

Water pollution is very dangerous for our planet!

Don't waste fresh water!  
Only 3% of water on the Earth is fresh!

Waste water from  
factories pollute our  
rivers, lakes, seas.

Air pollution! The biggest sign of air pollution is smog!

All these gases are causing  
“greenhouse effect”!

Global warming will change the ecosystem and animals unable to adapt soon will die off.

A composite image showing a globe of Earth being held by four hands of different skin tones against a starry space background. The hands are positioned around the globe, with fingers spread, suggesting a collective effort to protect the planet. The text "We must protect our planet!" is overlaid in white, sans-serif font across the center of the globe.

We must protect our planet!
