

*Seasons*

Spring is green

Summer is bright

A photograph of a narrow, paved path winding through a park or forest during autumn. The path is covered with fallen yellow leaves. On both sides of the path, there are large trees with dense, bright yellow foliage, creating a canopy effect. The ground is covered in a thick layer of fallen yellow leaves. In the distance, the path leads towards a brighter area where the trees are less dense. A wooden fence is visible on the right side of the path in the background.

Autumn is yellow

A photograph of a winter forest scene. The ground is covered in a thick layer of snow. Several trees, including evergreens and bare deciduous trees, are visible. The branches of the trees are heavily laden with snow. In the background, a soft, golden light suggests a low sun, creating a hazy, atmospheric effect. The overall color palette is dominated by whites and light blues, with a warm glow from the background light.

Winter is white

Spring is green
