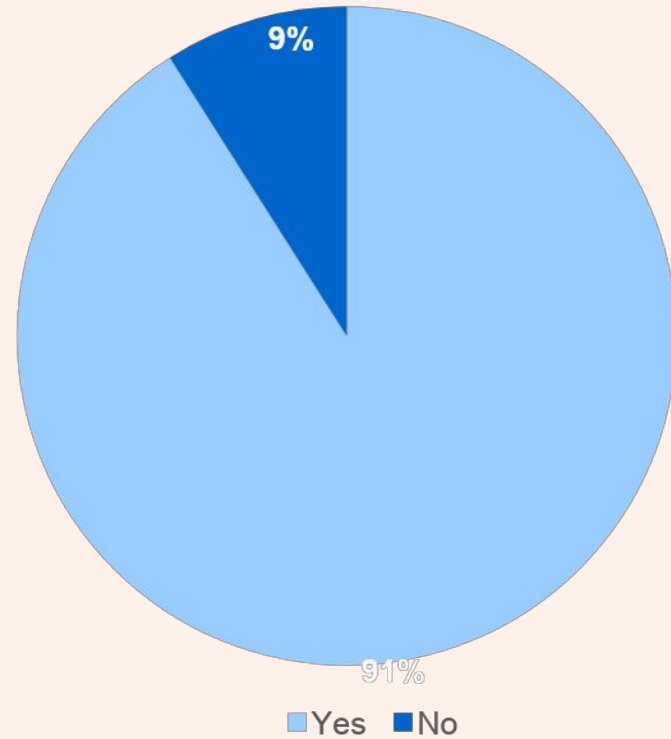

«What YouTube channels helping you to study English do you watch?»

Age from 13 to 14

Age from 15 to 16

«Are your favourite YouTube channels connected with you hobbies or something that you like?»

Results of the first task

This poll provides an understanding of the following: properly selected YouTube channels and their materials really help to improve knowledge of English language. Viewing English YouTube channels best suits children aged from 15 to 16.

On the second task

There were made two lists of the most effective YouTube channels.

1. The fifteen of the best YouTube channels to learn English according to creative website AdMe.
2. The best YouTube channels to learn English according to the poll held at school N°1.

The fifteen of the best YouTube channels to learn English according to the creative website AdMe.

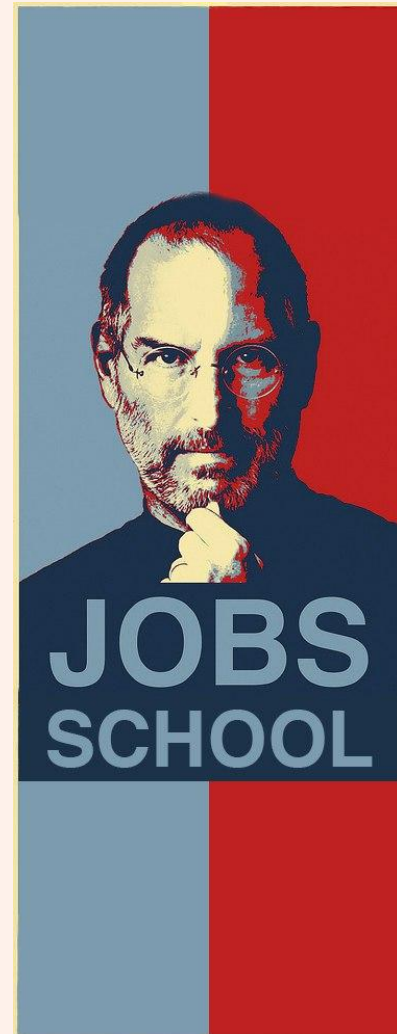

The list is divided into two lists:

On the third task

On this task recommendations were produced on how to use educational YouTube channels. There are six most important of them.

Recommendations

Six most important recommendations on how to use educational YouTube channels

1. Set goals and go for them
2. Make notes
3. Repeat phrases
4. Pause and rewind
5. Watch TV Shows
6. Repeat the whole text out loud after the speaker

Results of the third task

These small and easy recommendations will help to understand how to use YouTube channels better and with a lot of benefits.

Conclusions of the work

- Based on the studies we can conclude that English YouTube channels is an effective way of learning English. Proof of this are the results of a poll that shows that more than two thirds of young people watch YouTube channels in English, making them almost three quarters feel improvement in English. More than 90% of children watch videos related to their interests, so we can say that if they watched it in English, the success of these students in English would grow up with enormous speed.

Thank you for attention
